

SUPPORTING PLAN

Generic Plan of Management

for Community Land and Crown Land

7

destinations

Safe & Strong

A proud inclusive community that unites, celebrates and cares

Safe & Strong documents are guided by the Social Inclusion Lead Strategy. Supporting Plans, Action Plans and Policies cover such themes as being a child friendly City, children's services, community safety and crime prevention, inclusiveness, community services, universal access, reconciliation, ageing, community harmony and youth.

Clean & Green

A clean and sustainable city with healthy waterways and natural areas

Clean & Green documents are guided by the Environmental Sustainability Lead Strategy. Supporting Plans, Action Plans and Policies cover such themes as managing our catchments and waterways, natural resources, hazards and risks, emergency management, biodiversity and corporate sustainability.

Prosperous & Innovative

A smart and evolving city with exciting opportunities for investment and creativity

Prosperous & Innovative documents are guided by the Prosperity and Innovation Lead Strategy. Supporting Plans, Action Plans and Policies cover such themes as revitalising our centres, employment, investment, being SMART and creative, and providing opportunities for cultural and economic growth.

Moving & Integrated

An accessible city with great local destinations and many options to get there

Moving & Integrated documents are guided by the Transport Lead Strategy. Supporting Plans, Action Plans and Policies cover such themes as accessibility, pedestrian and cycling networks, pedestrian and road safety, transport hubs, and asset management.

Healthy & Active

A motivated city that nurtures healthy minds and bodies

Healthy & Active documents are guided by the Health and Recreation Lead Strategy. Supporting Plans, Action Plans and Policies cover such themes lifelong learning, active and healthy lifestyles, and providing quality sport and recreation infrastructure.

Liveable & Distinctive

A well designed, attractive city which preserves the identity and character of local villages

Liveable & Distinctive documents are guided by the Liveable City Lead Strategy. Supporting Plans, Action Plans and Policies cover such themes as preserving the character and personality of centres, heritage, affordable housing, and well managed development.

Leading & Engaged

A well- governed city with brave and future focused leaders who listen

Leading & Engaged documents are guided by Council's Lead Resourcing Strategies. Supporting Plans, Action Plans and Policies cover such themes as open government, managing assets, improving services, long term funding, operational excellence, monitoring performance, being a good employer, civic leadership, and engaging, educating and communicating with our community.

Strategic Planning Framework Summary

The Strategic Planning Framework (SPF) maps out the role of all current and future Council strategies and plans that work to deliver the vision for the City. The framework works from the highest level of strategic direction in the Community Strategic Plan through to more detailed plans that will eventually drive works projects and programs on the ground.

The framework is comprised of the following levels:

- The **COMMUNITY STRATEGIC PLAN (CSP)** is our highest level plan and translates the community's desired outcomes for the city into key destinations. The CSP includes community suggested actions which can be tested in the development of all other plans.
 - **LEAD STRATEGIES** are Council's response to the CSP and provide high level strategic direction on key challenges facing the City. They are informed by a sound evidence base that considers key trends and an understanding of the implications of key issues and opportunities on the City.
- **SUPPORTING PLANS** break down broad theme areas discussed in LEAD STRATEGIES into smaller themes providing high level actions. SUPPORTING PLANS identify broad works projects and programs required to deliver on these actions. Supporting plans include indicative costing and resourcing requirements and delivery timeframes.
- **DETAILED ACTION PLANS** take actions from SUPPORTING PLANS and identify specific works projects and programs required to deliver on these actions. Supporting plans include detailed costing and resourcing requirements and delivery timeframes.
 - **GUIDELINES, POLICIES AND CODES** provide detailed information, rules for activities or guidance for specific works on Council or other lands.

Acknowledgements

The City of Canterbury Bankstown acknowledges the traditional country of the Daruk (Darag, Dharug, Daruk, Dharuk) and the Eora People.

We recognise and respect their cultural heritage, beliefs and relationship with the land. We acknowledge they are of continuing importance to Aboriginal and Torres Strait Islander people living today.

01

Introduction

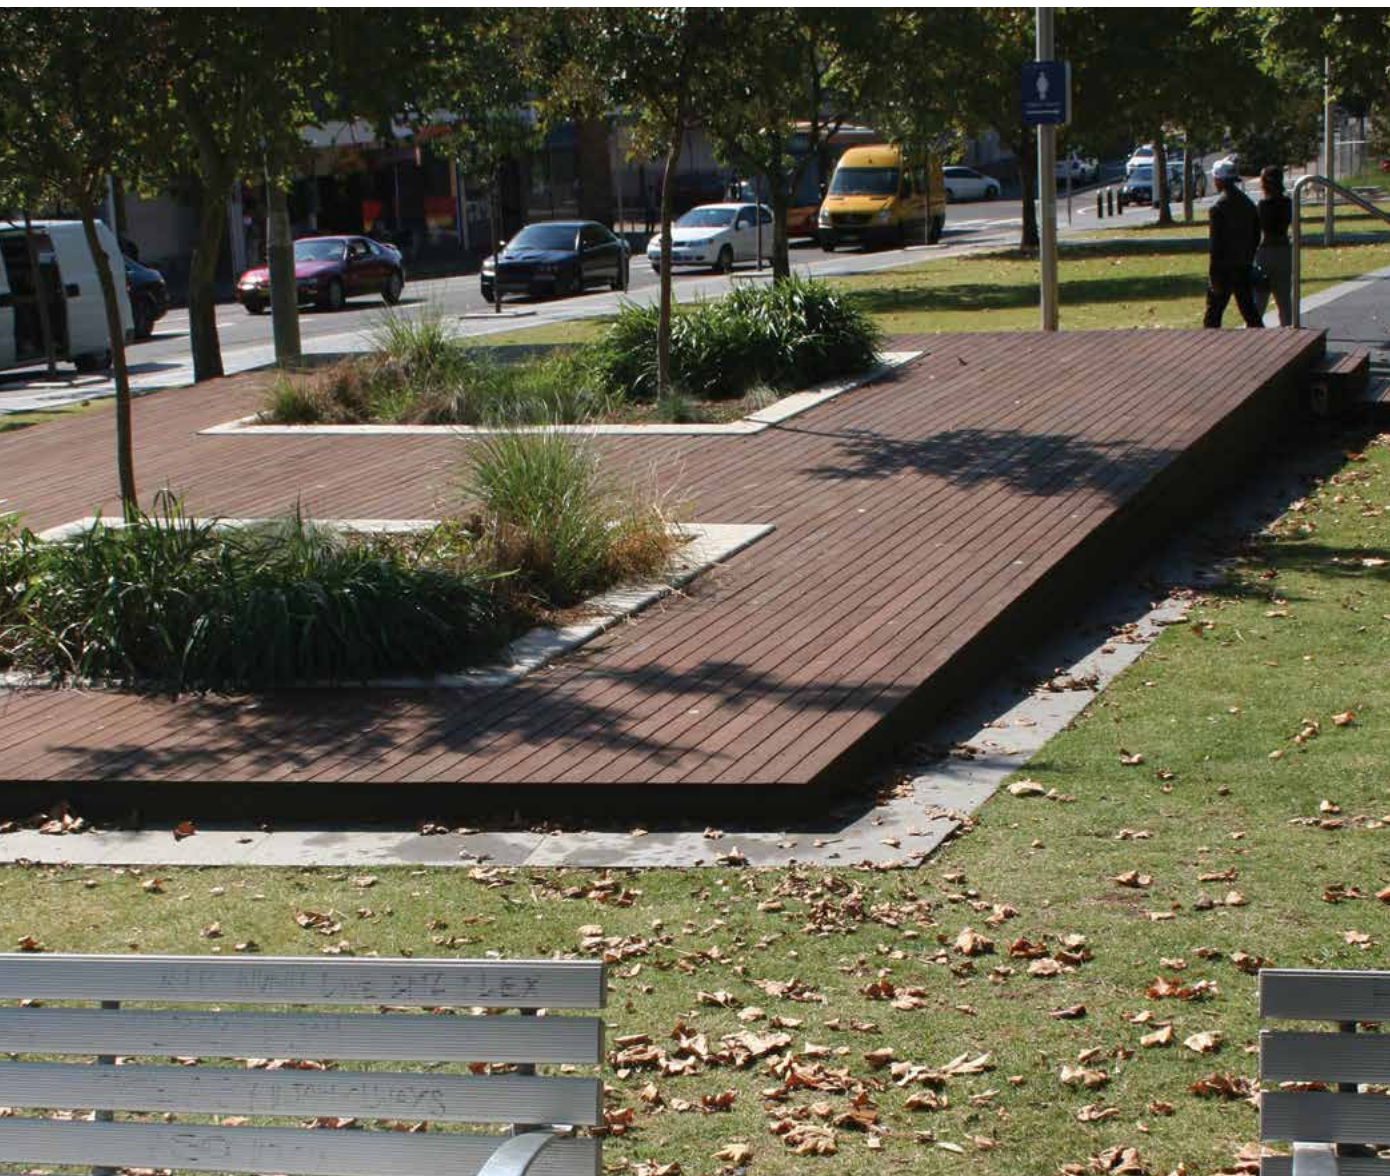

1.0 Background

In 2016 the former Bankstown and Canterbury Councils amalgamated to become the City of Canterbury Bankstown. This document is the first generic Plan of Management (PoM) created for the public open spaces that will service the current and future needs of a growing community.

The document is both a management guide for Council and a commitment to the residents of the shared aspirations for the open spaces that form our parks, sportsgrounds, natural areas and civic places.

Plans of Management are required under the *Local Government Act 1993* and the *Crown Lands Management Act 2016*. A Plan of Management must detail the land use, management objectives, development and monitoring for the majority of open space in Council ownership or care and control. This PoM replaces 10 existing PoMs of the former councils as listed below:

- *Community Land Generic Plan of Management* (Bankstown City Council, 2014)
- *Generic Plans of Management for Parks, Playgrounds and Sportsgrounds* (Canterbury City Council, 1995)
- *Generic Plan of Management for Community Land Leased by particular Community Groups* (Canterbury City Council, 1995)
- *Generic Plan of Management for undeveloped Community Land reserved for Future Major Road Construction associated with the M5 Tollway* (Canterbury City Council, 1995)
- *Plan of Management for Various Parcels of Community Land* (Canterbury City Council, 1996)
- *Plan of Management for Community Land in the Vicinity of Wolli Creek* (Canterbury City Council, 1996)
- *Plan of Management for Various Parcels of Land in the Vicinity of Salt Pan Creek* (Canterbury City Council, 1997)
- *Community Land Plan of Management for 58 Moorefields Road, Kingsgrove* (Canterbury City Council, 1997)
- *Plan of Management for Park at 50 Knox Street, Belmore* (Canterbury City Council, 1998)
- *Ewen Park Plan of Management* (Canterbury City Council, 2008)

1.1 Community Land and Plans of Management

1.1.1 What is Community Land and Crown Land?

The *Local Government Act 1993* describes community land as land that is owned or controlled by Council and dedicated for community use. There are **5 categories** of community land comprising Park, Sportsground, General Community Use, Cultural Significance and Natural Area.

Crown land is owned by the state government and many parks in the City of Canterbury Bankstown are either entirely or partially Crown land. It is managed under the *Crown Land Management Act 2016* which allows councils to manage it in a similar way to community land.

Community land and Crown land comprise a wide variety of properties including iconic parks, regional and district sportsgrounds, smaller recreation reserves, natural areas and playgrounds. It is recognised as an important component of the urban environment, providing opportunities for recreation, leisure and contact with the natural environment. Community and Crown land can have more than one function, with some containing power easements, drainage reserves and access ways.

1.1.2 Plans of Management for Community and Crown Land

Plans of Management guide the use and management of community and Crown land owned or under the care, control and management of the City of Canterbury Bankstown. They are required under the *Local Government Act 1993* for all community land and Section 36 sets out the requirements:

A PoM for community land must identify the following:

- a. The category of the land;*
- b. The objectives and performance targets of the plan with respect to the land;*
- c. The means by which the council proposes to achieve the plan's objectives and performance targets; and*
- d. The manner in which the council proposes to assess its performance with respect to the plan's objectives and performance targets.*

Crown Land Management Act 2016

This Act sets out management actions for Crown land which is owned by the state government and can be vested by government gazettal to councils for care and control for a specific purpose. This Act requires councils to prepare and adopt PoMs in accordance with the *Local Government Act*.

This *Generic Plan of Management for Community Land and Crown Land* covers the majority of the community land and Crown land within the City of Canterbury Bankstown. It identifies clear objectives and establishes directions for planning, resource management and maintenance of public open space. It defines Council policy and direction and provides a basis for assigning priorities in works programming and budgeting within Council's financial capacity.

Council may not undertake any activities, uses or developments which are not provided for in this PoM. Any changes to the PoM (such as activities allowed in a category of community land) must be publicly exhibited in accordance with the *Local Government Act*.

Community land not covered by this document requires site specific PoMs to be prepared. Council prepares specific PoMs for community land for reasons such as substantial size, large number and variety of uses, and community concern about particular sites.

This PoM does not cover public open spaces and recreation facility assets within the City of Canterbury Bankstown that are managed by other entities such as national parks, private golf courses and Canterbury Racecourse.

1.1.3 Other legislation pertaining to this Plan of Management

This legislation affects the management of community and Crown land. The management actions, uses and developments that are allowed in this PoM must comply with this legislation.

Environmental Planning and Assessment Act 1979 (NSW)

This Act ensures that the effects on the natural environment, along with social and economic factors, are taken into account by Council when granting approval for or undertaking works, developments or activities. This Act is also the enabling legislation for several State Environmental Planning Policies (SEPPs) which have a direct influence on open space management.

State Environmental Planning Policy (SEPP) 19 (NSW)

This Policy directs the management of bushland in urban areas, so is applicable to PoMs for community land categorised as natural area – bushland.

State Environmental Planning Policy (Infrastructure) 2007 (NSW)

This policy lists development allowed with consent or without consent on community land.

National Parks and Wildlife Act 1974 (NSW)

This Act specifically relates to the protection of sites of pre and post European contact, archaeological significance and the protection of native flora and fauna. This relates to community land categorised as cultural significance, natural area or park.

Biodiversity Conservation Act 2016 (NSW)

This Act assists to maintain a healthy, productive and resilient environment for the greatest well-being of the community, now and into the future, consistent with the principles of ecologically sustainable development.

Native Title Act 1993 (Cth)

This Act recognises the interest that indigenous Australians may still hold in some areas of Crown land. The Act sets out how native title rights are to be recognised and protected, making provisions for Aboriginal and Torres Strait Islanders establishing the existence of native title, lodging native title claims, determining and validating the extinguishment of native title, and dealing with land and waters where native title may not have been extinguished. On Crown land native title rights and interests must be addressed unless native title has been extinguished, surrendered or determined by a court to no longer exist.

Fisheries Management Act 1994 (NSW)

This Act includes provisions for the management of state fisheries, including riparian zone management and management of waterways and threatened marine/freshwater aquatic species. This relates to community land categorised as natural area (foreshore, watercourse or wetland).

Environmental Protection and Biodiversity Conservation Act 1999 (Cth)

This Act enables the Australian Government to join with the states and territories in providing a national scheme of environment and heritage protection and biodiversity conservation. It incorporates threatened species on a national level and with relevance to Matters of National Environmental Significance. This relates to community land categorised as cultural significance or natural area.

Rural Fires Act 1997 (NSW)

This Act contains provisions for bushfire risk management and the establishment of a Bushfire Management Committee. It also includes direction on development in bushfire prone lands. Some community land in the City of Canterbury Bankstown is bushfire prone.

Heritage Act 1977 (NSW)

This Act contains provisions for the conservation of items of heritage. This relates to community land categorised as cultural significance or natural area.

The Burra Charter: The Australia ICOMOS Charter for Places of Cultural Significance, 2013

This charter was drawn up by ICOMOS (International Council on Monuments and Sites) in order to define the basic principles and procedures to be observed in the conservation of important cultural places. This relates to community land categorised as cultural significance.

02 The Context

2.0 Community and Crown Land Profile

The City of Canterbury Bankstown is 11,000 hectares in size. The City maintains a diverse network of community land over a total of 41 suburbs, with 52 of Council's parks also containing Crown land. The total area of Crown land is 173 Ha. This valuable network of land supports the recreational and ecological functions of the City.

The following list shows the area covered by each community land category:

- Park – 244.6 ha
- Sportsground – 449.1 ha
- Natural Area – 403.2 ha
- General Community Use – 34.8 ha
- Other – 17.3 ha

Total: 1149 ha

This *Generic Plan of Management for Community Land and Crown Land* applies to –

1. 474 community land and Crown land parks (including 20 parks entirely Crown land)
2. 45 road reserves acting as small parks
3. 10 parks that are on operational land (Neighbourhood level and above only)

Total: 529 parks and reserves.

Note: The legislation does not require a PoM for road reserves acting as small parks or parks that are on operational land. They have been included in this document because Council manages this land in the same way as community and Crown land.

2.1 The Residents of the City of Canterbury Bankstown

2.1.1 Community Profile - major trends

The City of Canterbury Bankstown is one of the largest Council areas in Australia. In the 20 years between 2016 and 2036, the population of the City of Canterbury Bankstown is forecast to grow from more than 360,000 (ERP, 2016) to 500,000. This growth will be accompanied by higher density (persons per hectare) because of the increase in higher density dwellings.

Most suburbs are expected to increase in population, with the key drivers being the Sydenham to Bankstown Metro upgrade, redevelopment opportunities in the Bankstown CBD and infill development in suburbs such as Riverwood and Milperra. Fast growing areas also include Chullora, Canterbury South/Campsie, Yagoona/Birrong and Punchbowl, with a high proportion of units with limited private open space.

The City is projected for continued strong growth across all age categories, with an associated increase in residents from non-English speaking backgrounds. Currently, 44 percent of the population were born overseas, and 60 percent speak a language other than English at home. The City's diversity produces various demands on, and expectation for, open space.

2.1.2 Implications for open space

The projected growth and diversity of our community has various implications to the provision and future uses of open space within the City.

Pressures and opportunities for public open space

As the City grows and develops, public open space will be placed under increasing pressure. With more people living in higher density dwelling and increasing family sizes, there will be less private open space, a gap which public open space will be expected to fill. This will particularly be in the case in centres such as Bankstown and Campsie.

The pressures on public space are not just on provision, but also about ensuring community connectedness. Higher density housing has the potential to disconnect many senior residents from traditional outdoor leisure such as gardening. The community is likely to look to Council to provide spaces for social health projects such as men's sheds and community gardens. As such, it is important that the City provides attractive open spaces that have appropriate facilities that can be meeting places. These spaces will have a role in enhancing community connection in the City.

Our City has a thriving multicultural community that is culturally, linguistically and religiously diverse. While the number of residents from

non-English speaking backgrounds is increasing, there is not a proportional increase in uptake of organised sports. This provides opportunities to explore alternate uses of sports grounds for social sports and other community gatherings to satisfy different community needs.

Ensuring a diversity of spaces

This PoM plays an important role in ensuring that the City's public open spaces cater for the diversity of our community. The various categories of community landed listed in this PoM are broad enough to accommodate these changing needs and trends in open space usage. This is reflected in the uses, developments, leases and licences that are allowed in the various categories of community land.

The increasing population will need open space for activities such as organised sport, informal recreation, playgrounds, barbeques, dog-walking, festivals and cultural activities. It will also be important to create smaller civic parks, meeting places and rest areas within centres.

Connecting and maximising the use of spaces

There are limited opportunities for new open spaces, leading to the need to rethink and renew existing spaces. Council must enhance existing spaces to become more flexible, multipurpose and, where appropriate, with extended hours of use.

At a local level, there are opportunities for improved provision of cycling and walking paths to enhance access to open space and connections to destinations such as shops and parks.

At the regional level, well-located regional sport parks are places where individuals or teams can progress from grassroots to regional representation across all major sports codes. Council will also seek to enhance the multifunctionality of these venues, providing flexibility and capacity to cater for non-sporting community events and celebrations.

Besides better connections within the City's urban areas, this PoM also considers connections to natural areas, which become even more important as urban areas continue to increase in density. Regional parks will be complemented and extended by linear parklands along waterways, expanding an interconnected green web of open space and natural areas that include the Cooks River Parklands, the Georges River Parklands and Duck River Parklands.

2.2 Community and Crown Land in the City of Canterbury Bankstown

2.2.1 Where does this Plan of Management apply?

This *Generic Plan of Management for Community Land and Crown Land* applies to the Canterbury-Bankstown Local Government Area as shown in Figure 1.

The community land and Crown land is identified in **Tables 1 to 6** in Chapter 3.

2.2.2 Categories of Community and Crown Land

Parks

Parks are predominantly for passive recreation. They are of various sizes, have different characters and provide space for activities such as children's play, walking the dog and personal exercise. Small parks can be simply a few trees and grass, while larger parks can have facilities such as seating, playground equipment, exercise equipment, bike paths, barbecues, toilets and public art. Parks are valuable public assets that provide habitat for native fauna, shade, improved air quality and aesthetic relief from the harsh city environment.

Sportsgrounds

Sportsgrounds are managed to provide active recreation with Council being the primary provider of sports facilities in the City. Sporting fields are used by a variety of organised groups including local schools, community groups, sporting clubs and associations and semi-professional sporting clubs.

General Community Use

This land performs many functions relating to the health and wellbeing of the community. It may contain buildings such as neighbourhood centres and Scout or Guide Halls. These cater for formal and informal leisure and recreational activities, hobbies, artistic endeavours, educational, cultural and social functions. The buildings may function as multipurpose community facilities or specialised single purpose facilities providing a range of services from libraries to cultural centres to childcare.

Cultural Significance

This community land category is for areas with Aboriginal, aesthetic, archaeological, historical, technical, research or social significance. In the City of Canterbury Bankstown there are 9 parks with Cultural Significance; for reasons such as the park is within a Heritage Conservation Area or it has heritage features.

The parks are Allder Park (Sefton), Apex Park (Bankstown), Carrington Square (Campsie), East Hills Park (East Hills), Girrahween Park (Earlwood), Lansdowne Reserve (Georges Hall), Peace Park (Ashbury), Saint Mary MacKillop Reserve (Canterbury) and Windsor Park (Greenacre).

Natural Area – Bushland

Bushland is a particularly important type of Natural Area because the City has a large amount of valuable bushland designated as Endangered Ecological Community (EEC). This vegetation is predominately along the Georges River, Salt Pan Creek and Wolli Creek. Major bushland parks are Mirambeena Regional Park, Deepwater Park and The Crest. Georges River National Park is a major bushland area within the City but not covered by this PoM.

Definition of Bushland

State Environmental Planning Policy 19 - Bushland in Urban Areas (SEPP 19) defines bushland as: "...land on which there is vegetation which is either a remainder of the natural vegetation of the land or, if altered, is still representative of the structure and floristics of the natural vegetation" (Clause 4).

2.2.3 Hierarchy of Open Space in the City of Canterbury Bankstown

Open spaces are divided into 5 categories as described below. They are differentiated by size, form, function and accessibility.

State

At this level an open space facility will be very high quality with the capacity to host state or national events. It will be unique within the region and potentially funded by State and Federal Government grants. The City has 2 open spaces at this level – Bankstown Memorial Oval and The Crest of Bankstown.

Regional/City-wide

At this level an open space facility will have significant proportion, uniqueness or standard. The open space will usually be the only one of its type in the City of Canterbury Bankstown, servicing city-wide and regional needs. It is likely to attract State Government capital funding. The City has 17 open spaces at this level. Examples are Jensen Park, Mirambeena Regional Park, and Belmore Sportsground.

District

At this level an open space typically has organised active sporting facilities and services a large area. There is capacity to stage city-wide competitions for sports such as football and cricket. Most will have a number of secondary functions such as park, general community use or natural area. A small number of sites will not have sportsgrounds but will still have multiple categories. The City has 96 open spaces at this level. Examples are Newland Reserve, East Hills Park and Ewen Park.

Neighbourhood

At this level an open space may have some qualities of a district park but usually only supports passive recreation for a local catchment within 400m. The City has 151 open spaces at this level. Examples are Starr Reserve, and Montgomery Reserve.

Local

At this level an open space services the passive recreation needs of residents and contributes to the natural amenity of local areas. Offering minimal recreation activity they are typically parcels of land less than 0.2Ha, surplus from sub-divisions, road reserves or infrastructure easements. The City has 191 open spaces at this level.

03

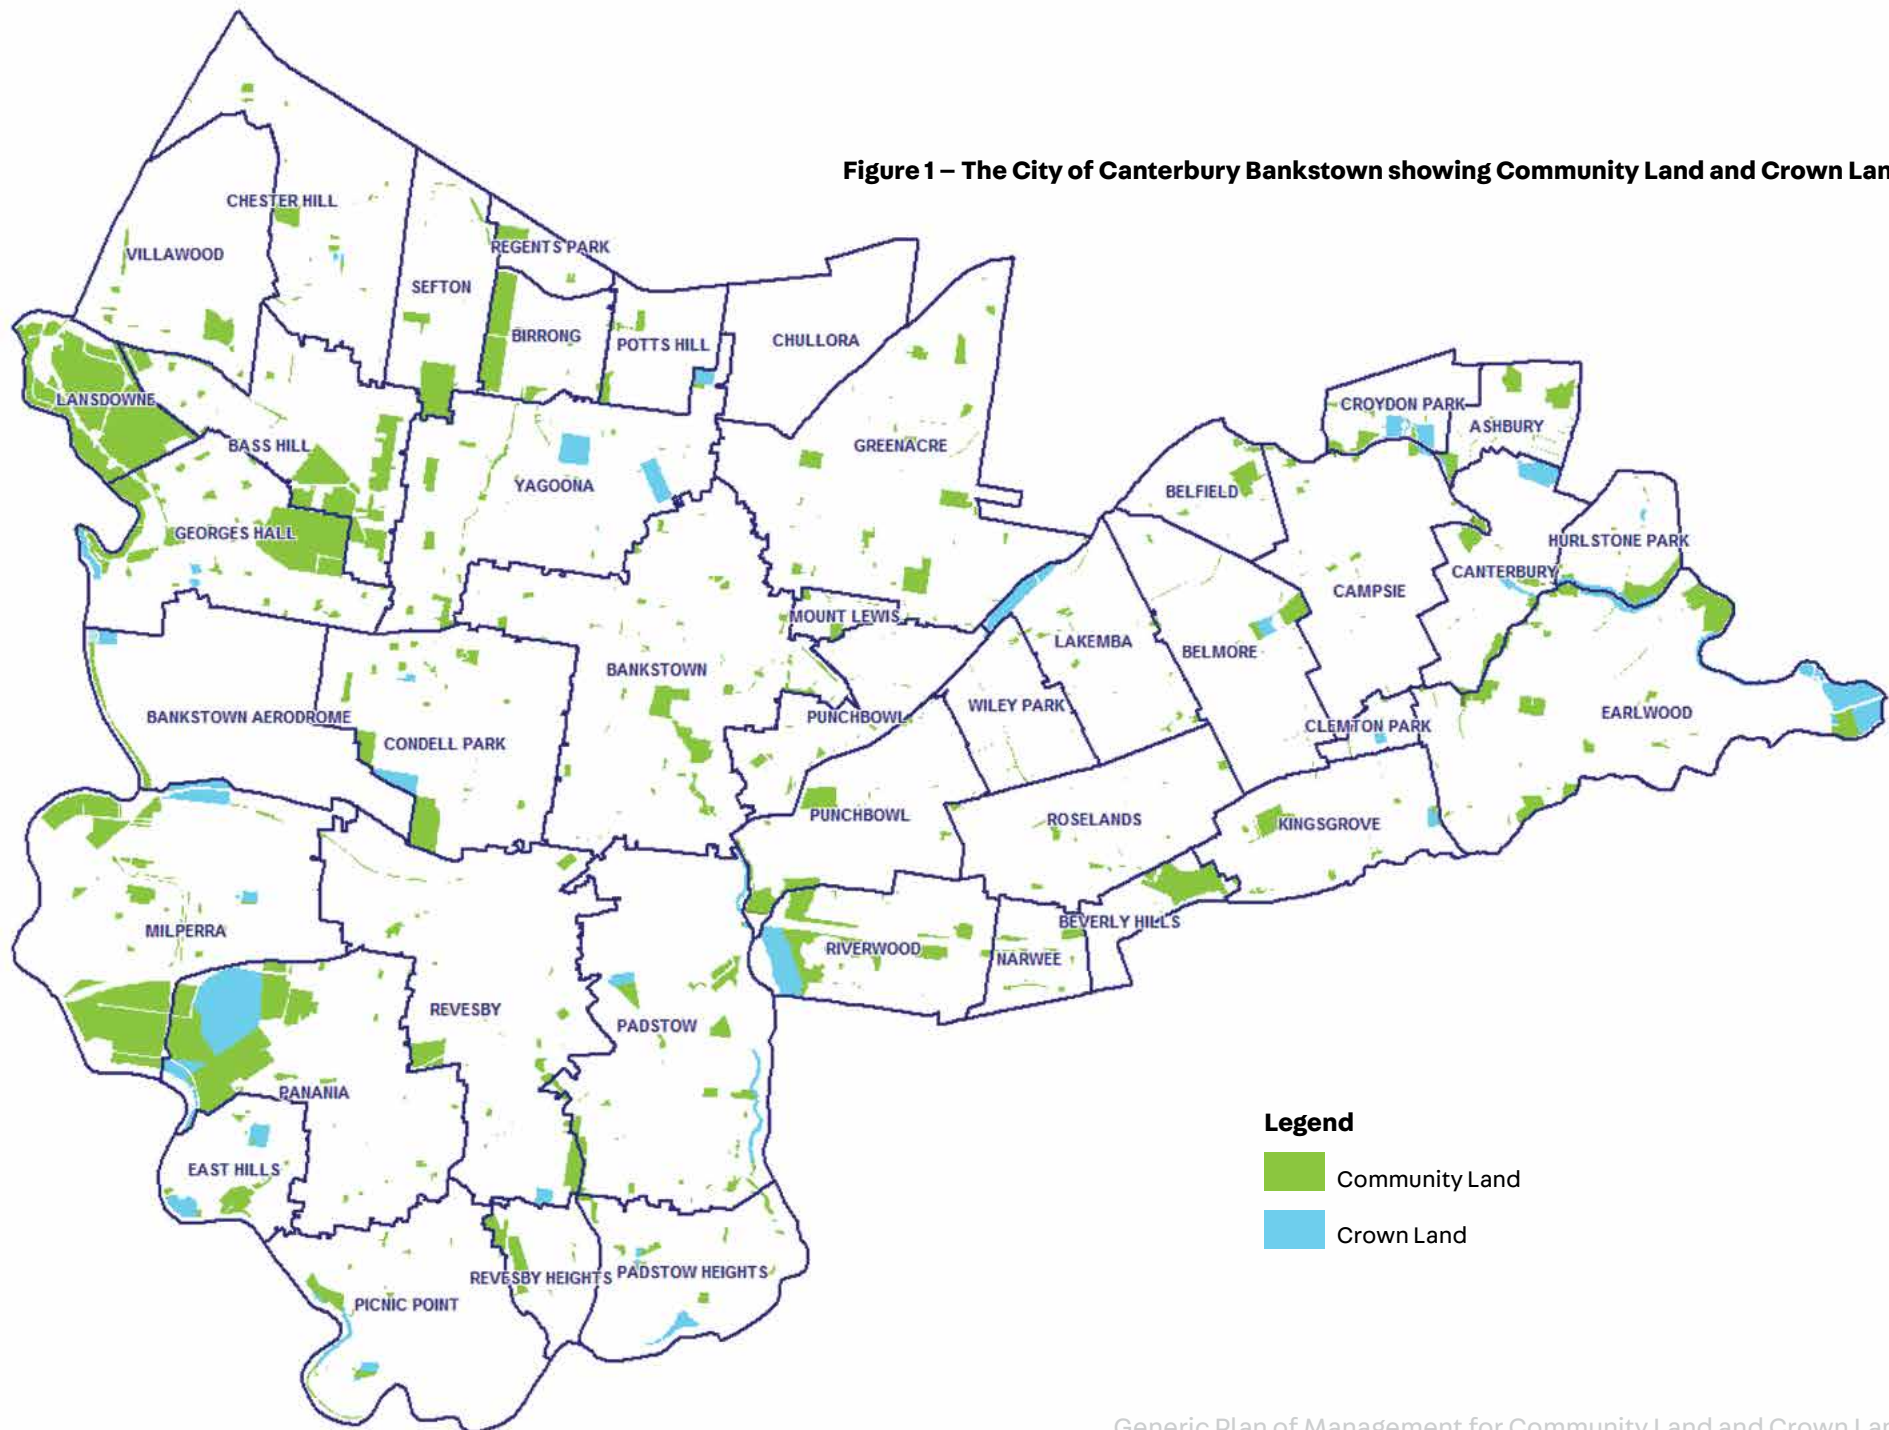

3.0 Community Land and Crown Land covered by this Plan of Management

Tables 1 to 6 list the community land and Crown land covered by this generic Plan of Management.

These tables list the categories in each open space and designate their function as 'primary' or 'secondary'. For example an open space could be listed as having the park category as its primary function, and the sportsground category as its secondary function. The designations are generally determined by area.

Figure 1 illustrates the distribution of community land and Crown land across the City of Canterbury Bankstown.

Figure 1 – The City of Canterbury Bankstown showing Community Land and Crown Land

The tables also indicate:

- How each open space is categorised to comply with the *Local Government Act*; and
- The level in the open space hierarchy of each reserve, as decided by Council:

L = Local

N = Neighbourhood

D = District

R/CW = Regional/Citywide

S = State

Section 2.2.3 contains details of these levels in the open space hierarchy.

Index of tables: Community Land and Crown land covered by this PoM

Table Number	Contents	Page No
Table 1	Council owned Community Land	28
Table 2	Council owned Community Land (Unnamed Reserves)	49
Table 3	Land controlled by Council but owned entirely or partly by other authorities	56
Table 4	Parks controlled by Council that include Crown land	63
Table 5	Parks on Operational Land (Neighbourhood level and above only).	72
Table 6	Road Reserves acting as small parks	74

Note:

Table 3 is land controlled by Council but owned entirely or partly by other authorities.

In these circumstances the *Local Government Act* (Section 37) requires that a PoM must:

- Identify the owner of the land;
- State whether the land is subject to any trust, estate, interest, dedication, condition, restriction or covenant; and
- State whether the use or management of the land is subject to any condition or restriction imposed by the owner.

Table 4 are parks and reserves controlled by Council that include Crown land. This table lists details of the Crown land such as the Crown Reserve number and if Council is the Crown Land Manager.

The parks and reserves marked with a double asterisk ** in **Table 4** are entirely Crown land.

Other tables

Table 7 - *Open spaces covered by other Plans of Management*. This community land is not covered by this PoM because it is managed by specific plans of management.

Table 8 - *Open Space Hierarchy – Typical Facilities*. This table lists the typical standard of amenities to be found at the various levels of the open space hierarchy for each category of community land. It does not preclude the provision of extra facilities at individual sites.

Table 9 - *Community Land Categories, Guidelines and Core Objectives* (from the *Local Government Act* and Regulations).

Table 10 - *Uses and Developments Allowed on Community and Crown Land*.

Table 11 - *Purposes for which Leases, Licences and other Estates may be authorised by Council on Community and Crown Land*.

Table 12 - *Objectives and Performance Targets*.

3.1 Category Maps

There are numerous sites with multiple categories. The *Local Government (General) Regulation 2005* requires Council to prepare site maps identifying the boundaries of these categories. Crown land has only been mapped when it is associated with multi-category maps.

See Appendix for Category Maps.

Addresses in the tables are for location purposes only.

04 The Plan of Management

4.1 Aims of this Plan of Management

This *Generic Plan of Management for Community Land and Crown Land* aims to:

- Fulfil Council's statutory obligations in respect to public land management under the requirements of the *Local Government Act 1993*;
- Maximise the passive and active recreational opportunities of Council's community and Crown land;
- Manage natural areas for their ecological, aesthetic, recreational, educational and scientific values;
- Provide a framework and maximise opportunities for sustainable, long-term management of community land; and
- Be a resource for both Council staff and the public regarding the potential leasing and licensing of community and Crown land.

4.2 Guidelines and Core Objectives of this Plan of Management

The guidelines for categorisation of community land are set out in the *Local Government (General) Regulation 2005*.

The *Local Government Act* sets out core objectives for the management of community land. These are contained in **Table 9** following. Council must manage community land in accordance with these core objectives.

Table 9 – Community Land Categories, Guidelines and Core Objectives

Category	Guidelines from <i>Local Government (General) Regulation 2005</i>	Core objectives from <i>Local Government Act 1993</i>
Parks	Regulation 104 – Parks: <ul style="list-style-type: none"> Land which is improved by landscaping, gardens or the provision of non sporting equipment and facilities, and for uses which are mainly passive or active recreational, social, educational and cultural pursuits that do not intrude on the peaceful enjoyment of the land by others. 	Category Park (Section 36G): <ul style="list-style-type: none"> To encourage, promote and facilitate recreational, cultural, social and educational pastimes and activities, and To provide for passive recreational activities or pastimes and for the casual playing of games, and To improve the land in such a way as to promote and facilitate its use to achieve the other core objectives for its management.
Sportsgrounds	Regulation 103 – Sportsgrounds: <ul style="list-style-type: none"> Land used primarily for active recreation involving organised sports or the playing of outdoor games. 	Category Sportsground (Section 36F): <ul style="list-style-type: none"> To encourage, promote and facilitate recreational pursuits in the community involving organised and informal sporting activities and games, and To ensure that such activities are managed having regard to any adverse impact on nearby residences.
General Community Use	Regulation 106 – General Community Use: <ul style="list-style-type: none"> Land that may be made available for use for any purpose for which community land may be used, and does not satisfy the definition of natural area, sportsground, park or area of cultural significance. 	Category General Community Use (Section 36I): <ul style="list-style-type: none"> To promote, encourage and provide for the use of the land, and To provide facilities on the land, to meet the current and future needs of the local community and of the wider public: <ul style="list-style-type: none"> (a) In relation to public recreation and the physical, cultural, social and intellectual welfare or development of individual members of the public, and (b) In relation to purposes for which a lease, licence or other estate may be granted in respect of the land (other than the provision of public utilities and works associated with or ancillary to public utilities).
Natural Areas	Regulation 102 – Natural Areas: <ul style="list-style-type: none"> Land possessing a significant feature that would be sufficient to further categorise the land as bushland, wetland, escarpment, watercourse or foreshore. 	Category Natural Area (Section 36E): <ul style="list-style-type: none"> To conserve biodiversity and maintain ecosystem function in respect of the land, or the feature or habitat in respect of which the land is categorised as a natural area, and To maintain the land, or that feature or habitat, in its natural state and setting, and To provide for the restoration and regeneration of the land, and To provide for community use of and access to the land in such a manner as will minimise and mitigate any disturbance caused by human intrusion, and To assist in and facilitate the implementation of any provisions restricting the use and management of the land that are set out in a recovery plan or threat abatement plan prepared under the <i>Biodiversity Conservation Act 2016</i> or the <i>Fisheries Management Act 1994</i>.

Table 9 – Community Land Categories, Guidelines and Core Objectives

continued

Category	Guidelines from <i>Local Government (General) Regulation 2005</i>	Core objectives from <i>Local Government Act 1993</i>
Natural Areas: Bushland	<p>Regulation 107 – Bushland:</p> <ul style="list-style-type: none"> Land containing primarily native vegetation that is the natural vegetation or a remainder of the natural vegetation of the land, or although not the natural vegetation, is still representative of the structure or floristics of the natural vegetation in the locality. 	<p>Category Bushland (Section 36J):</p> <ul style="list-style-type: none"> To ensure the ongoing ecological viability of the land by protecting the ecological biodiversity and habitat values of the land, the flora and fauna of the land and other ecological values, and To protect the aesthetic, heritage, recreational, educational and scientific values of the land, and To manage the land in a manner that protects and enhances the values and quality of the land and facilitates public enjoyment of the land, and to implement measures to minimise or mitigate disturbance caused by human intrusion, and To restore degraded bushland, and To protect existing landforms such as natural drainage lines, watercourses and foreshores, and To retain bushland in parcels of a size and configuration that will enable the existing plant and animal communities to survive in the long term, and To protect bushland as a natural stabiliser of the soil surface.
Natural Areas: Wetlands	<p>Regulation 108 – Wetlands:</p> <ul style="list-style-type: none"> Marshes, mangroves, backwaters, billabongs, swamps, sedgeland, wet meadows or wet heathlands that form a waterbody. 	<p>Category Wetland (Section 36K):</p> <ul style="list-style-type: none"> To protect the biodiversity and ecological values of wetlands, particularly their hydrological environment (including water quality and water flow), flora, fauna and habitat value, and To restore and regenerate degraded wetlands, and To facilitate community education in relation to wetlands, and community use of wetlands, without compromising the ecological values of wetlands.
Natural Areas: Escarpment	<p>Regulation 109 – Escarpment:</p> <ul style="list-style-type: none"> Land that includes such features as a long cliff-like ridge or rock, and significant or unusual geological, geomorphological or scenic qualities. 	<p>Category Escarpment (Section 36L):</p> <ul style="list-style-type: none"> To protect any important geological, geomorphological or scenic features of the escarpment, and To facilitate safe community use and enjoyment of the escarpment.
Natural Areas: Watercourse	<p>Regulation 110 – Watercourse:</p> <ul style="list-style-type: none"> Any stream of water, perennial or intermittent, in a natural or artificial channel, and associated riparian land or vegetation, 	<p>Category Watercourse (Section 36M):</p> <ul style="list-style-type: none"> To manage watercourses so as to protect the biodiversity and ecological values of the instream environment, particularly in relation to water quality and water flows, and To manage watercourses so as to protect the riparian environment, particularly in relation to riparian vegetation and habitats and bank stability, and To restore degraded watercourses, and To promote community education, and community access to and use of the watercourse, without compromising the other core objectives of the category.
Natural Areas: Foreshore	<p>Regulation 111 – Foreshore:</p> <ul style="list-style-type: none"> Land situated on the water's edge forming a transition zone between the aquatic and terrestrial environment. 	<p>Category Foreshore (Section 36N):</p> <ul style="list-style-type: none"> To maintain the foreshore as a transition area between the aquatic and the terrestrial environment, and To protect and enhance all functions associated with the foreshore's role as a transition area, and To facilitate the ecologically sustainable use of the foreshore, and to mitigate impact on the foreshore by community use.

4.3 Use and Development of Community and Crown Land in the City of Canterbury Bankstown

4.3.1 Zoning

The majority of community and Crown land covered by this PoM is on land zoned **RE1 – Public Recreation** under Council's Local Environmental Plan (LEP).

The main objectives specified for Zone RE1 are:

- To enable land to be used for public open space or recreational purposes;
- To provide a range of recreational settings and activities and compatible land uses; and
- To protect and enhance the natural environment for recreational purposes.

Some open spaces in the City of Canterbury Bankstown are not zoned appropriately but are managed as if they were.

4.3.2 Development allowed in RE1 Public Recreation zone – policy context

Development allowed in the RE1 Public Recreation zone is subject to both State and local policies. State policies prevail over local policies. The following information is correct at the time of adoption of this PoM but is subject to change.

This PoM does not remove the requirement for a development application under Part 4, or an ecological assessment under Part 5, of the *Environmental Planning and Assessment Act 1979* if applicable.

State Environmental Planning Policy (Infrastructure)

Relevant State Government legislation is the *State Environmental Planning Policy (Infrastructure) 2007*, known as the ISEPP.

Under Clause 65 of the ISEPP certain development may be carried out by Council without consent in public reserves under its control. Refer to the ISEPP for these development types.

Under Clause 66 of the ISEPP certain development is exempt development if it is carried out by Council in public reserves under its control. Refer to the ISEPP for these development types.

SEPP 19

State Environmental Planning Policy No 19 - Bushland in Urban Areas (SEPP 19) is relevant to the land categorised as Natural Area – Bushland in this Generic PoM.

Clause 6 outlines the consent required to disturb bushland zoned or reserved for public open space.

The Local Environmental Plan (LEP)

Council's LEP lists development that may be carried out with or without development consent on land zoned RE1 Public Recreation.

The Development Control Plan (DCP)

Council's DCP lists development permitted without consent on any land under the control of Council. This includes land zoned RE1 Public Recreation.

Crown Land Management Act 2016

This Act states that the use of Crown land is required to be compatible with the reserve purpose.

4.3.3 Permissible uses and developments

The use and development of community and Crown land should be compatible with the intended function of the land, the reserve purpose, the assigned categories and the wider community context. The City encourages a wide range of uses, and intends to facilitate uses which increase the activation of its land.

The use of community and Crown land is often supported by appropriate ancillary development such as playground equipment, amenity blocks or food kiosks. The types of uses which may occur on land categorised as Park, Sportsground, General Community Use and Natural Area, and the forms of development generally associated with those uses, are set out in **Table 10**.

The anticipated uses, and associated development, identified in **Table 10** are intended to provide a general guide. The terminology used is not intended to impose an exact meaning. For example a reference to “football” includes the variations of that game. It is anticipated that new sports may develop, and others increase or decrease in popularity. If this occurs, then some community and Crown land may be modified to facilitate the changing forms of ‘active recreation’ enjoyed by the community. References such as ‘field’, or ‘court’, are not intended to exclude other sporting surfaces.

Native Title

Pursuant to section 8.7 of the *Crown Land Management Act 2016 (NSW)*, written advice has been obtained from Council’s Native Title Manager to the effect that this plan of management complies with applicable provisions of the *Native Title Act 1993 (Cth)*.

Table 10 – Uses and Developments Allowed on Community and Crown Land

Category	Park	Sportsground	General Community Use	Natural Area
Uses				
Active casual recreation including ball games, children's play and cycling	Yes	Yes	Yes

Energy saving initiatives such as solar lights and solar panels	Yes	Yes	Yes	Yes
Council works in drainage reserves	Yes	Yes	Yes	Yes
Heritage and cultural interpretation, such as signs, memorials and public art of appropriate style, scale and robustness	Yes	Yes	Yes	Yes
Locational, directional and regulatory signage	Yes	Yes	Yes	Yes
Temporary erection or use of any building or structure to enable filming	Yes	Yes	Yes	Yes
Utilities to improve amenity or safety of the reserve, eg CCTV cameras.	Yes	Yes	Yes	Yes

NB: Some of the uses listed require a permit from Council.

4.3.4 Leases, Licences and other Estates

For further detail please refer to Council's *Community Facilities Policy* and the *Local Government Act 1993*.

General

Leases, licences and other Estates over community and Crown land must be expressly authorised in PoMs and comply with the provisions in the *Local Government Act*. They must be in the best interests of the community as a whole and enable, wherever possible, shared use of the land.

The term 'other estates' includes other interests, charges, rights or titles in relation to the land (an example is easements).

A lease is a contract between a land owner or manager and another entity, granting that entity a right to occupy an area for a specified period of time for agreed purposes.

The main difference between a lease and licence is that a licence does not permit the sole, or exclusive, use of the area. Licences may be granted to formally recognise and endorse shared uses. For example, an outdoor seating area adjoining a cafe may be used by the cafe at some periods, but not all the time. Licences are commonly used for sports facilities such as club houses.

Agreements must be clear and concise and prospective lessees/licencees carefully selected. An annual report must be prepared by all lessees/licencees and Council must regularly inspect the sites to ensure they are well maintained. According to Council's *Community Facilities Policy* 'community facilities for the purposes of a lease or licence shall be the buildings and associated amenity structures, but may include the immediate surrounding land where agreed by Council. It will not include sporting grounds or fields' (p3).

Council may grant a lease, licence or other estate over community land to **organisations and persons, community groups, sports clubs and associations, non-government organisations, charities, community welfare services, non-profit organisations and government authorities** as per purposes listed in **Table 11**.

Current examples in the City of Canterbury Bankstown include clubhouses for various sports, preschool and early childcare centre buildings, guide and scout halls, citizens centres and YMCA buildings.

Leases and licences vary widely in scope and duration. For example a sporting club may have a licence over a clubhouse for a season (a few months), while the lease over the Bankstown Showground is for a duration of 21 years.

Maximum term and public notice

The maximum term of a lease, licence or other estate is 30 years (Section 46 (3) of *Local Government Act*). The consent of the Minister for Local Government is required if the lease or licence exceeds 21 years (Section 47(5)(b)). This consent is also required if the term of the lease or licence will be greater than five years and objections have been lodged against the proposal.

Subject to some exceptions, for all proposed leases and licences, regardless of length of term, Council must give public notice of the proposal and exhibit notice of the proposal on the land to which the proposal relates. Council must consider all submissions made in response.

Council's *Community Facilities Policy* deals with not-for-profit community organisations and applications for a lease or licence must meet certain conditions.

Refer to the *Community Facilities Policy* for the latest requirements for leases and licences. In addition, the *Local Government Act* and its Regulation specify some additional uses (e.g. public infrastructure) which are permitted, and which may be authorised by a lease or licence arrangement.

Sublease of community land (Ref s47C of the *Local Government Act 1993*)

In addition to any restrictions created by the lease, community land that is the subject of a lease cannot be sublet for a purpose other than:

- The purpose for which the land was to be used under the lease, or
- Refreshment kiosks, dances and private parties (if sporting club) or croquet (if bowling club) (Regulation 119 of the *Local Government (General) Regulation 2005*).

Tenders

A lease or licence for a term exceeding 5 years may be granted only by tender unless it is granted to a non-profit organisation (s46A (3) of the *Local Government Act 1993*).

Existing leases and licences

All existing leases, licences and other estates remain valid until renewal and they will not be terminated or become invalid because of the adoption of this new PoM. They will all be reassessed as part of any renewal, to comply with the current PoM at that time and Council's *Community Facilities Policy*.

The Local Government Act 1993

In accordance with the requirements of the *Local Government Act 1993* this PoM expressly authorises Council to grant a lease, licence or other estate on community land where the activity is consistent with this PoM, the core objectives for the category of land (stated in **Table 9** above) and is for a purpose listed in **Table 11** following.

Any lease or licence proposal will be individually assessed and considered, including the community benefit, compatibility with this PoM and the capacity of the area to support the activity.

Native Title Act 1993 (Cth)

Any lease, licence or permit issued on Crown land must be issued in accordance with the future act provisions of the *Native Title Act 1993* and in accordance with Part 8 of the *Crown Land Management Act 2016* unless native title is extinguished.

Granting a Lease or Licence

The grant of a lease or licence is an important step in using community and Crown land, but there may be other requirements relevant to any proposed use. For example, the refurbishment of a kiosk may also require development consent under the *Environmental Planning and Assessment Act 1979*.

A lease, licence or other estate must not be granted if it involves:

- An activity that is not in accordance with a permitted purpose in **Table 11**; or
- An activity that is not consistent with the objectives of the PoM; or
- An activity inconsistent with the reserve purpose; or
- Any activity prohibited by the land zoning stated in Council's current Local Environmental Plan (LEP).

Short term casual Licences (commonly called Permits)

Council grants short term permits for events such as a festivals, performances and wedding ceremonies. These permits are generally just for a day or a few hours. **Table 11** lists the purposes for which short term casual permits may be authorised by Council on community and Crown land. This list is not exhaustive.

The functions and events able to be conducted in each open space may vary significantly, depending on available facilities.

Council applies the following criteria when assessing potential licenced events on community and Crown land:

- The event should not result in any physical damage to the land or its facilities;
- Where appropriate, the event should be made available to all sections of the community; and

- The event should not result in a significant adverse impact on adjoining residents.

Fees for short-term casual bookings will be charged in accordance with Council's adopted Fees and Charges at the time.

Leases licences and other estates for public utilities

Leases, licences and other estates granted for the provision of public utilities and ancillary works do not need to be expressly authorised by a PoM, or consistent with the core objectives, or be for a purpose listed above. Council is authorised to grant such estates (eg easements) without complying with the provisions applying to other purposes.

Telecommunications towers

Under the Commonwealth *Telecommunications Act 1997*, towers deemed 'low impact' are permitted without Council approval. Negotiation with Council must take place for towers of national significance.

Telecommunication towers installed in open space must:

- Be installed only in District and Regional/City-wide parks that have the capacity to visually absorb them and accommodate them without degrading the useability of community land;
- Must not be allowed in areas categorised as 'Natural Area' or 'General Community Use';
- Adversely affect the least number of people possible; and
- Comply with Council's planning guidelines.

Where community land is to be used for telecommunication facilities, Council's preferred location will be determined with reference to creating the least possible adverse effect on the use of the land for its core objectives of classification.

Biodiversity Stewardship Agreements

Council supports Biodiversity Stewardship Agreements where appropriate. Other carbon sequestration projects may also be relevant.

Although leases, licences and other estates have a maximum term of 30 years as discussed above, the nature of Biodiversity Stewardship Agreements and other carbon sequestration projects means they are in-perpetuity agreements under the *Biodiversity Conservation Act 2016*.

Table 11 – Purposes for which Leases, Licences and other Estates may be authorised by Council on Community and Crown Land

Other Estates	All Categories	This PoM allows Council to grant 'an estate' over community land for the provision of public utilities and works associated with or ancillary to public utilities in accordance with the <i>Local Government Act 1993</i>	Estates may also be granted across community Land for the provision of pipes, conduits, or other connections under the surface of the ground for the connection of premises adjoining the community land to a facility of the Council or other public utility provider situated on community land
	Natural Area	<ul style="list-style-type: none"> Biodiversity Stewardship Agreements or other offset projects 	<ul style="list-style-type: none"> Carbon farming/sequestration projects

4.4 Objectives and Performance Targets

As discussed in Section 1.1, the *Local Government Act* requires objectives and performance targets for all community land.

These are in the following table.

Specific actions to support the objectives and performance targets of this Plan of Management can be found in the following supporting Council strategies:

- Bushland reserves action plans;
- Biodiversity Strategic Plan;
- Open Space Strategic Plans and master plans;
- Sports Facilities Strategic Plan;
- Local Area Plans; and
- Strategic Asset Management Plans.

Table 12 – Objectives and Performance Targets

Parks and Sportsgrounds

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
FUNCTION AND PROVISION	Ensure open spaces have acceptable standards of amenity and quality on community land	<ul style="list-style-type: none"> Ensure the development and promotion of new recreational and sports facilities are consistent with Australian Standards Maintain all open spaces to a high standard acceptable to the community Maintain an asset register of buildings on community and Crown land 	<p>High satisfaction in maintenance of parks in the community satisfaction survey</p> <p>High satisfaction in condition of sporting fields and amenities in the community satisfaction survey</p> <p>Asset register maintained</p>
	Open spaces support desired uses through appropriate facilities, size and shape	<ul style="list-style-type: none"> Follow open space hierarchy recommendations of council Strategic Plans Refer: <i>Bankstown Open Space Strategic Plan</i> (BCC 2013) <i>Canterbury Open Space Strategic Plan</i> (CB City 2017) <i>Playgrounds and Play Spaces Strategic Plan</i> (CB City 2018) 	Provision of open space hierarchy is consistent with council's open space and playground strategic plans
ACCESS AND INCLUSIVITY	Ensure fairness and equity in use of parks and sportsgrounds	<ul style="list-style-type: none"> Ensure all approved events comply with Council's policies and relevant legislation Permit leases, licenses and other estates on community land in accordance with the applicable community land category and provisions of the <i>Local Government Act 1993</i> Maintain a fair and equitable booking system for community land Refer: <i>Recreation Policy</i> (BCC) 	<p>High satisfaction for participation in sports and recreation through community satisfaction survey</p> <p>No complaints are received regarding fairness of allocation procedure</p>
	Optimise public access to all areas of parks, sportsgrounds, and general community use land through active transport	<ul style="list-style-type: none"> Improve 'Active Transport' linkages between and through public open space areas. Connections from open space to leisure, recreation centres and public transport options Manage pedestrian and bicycle access to public open space, via designated pathways, to ensure appropriate and positive use of the open space Refer: <i>Open Space Strategic Plans Walking and Cycling Action Plans</i> 	<p>Increase in number of links between areas of community land</p> <p>High satisfaction and importance is shown in walking to most of the local places through community satisfaction survey</p> <p>High satisfaction and importance is shown in access to cycle-ways through community satisfaction survey</p> <p><i>Active Transport Action Plan</i> developed, endorsed and implemented</p>
	Physical access is easy for all users including the aged and people with special needs and disabilities	<p>Where appropriate provide:</p> <ul style="list-style-type: none"> Ramps, handrails, tactiles etc Good access to public transport, such as bus stops (no trip hazards etc) Obvious entries and signage Access for maintenance and emergency vehicles, and service authorities <p>Incorporate the requirements of the <i>Disability Discrimination Act 1992</i> into facility and other improvements on community land</p>	<p>Meet actions and deliver outcomes from the <i>Disability Inclusion Action Plan 2017-2021</i></p> <p>High satisfaction and importance is shown in support for people with a disability through community satisfaction survey</p>

Parks and Sportsgrounds

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Provide informative signage for parks and sportsgrounds	<p>Provide where considered necessary:</p> <ul style="list-style-type: none"> • Standard CBC sign with park/sportsground name and regulations • Special signage, eg large or linked open spaces may need signs with maps • Interpretation signage eg heritage or natural features • Directional signage to major parks and sportsgrounds at shopping centres, train stations, cycle paths and other locations • Picture Exchange Communication System (PECS) signage in Level 1 Playspaces <p>Refer: <i>Community Directional Signage Policy</i> (CB City 2017)</p>	Positive community feedback
	Provide parking for parks and sportsgrounds that does not impact negatively on amenity or adjacent residential areas	<p>Provide:</p> <ul style="list-style-type: none"> • Adequate parking spaces for the size of the park or sportsground and its usage patterns (including accessible spaces) • Access for buses (State, Regional/City-wide and District open spaces only) <p>Refer: <i>Council Engineering Standards</i> (CB City 2017)</p>	Parking is adequate for majority of utilization
	Provide opportunities for variety of physical activation in open spaces for people of all ages, abilities and cultural backgrounds	<p>Parks and sportsgrounds are to provide (as appropriate):</p> <ul style="list-style-type: none"> • Sportsfields for formal sports • Space for unstructured activity • Playgrounds that are interesting, creative and fun • Large flat areas for markets, tai chi, performances • Outdoor exercise stations • Facilities for older people (bocce, chess, etc) • Facilities for younger people (skateparks etc) • Pedestrian/cycle paths • Areas for peace and quiet <p>Refer: <i>Playgrounds and Play Spaces Strategic Plan</i> (CB City 2018), <i>Australian Standards for playgrounds and sportsfields</i></p>	High satisfaction shown for viewing and participation in sports and recreation through community satisfaction survey
SAFETY	Open space to be designed and maintained to ensure safety	<ul style="list-style-type: none"> • Parks and sportsgrounds to be designed and maintained in accordance with Crime Prevention Through Environmental Design (CPTED) principles (eg good surveillance) • All play equipment and sports equipment to comply with Council's <i>Playgrounds and Play Spaces Strategic Plan</i> and the Australian Standards <p>Refer: <i>Australian Standards for play equipment AS 1428 Design for Access and Mobility</i> <i>Playgrounds and Play Spaces Strategic Plan</i> (CB City 2018) <i>CPTED Guidelines</i></p>	<p>Parks and sportsgrounds are inspected regularly for safety issues</p> <p>All playgrounds are inspected quarterly and repaired when necessary</p>

Parks and Sportsgrounds

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Provide fencing where required in accordance with Council's Policies and codes	Fencing to be: <ul style="list-style-type: none"> • Complementary to the aesthetics of the park or sportsground • Considered around playgrounds and sportsgrounds where risk is warranted • Installed to prevent access by unauthorised vehicles • Around sports venues to minimise the risk of personal injury and property damage 	There are no reported incidents of unauthorised vehicles accessing parks and sportsgrounds because of a lack of fencing
	Provide appropriate space for dogs in open space	<ul style="list-style-type: none"> • Provide unleashed areas for social use (based on surveys) with signage and fencing • Allow commercial dog walking and dog training in appropriate open spaces • Do not allow dogs within 10m of food preparation areas, playgrounds or sportsfields Refer: <i>Paws in Parks Off Leash Dog Park Plan</i> (CB City 2015)	<i>Dog Off leash Park Plan</i> is consulted upon, developed, endorsed and implemented
	Provide toilets in parks and sportsgrounds at District level and above	<ul style="list-style-type: none"> • Toilets are to be installed in accordance with the <i>Disability Discrimination Act 1992</i> • Toilets are managed in accordance with user needs • Install directional signage to toilets if required Refer: <i>Disability Discrimination Act 1992 (Cth)</i>	Number of amenities compliant
ENVIRONMENTAL SUSTAINABILITY	Maximise open space use but ensure the carrying capacity of the land is not exceeded	<ul style="list-style-type: none"> • Provide recreation opportunities/facilities within portions of parks and sportsgrounds • Increase the variety of recreation opportunities available, eg multiple line marking in one area to increase the flexibility of the space Refer: <i>Open Space Strategic Plans</i>	High satisfaction shown in condition of sporting fields and amenities and maintenance of parks through community satisfaction survey
	Incorporate water sensitive urban design (WSUD) elements into open space	Incorporate WSUD elements into open spaces such as: <ul style="list-style-type: none"> • Grassed swales • Rain gardens • Water collecting tree pits and medians • Bio-retention basins Refer: <i>Environmental Policy (BCC 2000)</i>	There is a steady, measurable increase in the number of WSUD elements incorporated into open spaces
	Encourage native fauna in open spaces	<ul style="list-style-type: none"> • Install nest boxes in trees for native birds and possums • Install frog ponds in appropriate open spaces • Install other devices as considered appropriate Refer: <i>Biodiversity Strategic Plan 2015-25 (BCC)</i>	Presence of native fauna observed and recorded in open spaces

Parks and Sportsgrounds

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Conserve, enhance and manage the urban forest by maximising native vegetation in Parks and Sportsgrounds	<ul style="list-style-type: none"> • Increase the planting of appropriate native vegetation communities, especially in under-used areas such as the perimeter of open spaces • Use vegetation for screening, habitat, to divide use areas and to provide a buffer between sports fields and adjacent passive park/bushland 	Parks and sportsgrounds are regularly reviewed regarding the quantity and quality of vegetation and how it is fulfilling its functions
	Identify and preserve significant trees in open spaces	<ul style="list-style-type: none"> • Develop a Significant Tree Register for trees located in Parks and Sports grounds • Council to support and adopt the Significant Tree Register 	A Significant Tree Register is available on Council's website and both staff and residents are suggesting additions
CULTURAL AWARENESS	Recognise history of open spaces (indigenous and post contact) and/or cultural connections for certain residents	<ul style="list-style-type: none"> • Parks and sportsgrounds to have history and/or cultural connections conserved and interpreted as appropriate • Where appropriate, Council will assign names to features such as parks that acknowledge Aboriginal cultural heritage and original place names • Retain and refurbish heritage buildings and use as clubhouses, kiosks, etc • Install interpretative signs, organise cultural events, etc <p>Refer: Local history sources</p>	Number of cultural interpretative projects completed
	Provide for ceremonies and performances in open spaces	<ul style="list-style-type: none"> • Parks and sportsgrounds suitable for ceremonial and/or performance space to have spaces designed for them in liaison with user groups <p>Refer: Open Space Strategic Plans</p>	High participation shown in local festivals and events through community satisfaction survey

Parks and Sportsgrounds

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Support appropriate leases and licences in open space that are in the best interests of the community as a whole and enable, wherever possible, shared use of community land	<ul style="list-style-type: none"> Promote typical leases with private clubs and community groups: major oval, grandstand, multi-purpose courts, clubhouse, kiosk, etc Promote small park-based businesses such as mobile cafes, bicycle hire, watercraft hire, personal training etc Select lessees/licencees carefully and draft sound agreements Ensure leases and licences do not overly limit public use by providing exclusive use to lessees/licencees Ensure revenue from events and activities in parks and sportsgrounds is based on 'user pays' philosophy <p>Refer: <i>Section 4.3.4 Leases and Licences and other Estates Community Facilities Policy (2015)</i></p>	<p>Leases and licences are supported and well managed in the City of Canterbury Bankstown's open spaces</p> <p>Lessees/licencees keep open spaces well maintained</p> <p>Annual report prepared by all lessees/licencees</p>
ENVIRONMENTAL SUSTAINABILITY	Best Environmental Practice in accordance with legislation and policy	<p>Fulfil the statutory responsibilities and obligations required by, but not limited to:</p> <ul style="list-style-type: none"> <i>State Environmental Planning Policy 19 - Bushland in Urban Areas</i> <i>Soil Conservation Act 1938 (NSW)</i> <i>National Parks and Wildlife Act 1974 (NSW)</i> <i>Biodiversity Conservation Act 2016 (NSW)</i> <i>Environment Protection and Biodiversity Conservation Act 1999 (Commonwealth)</i> <i>Protection of the Environment Operations Act 1997 (NSW)</i> <i>Rural Fires Act 1997 (NSW)</i> 	All Planning Approvals adhere to best environmental practice

Natural Areas

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Increase community appreciation of community land with environmental significance	<ul style="list-style-type: none"> Educate Council staff, residents, schools, universities and any other users of natural areas Coordinate Bushcare program Support education and interpretive programs through Council's Bushcare program Increase the quality of services and resources available to the community, educational and scientific institutions Relevant approvals are obtained prior to undertaking environmental research 	<p>Increase in number of participants in biodiversity volunteering programs eg. National Tree Day, Backyard Bird Count, plant giveaways and Bushcare groups</p> <p>High satisfaction shown in access to natural environment through community satisfaction survey</p> <p>Information placed about protection of natural areas on the Council website</p>
	Maintain water quality entering reserves at a level which is acceptable for sustainable natural area management	<ul style="list-style-type: none"> Implement water quality improvement programs in a co-ordinated and efficient manner Install water sensitive urban design (WSUD) structures covering primary, secondary and tertiary treatment devices based on every sub-catchment Implement Catchment Management Plans and Strategies and Catchment Action Plans for all catchments within the City of Canterbury Bankstown which comply with the principles of Integrated Urban Water Management and Water Sensitive Urban Design 	<p>Reduction in levels of gross pollutant, sediment and nutrient-enriched stormwater and septic tank effluent entering natural areas</p> <p>Reduction in weed infestations due to urban run-off from both point and diffuse sources</p> <p>Maintenance of, and increases in, native vertebrate and invertebrate aquatic and terrestrial fauna</p> <p>Improved water quality and reduced stormwater runoff downstream</p>
	Maintain and enhance biodiversity on community land	<ul style="list-style-type: none"> Council to support and promote Biodiversity Stewardship sites where appropriate across the City of Canterbury Bankstown Plant additional trees and shrubs to increase habitat and shade utilising local indigenous species 	<p>A City-wide Street Tree Strategy and Biodiversity Strategy are consulted upon, developed, endorsed and implemented</p> <p>Increase in number of trees and shrubs planted on all community land</p> <p>Number of trees planted</p>
	Minimise creekline soil and riverbanks erosion and sedimentation	<ul style="list-style-type: none"> Create and/or maintain conditions in which creek and drainage lines are protected from increased erosion and/or sedimentation due to urban impacts Create and/or maintain internal roads, parking areas and walking tracks which can withstand run-off without subjecting natural areas to erosion and/or sedimentation Council to collaborate with Sydney Water on plans for creeklines and riverbanks, to improve the ecological condition of our waterways Implement necessary actions from catchment and waterway strategies to prevent riverbank erosion and sedimentation DAs: Council to require site specific sediment and erosion control plans for sites prior to construction development 	<p>Reduction in sedimentation and bank instability on creek lines and riverbanks</p> <p>Development applications for developments in bushland catchments have an increasing surface area that is permeable</p> <p>Reduction in volume of stormwater entering reserves during peak flows</p> <p>Waterway asset mapping and condition assessment</p>

Natural Areas

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Minimise impact of development on adjoining land with environmental sensitive values	<ul style="list-style-type: none"> • Council Planning Instruments and Building Codes to have specific policies and procedures relating to the retention and management of natural areas • Councils planning policies to consider indirect environmental impacts on adjoining land • Support the principles of WSUD (Water Sensitive Urban Design) for developments which adjoin natural areas so to minimise their stormwater impact 	<i>Biodiversity Strategy</i> is consulted upon, developed, endorsed and implemented
	Enhance and maintain native flora and fauna and genetic diversity	<ul style="list-style-type: none"> • Identify and map all remnant native vegetation and threatened species habitat on community land • Protect remnant native vegetation and wildlife on community land • Implement relevant provisions of the <i>Environment Protection & Biodiversity Conservation Act 1999</i>, <i>National Parks & Wildlife Act 1974</i> and <i>Biodiversity Conservation Act 2016</i> NSW in managing community land • Ensure involvement in regional environmental and biodiversity committees and assist with the development of recovery plans <p>Refer: <i>Biodiversity Strategic Plan 2015-25</i> <i>Tree Preservation Order (Council)</i></p>	<p>Maintain data on the biodiversity value of Council land</p> <p><i>Biodiversity Strategy</i> is consulted upon, developed, endorsed and implemented.</p> <p>High satisfaction shown in protection of natural environment through community satisfaction survey</p>
	Reduce weed populations on community land	<ul style="list-style-type: none"> • Conduct regular targeted weeding of noxious and high priority environmental weeds, utilising volunteers, bushcare groups and external contractors • Undertake regular weed removal along track edges, riparian corridors and identified ecological communities to prevent the further spread of weeds • Organise community education programs about common weed species • Encourage community participation in community land weed control through involvement in volunteer Bushcare groups <p>Refer: <i>Community Environmental Education Strategy</i> <i>Biodiversity Strategic Plan 2015-25 (BCC)</i> <i>Your Native Garden (CB City 2019)</i></p>	<p>Area of noxious weeds removed</p> <p>Number of Bushcare volunteers</p> <p>High satisfaction shown in protection of natural environment through community satisfaction survey</p> <p>Regular work reviews reveal that all responsibilities under the <i>Biosecurity Act 2015</i> and local Policy are being implemented</p>

Natural Areas

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Restoration and regeneration of bushland	<ul style="list-style-type: none"> Identify opportunities to expand current Bushcare sites Encourage and support local residents to participate in Bushcare volunteering. Support community groups with materials and removal of green waste Whenever possible use locally sourced seeds in bush regeneration works Integrate bushland regeneration and restoration with works that mitigate degrading influences on the site, eg. stormwater mitigation <p>Refer: <i>Biodiversity Strategic Plan 2015-25 (BCC)</i> <i>SEPP 19 (Bushland in Urban Areas)</i></p>	<p>Successful implementation of bushland restoration and regeneration programs based on documented aims and objectives</p> <p>Regular monitoring reveals an increase in the total area managed as a natural area with a focus on conservation</p> <p>Increase in numbers of volunteers participating.</p>
	Recreation facilities responding to natural areas	<ul style="list-style-type: none"> Recreation facilities and structures will only be constructed in natural areas if they are compatible with the carrying capacity of the site No additional natural area is to be cleared for recreation facilities The location and maintenance of existing and proposed recreation facilities will aim to reduce reserve fragmentation and other adverse impacts Construction materials and techniques for facilities and structures in natural areas will be visually and environmentally sympathetic with the site (eg recycled timber and plastics) <p>Refer: <i>Community Environmental Education Strategy</i> <i>Biodiversity Strategic Plan 2015-25 (BCC)</i></p>	<p>No unacceptable fragmentation or deterioration of natural area quality as a result of installation or maintenance of recreational facilities</p> <p>No user complaints regarding recreation facilities in natural areas</p>
	Ensure essential access through or into natural areas minimises any impact	<ul style="list-style-type: none"> Non-essential access trails de-commissioned in affected areas. Trails in reserves should be for fire trail purposes and identified as such through the Bushfire Risk Management System (BRIMS) Existing trails are maintained and no new trails are developed in areas with high environmental significance 	<p>No net impact on natural areas due to construction and maintenance of roads and walking tracks</p> <p>High satisfaction shown in protection of natural environment through community satisfaction survey</p> <p>A City-wide Biodiversity Strategy is consulted upon, developed, endorsed and implemented</p>

Natural Areas

continued

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
	Improve council staff interaction with natural areas	<p>Ensure that staff whose actions may impact on natural areas are aware of:</p> <ul style="list-style-type: none"> Techniques for mitigating the impacts of their operations Their responsibilities under SEPP19, the <i>Biodiversity Conservation Act</i>, the <i>National Parks and Wildlife Act</i> and any other relevant legislation. <p>Ensure staff have appropriate training and experience for natural area management.</p>	<p>High level of performance from Council staff and a clear understanding of roles and responsibilities under the legislation pertaining to natural area management.</p> <p>Procedures are formalised regarding staff responsibilities when working in natural areas.</p>
	Secure adequate funding for natural area management	<ul style="list-style-type: none"> Ensure Council budgets are adequate for the management of natural areas, and periodically review the funding allocation for natural area management work. Seek additional external funds for natural area management work to supplement Council funding allocations. 	<p>Funding is adequate for the management of natural areas.</p> <p>Formalisation of grant application process regarding natural areas within Council.</p>
	Reduce impact on natural areas through the development of excellent inter agency coordination (eg.NPWS, DPIE, RMS, Sydney Water, NSW Fisheries) whose activities impact it.	<ul style="list-style-type: none"> Develop natural area management and restoration agreements (Memorandum of Understanding (MOU) between Council and other authorities). Develop natural area management practices and policies with adjoining Councils and organisations that are responsible for management of natural areas. Ensure Council undertakes an assessment of the development and its impact on the natural area if activity from public authorities not listed in Clause 6 (2). (SEPP19 Clause 6 (3) and 6 (4). Formation of inter-agency coordination group to undertake collaborative projects and oversee natural area management activities. 	<p>Increase in the number of co-operative management agreements with other land managers/owners.</p> <p>Success of the inter-agency coordination group with collaborative projects.</p>

General Community Use

Management Objectives	Performance Targets	How to Achieve Objectives and Performance Targets	Performance Measure
CULTURAL AWARENESS	To use General Community Use land for appropriate use , being the physical, cultural, social and intellectual welfare or development of residents	<p>Allow the use of General Community Use land only for uses listed in Table 10 such as:</p> <ul style="list-style-type: none"> • Citizen's Centres • Scout or Guide halls • Neighbourhood centres • Libraries • Cultural centres • Childcare centres and similar educational, cultural and • Social functions <p>See Section 3.3.3 Refer: <i>Community Facilities Policy (BCC 2015)</i></p>	<p>High satisfaction in provision of opportunities to participate in cultural events shown through community satisfaction survey.</p> <p><i>Community Facilities Strategic Plan</i> is consulted upon, developed, endorsed and implemented</p>
	All General Community Use land is located and designed for accessibility .	<p>Plan to have all facilities on General Community Use land:</p> <ul style="list-style-type: none"> • Multi-purpose • Centrally located • Within walking and cycling distance of most residents' homes • Close to other essential services and transport links • Physically accessible to people of all abilities • Affordable • Welcoming to people of all backgrounds. <p>Refer: <i>Community Facilities Policy (BCC 2015)</i></p>	<p>Meet actions and deliver outcomes from the <i>Disability Inclusion Action Plan 2017-2021</i>.</p> <p>High satisfaction and importance is shown in support for people with a disability through community satisfaction survey.</p>
	Only sympathetic, compatible uses allowed on land categorised as General Community Use.	<ul style="list-style-type: none"> • Assess all lease or licence proposals to ensure community benefit, compatibility with this PoM and the capacity of the area to support the activity. • Land categorised as General Community Use is only leased or licenced for uses listed in Table 11. • Ensure that a few uses/users do not predominate and exclude others from using the land 	<p>High satisfaction in provision of opportunities to participate in cultural events shown through community satisfaction survey.</p> <p><i>Community Facilities Strategic Plan</i> is consulted upon, developed, endorsed and implemented.</p>
CULTURAL SIGNIFICANCE	<p>Protect features which have cultural significance such as archaeological remains.</p> <p>Fulfil Council's statutory responsibilities under the <i>EP & A Act (1979)</i>, <i>National Parks & Wildlife Act (1974)</i>, the <i>Heritage Act (1977)</i> and the Burra Charter.</p>	<ul style="list-style-type: none"> • Prepare PoM for community land with cultural significance. • Undertake heritage and cultural assessment studies to identify what should be retained/interpreted. • Prepare a site assessment for sites with cultural significance prior to the implementation of management practices, construction of facilities or installation of services in or adjacent to sites. Take measures to protect any items. • Incorporate historical information on signage to aid understanding and appreciation of sites and their history. <p>Refer: Council's Cultural Strategic Plan Council's <i>LEP</i></p>	<p>Actions required in PoM being implemented in a timely manner.</p> <p>No recorded negative impacts of management practices on sites with cultural significance.</p> <p>Retention and interpretation of sites and items with heritage and cultural value provides increased appreciation and understanding of them as measured in user surveys.</p>
