

Proposed Redevelopment of Bankstown Compass Centre
Flood Risk Assessment

Figure No.	Figure Title
1	Location Plan
2	Key Features of Existing Drainage System in Vicinity of Development Site
3	Key Features Influencing Patterns of Overland Flow in North-East Corner of Development Site
4	Hydraulic Model Layout
5	Patterns of Overland Flow in Vicinity of Development Site Pre-developed Conditions - 5% AEP
6	Overland Flow Velocities in Vicinity of Development Site Pre-developed Conditions - 5% AEP
7	Patterns of Overland Flow in Vicinity of Development Site Pre-developed Conditions - 1% AEP
8	Overland Flow Velocities in Vicinity of Development Site Pre-developed Conditions - 1% AEP
9	Provisional Hydraulic Hazard in Vicinity of Development Site Pre-developed Conditions - 1% AEP
10	Velocity and Depth Product in Vicinity of Development Site Pre-developed Conditions - 1% AEP
11	Patterns of Overland Flow in Vicinity of Development Site Pre-developed Conditions - PMF
12	Overland Flow Velocities in Vicinity of Development Site Pre-developed Conditions - PMF
13	Layout of Proposed Redeveloped Bankstown Compass Centre
14	Patterns of Overland Flow in Vicinity of Development Site Post-developed Conditions - 5% AEP
15	Impact of Proposed Development on Patterns of Overland Flow Post-developed Conditions - 5% AEP
16	Overland Flow Velocities in Vicinity of Development Site Post-developed Conditions - 5% AEP
17	Impact of Proposed Development on Overland Flow Velocities Post-developed Conditions - 5% AEP
18	Patterns of Overland Flow in Vicinity of Development Site Post-developed Conditions - 1% AEP
19	Impact of Proposed Development on Patterns of Overland Flow Post-developed Conditions - 1% AEP
20	Overland Flow Velocities in Vicinity of Development Site Post-developed Conditions - 1% AEP
21	Impact of Proposed Development on Overland Flow Velocities Post-developed Conditions - 1% AEP
22	Provisional Hydraulic Hazard in Vicinity of Development Site Post-developed Conditions - 1% AEP
23	Velocity and Depth Product in Vicinity of Development Site Post-developed Conditions - 1% AEP
24	Patterns of Overland Flow in Vicinity of Development Site Post-developed Conditions - PMF
25	Impact of Proposed Development on Patterns of Overland Flow Post-developed Conditions - PMF
26	Overland Flow Velocities in Vicinity of Development Site Post-developed Conditions - PMF
27	Impact of Proposed Development on Overland Flow Velocities Post-developed Conditions - PMF
