1.0 INTRODUCTION

1.1. BACKGROUND

Paul Davies Pty Ltd was commissioned by the City of Canterbury-Bankstown Council in May 2016 to undertake Stage 1 of the Hurlstone Park Heritage Assessment Study to identify any potential Heritage Conservation Areas and potential heritage items within the suburb of Hurlstone Park.

Stage 1 Hurlstone Park Heritage Assessment Study Report - that identified seven (7) potential Heritage Conservation Areas and 51 Potential Heritage Items for further investigation - was endorsed by Council at its meeting of 27 September 2016. The Council resolution adopted on 27 September was:

That:

1. Stage 1 of the Hurlstone Park Heritage Assessment Study is endorsed, noting that community consultation will occur as part of the exhibition of the planning proposal
2. Stages 2 and 3 of the Hurlstone Park Heritage Assessment Study involving preparation of inventory sheets, consultation strategy and Development Control Plan controls be undertaken.
3. A planning proposal be prepared for the listing of the identified heritage items and heritage conservation areas in Hurlstone Park, and submitted to the Department of Planning and Environment under Section 56 of the EPA Act for a gateway determination.
4. A report be submitted to Council prior to public exhibition of the planning proposal.
5. Council make Interim Heritage Orders in accordance with section 25 of the Heritage Act 1977 for the potential heritage items identified by the Hurlstone Park Heritage Assessment Study and listed in Attachment B.

Note that Resolution 5 - Interim Heritage Orders (IHOs) to be placed over all potential heritage items identified in the Stage 1 study - was enacted in response to two recent demolitions of buildings within Hurlstone Park that occurred shortly before the September 2016 Council meeting.

These IHOs remain current as at the date of this report.

Paul Davies Pty Ltd was commissioned in November 2016 to undertake Stages 2 and 3 of the Hurlstone Park Heritage Assessment Study, as outlined above.

1.2. THE BRIEF

The brief for Stage 2 of the Study (the subject of this report) is to undertake the following tasks:

Potential Heritage Items identified in the Stage 1 report

Analyse the potential Heritage Items identified in the Stage 1 report (see Attachment 1 for list), involving:

- Photography
- Historical research where existing historical research is lacking
- Analysis of the heritage significance of the potential heritage items in accordance with NSW Heritage Assessment significance criteria and practice

- Prepare State Heritage inventory (SHI) forms for potential heritage items assessed as being of heritage significance at a local or state level, and therefore recommended for heritage listing.
- An analysis of the reasons for exclusion of any potential heritage items not recommended to proceed to heritage listing (to be outlined in this report).

Heritage Conservation Areas identified in the Stage 1 report

- Prepare State Heritage Inventory forms for each of the seven potential HCAs identified in the Stage 1 report, with history and physical descriptions based on the work undertaken in Stage 1 of the study (see Attachment 3 of this report).

The seven draft Heritage Conservation Areas identified in Stage 1 of the study are:

- Crinan Street Shops HCA
- Duntroon Street HCA
- Floss Street HCA
- Hampden Street HCA
- Melford Street HCA
- Melford Street North HCA
- Tennent Parade HCA.

This Report

- Prepare a report (this report) outlining the outcomes of Stage 2 of the study, including the reasons for exclusion of any potential heritage items identified in Stage 1.

Attachment 1 to this report sets out the list of potential heritage items identified in Stage 1 of the study which were analysed in this Part 2: Review of potential heritage items.

1.3. APPROACH AND METHODOLOGY

This review involved site inspections including site photography, historical research and analysis of each potential heritage item and site, with the exception of a number of sites where existing historical research was considered sufficient.

The methodology used is in accordance with the guidelines for heritage assessment in the NSW Heritage Manual published by the NSW Heritage Division, Office of Environment & Heritage (OEH).

The significance analysis undertaken for each potential heritage item and heritage conservation area (HCA) follows the guidelines in the publication *Assessing Heritage Significance* 2001 available online from the NSW Office of Environment & Heritage (OEH).

The potential heritage item sites were visited and photographed by Chery Kemp, Heritage Specialist of Paul Davies Pty Ltd in December 2016.

1.4. AUTHOR IDENTIFICATION

This report was prepared by Paul Davies Pty Ltd, Architects and Heritage Consultants, 180 Darling St Balmain NSW 2041.

This report was authored by Chery Kemp, Heritage Specialist and Paul Davies, Director, with new historical research on potential heritage items undertaken and new potential heritage item histories were researched and written by Dr Charles Pickett, Historian sub-consultant.

This report has been reviewed by Paul Davies, Director, Heritage Architect, of Paul Davies Pty. Ltd.

1.5. ACKNOWLEDGEMENTS

The assistance of the following persons in undertaking this Study is gratefully acknowledged:

- Kirsten Cox, Community History Librarian at Campsie Library, who assisted our historian with his historical research on potential heritage items;
- Rod Clayton, the principal of The Edgware Special Purposes School in Burnett Street, Hurlstone Park, who gave permission to access and photograph buildings on the school site;
- Colin Matthews, of the Siddha Yoga Ashram at 50 Garnet Street, Hurlstone Park who gave permission to access and photograph buildings on the site.

2.0 POTENTIAL HERITAGE ITEMS ANALYSIS

Stage 1 of this project identified 51 properties as potential heritage items for further investigation in Stage 2. The 51 properties examined included 35 items or item groups, which included pairs of adjacent buildings, and sites such as the St Stephanos Greek Orthodox Church site, a site covering 3 separate allotments of land. The list in Attachment 1 to this report lists the potential items as 35 items or item groups.

This review concluded that 22 items or item groups of the 35 items or item groups analysed satisfy the heritage significance criteria to meet the threshold for listing as local heritage items.

The potential items or item groups recommended for local heritage listing are summarised in Table 1 below, which sets out the reasons for the recommendation to proceed with heritage listing for these places.

Attachment 1 of this report contains the detailed draft State Heritage Inventory (SHI) forms for these Potential Heritage Items recommended to proceed to public exhibition as part of an amendment to add these items to the heritage item schedule (Schedule 5) of the Canterbury Local Environmental Plan.

Table 2 below sets out the conclusions of this review with regard to the potential items and item groups examined (of the total 35 potential heritage items or item groups) that have *not been* recommended to proceed to listing as heritage items. The table sets out the reasons for the recommendation to not proceed with heritage listing of these items or item groups.

The following area map identifies the locations of the 51 properties showing those that are recommend for inclusion as items and those that not recommended as inclusion as items. The map also shows existing heritage items within the LEP and the boundaries of the proposed Heritage Conservation Areas.

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
Edgeware School (Special purpose public school). Not within any draft HCA.	6 -20 Burnett Street	Lot 105, DP 8865	The site contains 2 public school buildings dating from the original late 1920s construction date of the original Hurlstone Park Infants School, which is the only school in Hurlstone Park - the main school building constructed 1927 as a Public Infant's School, designed by the Dept. of Education's architect's office, and a weatherboard classroom building likely constructed in 1928 (indicated with red arrows in Figures below). The interior of the main school building is relatively intact, including ceilings and joinery, however the return verandah has been enclosed (likely in 1948). The weatherboard classroom building is also relatively intact however with a verandah enclosed and a modern, lower ceiling installed to the interior.	The two late 1920s school buildings have local historical, aesthetic and social significance demonstrating the development of education and public institutions in the suburb.

Weatherboard house. Not within any draft HCA.	101 Crinan Street	Lot 9, DP 3383	<p>Built within the 1897 Bennet's estate subdivision of the north side of Crinan St (between Melford and Dunstaffenage Streets). The site retains the 1897 subdivision form. Known formerly as "Guernsey".</p> <p>The lot was purchased in 1897 by Ernest Peter Mollett, a salesman, and his wife, who were listed as residents with this part of Crinan Street in 1900 (meaning a likely 1899 construction date for the house).</p> <p>The house appears very intact.</p>	The house is recommended for heritage listing at a local level for its historical and aesthetic significance as an intact example of development of one of the earliest subdivisions of Hurlstone Park.
			Figure 7: (Left) Weatherboard house at 101 Crinan Street	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
Group of late Victorian & Federation period Houses (6 houses). Not within any draft HCA.	No. 66 - Victorian Filigree freestanding single storey, narrow fronted rendered brick house No. 68 - Victorian Filigree freestanding single storey, narrow fronted rendered brick house No. 70 - freestanding single storey narrow fronted Federation Filigree style house No. 72 - freestanding single storey Federation Queen Anne style brick house No. 76 - freestanding single storey Federation Queen Anne style brick house No. 78 - Victorian Italianate style freestanding single storey rendered brick house	Lot 5, DP 3342 Lot 4, DP 3342 Lot A, DP 365662 Lot 2, DP 700041 Lot 1, DP 931430 Lot 1, DP 915598	A fine group of houses in Crinan Street built between 1895 (No. 78) and 1915/16 (No. 70), associated with a number of local builders, in particular William Pendlebury who was the land owner of the subdivided lots prior to construction of the houses, who built the house at No. 72 in 1908 as his own residence, and also built Nos. 66, 68, and 76 either speculatively or for a client. The house at No. 78 constructed in 1895 would be one of the earliest houses in the Hurlstone Park area. Their former names include: "Lily Ville" (68), "Lucielle" (70), "Ohio" (72), "Melrose" (76), "Harlands" (78).	The local heritage listing of these houses is recommended on aesthetic, historical and historical association criteria (the last due to association with prominent local builders). The houses are also considered significant for their group value.

House "Toorak". Within the Melford Street draft HCA.	96 Crinan Street	Lot 5, DP 5924	Freestanding single storey Federation Queen Anne style brick house with slate roof, original front fence. The house was built in 1912-1913 for Albert West of Newtown, a carpenter, on land part of the Jeffrey's Estate No. 5 subdivided in August 1910. Formerly called "Stratford". Very intact.	The house is recommended for heritage listing at a local level for its historical and aesthetic significance as an intact example of the early development of the Jeffrey's Estate No. 5 (a 1910 subdivision).
			Figure 10: (Left) The house at 96 Crinan Street	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
<p>"Karoola" - Federation Queen Anne style house.</p> <p>Within the Duntroon Street draft HCA.</p>	27 Duntroon Street	Lot 1 DP 7126 (No. 27)	The house was constructed in 1916 on the 1915 Woodside Estate subdivision, illustrating the early development of the subdivision. The house is very intact with an original slate roof.	The house is recommended for heritage listing at a local level for its historical and aesthetic significance as a very intact example of the early development of the 1915 Woodside Estate and for its historical association with its first two owners, both customs officers.
			<p>Figure 11: (Left) House at 27 Duntroon Street</p>	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
Federation Queen Anne style pair of semi-detached houses No. 37 "Benga" No. 39 "Foxton". Within the Duntroon Street draft HCA.	37-39 Duntroon Street (No. 37 on corner of Barton Avenue)	Lots 1 & 2 DP 1069398	Nos. 37-39 Duntroon Street were developed on a 1914 subdivision and the semi-detached pair of houses were built in 1915, illustrating early development of the subdivision. Of aesthetic significance as an unusual pair of asymmetrical semi-detached residences on a corner site, very intact including slate roof.	The semi-detached houses are recommended for heritage listing at a local level for their historical significance as an example of the early development of a 1914 subdivision, and aesthetic significance as an intact example of Federation Queen Anne style semi-detached dwellings, unusual for their careful asymmetrical design on a corner site with entries from different streets.
			<p>Figure 12: (Left) 37-39 Duntroon Street (taken from Barton Avenue)</p>	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
Victorian Italianate style House "Glenairlie" or Gwen Villa". Within the draft Hampden Street HCA.	90 Duntroon Street	Lot 1, DP 972451	Victorian Italianate style house, one of an adjacent pair, freestanding single storey, rendered or painted brick, constructed 1896-1897 on the 1895 Fernhill Railway Station Estate subdivision.	The house is recommended for heritage listing at a local level for it's historical significance as an example of the early development of the 1895 Fernhill Railway Estate Subdivision, and for its aesthetic significance as a representative example of the Victorian Italianate style. It was designed to address its corner site with a return verandah and bay windows with gable ends above facing each street frontage. The house is locally a relatively rare example of the Victorian Italianate style.
			Figure 13: (Left) House at 90 Duntroon Street	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
Victorian Italianate style House - "Broomhill". Within the draft Hampden Street HCA.	92 Duntroon Street	Lot 20, DP 3268	Victorian Italianate style house, one of an adjacent pair, freestanding single storey, rendered or painted brick, No. 92 is relatively intact including a slate roof, though the front verandah has been enclosed. The house was built 1900-1910 on the 1895 Fernhill Railway Station Estate and appears to have been designed to mimic its earlier neighbour at No. 90 Duntroon Street.	The house is recommended for heritage listing at a local level for it's historical significance as an example of the early development of the 1895 Fernhill Railway Estate Subdivision, and for its aesthetic significance as a late representative example of the Victorian Italianate style, designed to mimic it's neighbour at No. 90. The house is locally a relatively rare example of the Victorian Italianate style with some Federation period features, and presents an interesting transition between Victorian and Federation period architectural styles.
			Figure 14: (Left) House at 92 Duntroon Street	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
Federation Queen Anne style house - "Orville" - former dairyman's house. Within the draft Floss Street HCA.	128 Duntroon Street	Lot 1, Section 1, DP 3849	<p>The house has an original slate roof, with 2 chimneys, and is on an original subdivision lot.</p> <p>Lot 1, Section 1 of the Jeffreys Estate No. 1 subdivision and initially built for a local dairyman, on a site operating as a local dairy under two subsequent early operators from 1906 to 1914.</p> <p>The front verandah has been altered with circa 1950s metal posts. Leadlight windows to façade may also date from the 1920s. Front door is also modern. However, these are relatively minor changes and the house remains a fine representative example of its style.</p>	The house is recommended for local heritage listing due to its' historical significance demonstrating the development of the 1 st subdivision of Jeffrey's estate (being Lot 1, Section 1 of that subdivision), and as a place of operation of a local dairy from its construction in 1906 till 1914. The house is also of local aesthetic significance as a representative example of the Federation Queen Anne style and has local rarity for its association with early dairying in the area.

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment
<p>“Euston Reserve” Federation period urban park. Within the draft Floss Street HCA.</p>	2C Euston Road	Lot 2, DP 611627 and closed-off street to the east and west. Includes the Ausgrid sub-station.	Historically significant public park that includes Ficus trees, a war memorial and a sub-station. The park comprises privately donated land and street closures.	Euston Reserve is recommended for local heritage listing for its historical significance as a public park donated by a private property owner in 1910-1911 (by the owner of the heritage listed house “Euston” adjacent to the reserve), and for its aesthetic significance for its mature Ficus trees and central war memorial. The war memorial (moved to the park in 1947) also has historical association with the WW1 servicemen and women who are commemorated on the memorial, and social significance for the local descendants of these servicemen and women. The reserve is rare as a public reserve donated by a private property owner.

Federation Queen Anne style house Within the draft Duntroon Street HCA.	29 Fernhill Street (corner Barre Street)	Lot 2, DP 309332	Federation Queen Anne style single storey freestanding face brick house with original slate roof on a corner site.	The house, built 1911 on the 1906 Jeffreys Estate 3 rd subdivision, is recommended for heritage listing at a local level for it's historical significance as a representative of the early development of the area and for local historical association with prominent local builder William Pendlebury (owner/occupant from 1912). The house is of local aesthetic significance as a fine representative example of the Federation Queen Anne style.

Federation Queen Anne style house. Within the draft Duntroon Street HCA.	31 Fernhill Street (corner Barre Street)	Lot 1, DP 124160	Federation Queen Anne style single storey freestanding face brick house with original terracotta tiled roof on corner site.	The house is recommended for heritage listing at a local level due to its historical significance as a house built 1911 on a 1909 resubdivision by builder William Pendlebury of the 1893 Fernhill subdivision, representative of the early development of the area and the process of early resubdivision and for local historical association with prominent local builder William Pendlebury and his builder son also William, responsible for the construction of the house. The house is also of local historical significance for its first owner, Albert Forrest, a veteran of World War I who published a booklet of his WW1 experiences. The house is of local aesthetic significance as a fine representative example of the Federation Queen Anne style.

Electricity Substation No. 57. Not within any draft HCA.	12 Floss Street	Lot 1, DP 124155	Listed on Section 170 register. Purpose-built in 1921 by the Electricity Dept of the Sydney Municipal Council, replaced earlier substations built from 1915.	The substation is recommended for local heritage listing due to local historical significance as a 1921 substation representative of the small-scale substations constructed by Municipal Council of Sydney during the first suburban electricity network roll-outs in the 1920s and 1930s. The substation is also of local aesthetic significance as a purpose built structure with elements of the Inter-war California Bungalow style. Rare at a local level and representative across the Sydney metropolitan area.

Ellesmere - Late Victorian period house. Not within any draft HCA.	42 Garnet Street	Lot 2, DP3 22881	Freestanding single storey late Victorian period house built 1899-1900 on an 1888 re-subdivision, representing early development of the area.	The house is recommended for local heritage listing for its historical significance as a house built 1899-1900 on an 1888 re-subdivision, representing early development of the area, and for its aesthetic significance as a representative example of a transitional style blending the Victorian Filigree style with Federation period features such as timber fretwork to verandah and gable end. Locally rare as an example of Victorian period development in the Hurlstone Park area.

Worked quarry faces. Not within any draft HCA.	76-80 Garnet Street	SP 21620	Former quarry site (now residential flat development) with remnant worked quarry faces. The site is the last physical evidence of early quarrying in the Hurlstone Park area.	The quarry faces are of historical significance as the only remaining physical evidence of the history of quarrying in Hurlstone Park, dating from the 1880s. The quarry faces are of aesthetic/technical significance as they provide evidence of the technical aspects of late 19 th century quarrying activity.

<p>Pair of Federation semi-detached houses: "Hollis" (No. 15) and "Kelmscott" (No. 17).</p> <p>Within the draft Melford Street HCA.</p>	15-17 Gower Street (corner Melford Street)	<p>Lot B, DP 106262 (No. 15)</p> <p>Lot A, DP 106262 (No. 17)</p>	Unusual pair of asymmetrical Federation Queen Anne style semi-detached houses, single storey face brick with slate roof, on corner site.	<p>The pair of semi-detached houses are recommended for local heritage listing due to historical significance as residences constructed in 1915 by prominent local builder on the 1910 Jeffreys Estate 5th subdivision illustrating the early development of the area. The houses have historical association with prominent local builder William James Pendlebury who designed and constructed the dwellings. The residences are of local aesthetic significance a fine example of Federation Queen Anne style semi-detached residences designed to appear as a single dwelling, on a corner site with separate entrances off each street, and illustrative of both the style and the builder's work.</p>
			<p>Figure 27: (Left) Nos. 15-17 Gower Street</p>

Inter War California Bungalow on large site. Within the draft Melford Street HCA.	21 Kilbride Street	Lot 1, DP 170536	A fine example of an Inter-war California Bungalow built in 1922 (first occupied 1923), on large prominent garden site with original fencing. Rare original garage (evidence first owner had a car prior to 1926). The house has a high level of integrity.	The house is recommended for local heritage listing due to its historical significance as a house constructed in 1922 by a local building contractor for his own occupation, as evidence of later re-subdivision and development of an 1893 subdivision, historical association with builder and owner/occupant Henry Wilson Jones, and of aesthetic significance as a fine, very intact example of an Inter-war California Bungalow with original front fence and original garage, unusual for its level of integrity.

Hulrstone Park Uniting Church - Federation and Inter-War church buildings. Within the draft Melford Street North HCA.	8 Melford Street	Lot 4, DP 3738	Former Methodist Church opened in 1912 designed by architect Alfred G. Newman. Sunday School building at rear designed by architect Hugh Venables Vernon in 1923.	The site is recommended for heritage listing due to the historical significance of the former Methodist Church (1912) and the Sunday School building (1923) illustrating the early history of Methodists in the area. The buildings have historical association with the Methodist community in the area, and with architects Alfred G. Newman (designer of the church) and Hugh Venables Vernon (architect of the Sunday School building). The buildings are of local aesthetic significance as fine architect-designed buildings representative of the Federation Gothic style (church) and the Inter-war Romanesque style (Sunday School building) and of the work of the respective architects. The site has social significance for the Uniting Church community.

Federation House "Fern Hill". Within the draft Melford Street HCA.	104 Melford Street	Lot 1, DP 311222	Fine Federation Queen Anne style house on corner of Kilbride & Melford Streets. Built 1914 on the 1912 Jeffrey's Estate 6 th subdivision.	The house is recommended for heritage listing due to its' historical significance as a house, built 1914 on the 1912 Jeffreys Estate 6 th subdivision and representative of the early development of the subdivision, and its' aesthetic significance as a fine representative example of the Federation Queen Anne style on a prominent corner site and designed to address the corner and both street frontages.

<p>St Stephanos Greek Orthodox Church site including:</p> <ul style="list-style-type: none"> - former "St Stephens Anglican Church", - child-care centre - church hall <p>The listing does not include the former rectory building (now used as a child-care centre).</p> <p>Not within any draft HCA.</p>	648-668 New Canterbury Road - 4 separate buildings on the site - Rectory, Church Hall, Church and Child Care Centre	<p>Lot 2, DP 309070</p> <p>Lot 1, DP 309071</p> <p>Lot A, DP 448353</p>	The site includes the Former St Stephens Anglican Church (1924 brick church designed by architects Burcham Clamp and CH Finch, with additions 1934 and 1984-1985), the original weatherboard church (1908) now a church hall; the former Rectory now used as a child-care centre (built 1919-1930), corner of Melford Street; and the St Stephanos Child Care Building (built 1927-1928).	The site and its collection of three significant church-related buildings – Church Hall, Church (1924), and Child care Centre, are of local historical significance as a collection of religious buildings originally built for the Anglican church, purchased for use by the Greek Orthodox Church in 1984, providing evidence for the growth and later decline of the local Anglican congregation. The conversion to Greek Orthodox use in 1984 is also of historical interest as evidence of the changing community of Hurlstone Park in the 1980s. The 1924 Church has historical association with architects John Burcham Clamp and C.H. Finch. The 1924 Church and the 1927-28 Child Care Centre (designer not known) are of aesthetic significance. The church buildings also have local social significance for the Greek Orthodox community.

Figure 37: Detail, front courtyard wall of the 1927-28 Child Care Centre building

Table 2 sets out the potential items analysed which are not recommended for heritage listing and the reasons for the recommendation.

During fieldwork, it was noted that in some cases there were similar houses in the same street as the potential items analysed which were not heritage listed. For consistency, a potential item should not be recommended for heritage listing unless there are significance values which sets the potential item apart from other similar buildings in the area – for example on aesthetic or historical significance criterion.

Table 2: Potential Heritage Items analysed which are NOT recommended to proceed to heritage listing

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation & reasons
Weatherboard cottage "Lydia". Within the draft Melford Street HCA.	40 Acton Street	Lot 21, DP 623455	The cottage was constructed by a local builder, John James Jacob, in 1915, who immediately onsold the house but leased it back from the new owners. The cottage is a single storey detached weatherboard house with terracotta-tiled roof, bullnose corrugated iron front verandah.	The house is a good example of a speculatively built Federation Queen Anne weatherboard cottage. The cottage appears relatively intact, however the terracotta tile roof is likely a later addition.	The cottage is considered to be a "Contributory" building within the draft Melford Street Heritage Conservation Area. It is not considered to be of a level of significance, historically or aesthetically, that would warrant local heritage listing as an individual heritage item.
			Figure 38: (Left) The weatherboard house at 40 Acton Street, Hurlstone Park		

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation & reasons
Federation weatherboard House "Mandilla". Within the draft Melford Street HCA.	4 Canberra Street	Lot 2, DP 503010	Federation period weatherboard House "Mandilla". Weatherboard house with corrugated iron roof, return bullnose corrugated iron roofed verandah, single storey detached. The house was constructed in 1915, making it the oldest house in Canberra Street.	The house appears highly intact, and it is considered a good representative example of its type however it has no specific historical associations with prominent persons in the history of the area.	The house is considered to be a "Contributory" building within the draft Melford Street Heritage Conservation Area. It is not considered to be of a level of significance, historically or aesthetically, that would warrant local heritage listing as an individual heritage item.
			Figure 39: (Left) the weatherboard house at 4 Canberra Street

Pair of houses “Trevona or “Catherine” (22); “Glenelsie” (24) Within the draft Melford Street HCA.	22 and 24 Canterton Street	Lot 13, Sec 2 DP 5100 and Lot 14, Sec 2, DP 5100	Both Federation Queen Anne style brick houses, single storey detached. No. 24 has similar detailing to Nos. 1-3 Melford Street (may be same builder). The house at No. 22 Canterton Street was constructed in 1910. The house at No. 24 Canterton Street was constructed circa 1913-1914, speculatively built, likely by builder Charles Coombes and rented out after construction.	Both houses are good examples of Federation Queen Anne style, however are not considered to reach a threshold of significance on either aesthetic or historical criteria to warrant local heritage listing.	The houses are considered to be “Contributory” buildings within the draft Melford Street Heritage Conservation Area, and are not considered to be of a level of significance, historically or aesthetically, which would warrant local heritage listing as individual heritage items. It was noted that there are other similar houses in the street (for example Nos. 26 and 28) which are not heritage listed.
					
Figure 40: 22 Canterton Street			Figure 41: 24 Canterton Street		

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Weatherboard Cottage. Not within any draft HCA.	49 Church Street	Lot 1, DP 945901	Narrow fronted freestanding weatherboard cottage with hipped and gabled corrugated iron roof, freestanding, detached. The cottage was built in 1913-14 by Arthur Genders, a well-known local builder, on land originally part of the 1884 Sugar Estate subdivision. The house was first purchased by Albert Charles Hockings, a painter in 1914, however was acquired in 1920 by the War Service Homes Commissioner, who in 1921 transferred it back to Hockings, who had served in World War 1.	The house is a modest example of its type, which now lacks context. It is apparent the reclad neighbouring house to the left (north) was once identical to this house.	Not considered to be of a level of significance, historically or aesthetically, which would warrant local heritage listing as an individual heritage item.
				Figure 42: (Left) The weatherboard cottage at 49 Church Street	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Pair of Federation period shops with early shopfronts. Within the draft Crinan Street Shops HCA.	13 and 15 Crinan Street	Lot 9, DP 6091 Lot 10, DP 6091	The shop/residence at No. 13 Crinan Street was built 1913 on a 1911 subdivision, the Fernhill Station Estate, and was operated initially as a shoe store with residence above 1913-1941. The shop/residence at No. 15 Crinan Street was built 1915 on a 1911 subdivision, the Fernhill Station Estate, by local builder Frederick Rossiter, and was initially leased out. The shop was sold in 1922 to Frederick Skelton. In 1927 the Skeltons moved the Hurlstone Park post office agency and drapery to No. 15, where it operated until 1950. The shopfront at No. 15 appears to date from 1927 when the Skeltons moved the Post office agency and drapery store into the premises, as it features painted gold signage in the top hamper over the recessed entry reading "Drapery and Mercery".	The shops both have alterations to 1 st floor facades. While distinctive for retaining early shopfronts, there are shops within the HCA which also retain early shopfronts and which are not listed as heritage items. For consistency, it is considered these shops should be regarded as "Contributory" within the HCA.	The shops are considered to be "Contributory" buildings within the draft Crinan Street Shops Heritage Conservation Area, but not considered to be of a level of significance, historically or aesthetically, which would warrant local heritage listing as individual heritage items.
					
Figure 43: Shop/residence at No. 13 Crinan Street. Note changes to 1 st floor façade, early ground floor shopfront.			Figure 44: Shop/residence at No. 15 Crinan Street. Note altered window to 1 st floor façade, early ground floor shopfront (circa 1927).		

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Former corner shop. Not within any HCA.	81 Crinan Street	Lot 1, DP 3383	Part of an 1897 subdivision of the north side of Crinan St between Melford & Dunstaffnage Streets. The shop was built in 1912 (date on parapet) as a shop and residence for grocer Joseph John Pattison, however Pattison let out the shop initially to a series of grocers. The Pattison family retained ownership of the site into the 1970s.	The shop is an example of a corner shop from the early 20 th century, of which few remain in Hurlstone Park, and retains it's 1897 subdivision pattern backing onto Wallace Lane. However, the shop has also been substantially altered including cement rendering of external walls and the installation of aluminium framed windows. The alterations are considered to result in the fabric of the shop not being capable of reflecting the history of the building.	The shop at 81 Crinan Street is not considered to be of a level of significance that would warrant local heritage listing as an individual heritage item. The level of alteration of the building is considered to have diminished aesthetic significance.
			Figure 45: (Left) shop at No. 81 Crinan Street		

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Federation Queen Anne style houses group (5 houses). Within the draft Melford Street HCA.	Nos. 38 to 46 Dunstaffenage Street	Lots 1 and 2, DP 123813 (No. 38) Lot 1, DP 124110 (No. 40) Lot 1, DP 947077 (No. 42) Lots 1 and 2, DP 123818 (No. 44) Lot 1 DP 950133 (No. 46)	Group of Federation Queen Anne style houses, single storey, detached, slightly elevated above street level. The houses are angled and staggered in relation to the street alignment. Originally part of the 5 th Jeffreys Estate subdivision of 1910 (which included Euston Street and Gower St) however this area was later resubdivided by builder William Pendlebury to create extra lots. No. 38 "Lenray" was built by Pendlebury in 1911. No. 40 "Caloola" was also built by builder William Pendlebury in 1911. Nos. 42, 44 and 46 were built by builder Clement Witheford, also a prolific builder in the area, with No. 42 constructed in 1912, No. 44 also built in 1912, and No. 46 constructed by 1911.	Some of the group have been altered (roller shutters to windows of No. 44, aluminium framed windows and modern awnings and fencing to No. 46).	The group of houses are considered Contributory within the Melford Street Heritage Conservation Area, but are not considered to be of a level of significance which would warrant local heritage listing as individual heritage items. While having historical association with prominent local builders, aesthetic significance has been comprised via alterations.

Federation Queen Anne style house. Within the draft Duntroon Street HCA.	29 Duntroon Street	Lot 1, DP 952563	Freestanding single storey Federation Queen Anne style brick house with slate roof.	The front windows of the house have been altered circa 1950s, compromising the aesthetic significance.	The house is considered Contributory within the Floss Street Heritage Conservation Area, but is not considered to be of a level of significance that would warrant local heritage listing as an individual heritage item.
				<p>Figure 51: (Left) The house at No. 29 Duntroon Street</p>	

Federation Queen Anne style house. Within the draft Floss Street HCA.	109 Duntroon Street	Lot 5, DP 4448	Federation Queen Anne style brick freestanding house with an original slate roof. Built circa 1910 on a 1904 subdivision, operated as a private commercial college by lessee/tenant Hugh Thomas Williamson 1911 to 1920s, in 1924 Williamson purchased the site.	The house has had circa 1930s alterations including brick posts added to the front verandah. Aesthetic significance has been compromised by later alterations to the façade. There are other houses of similar quality in the street that are not heritage listed.	The house is considered Contributory within the Floss Street Heritage Conservation Area, but is not considered to be of a level of significance that would warrant local heritage listing as an individual heritage item.
				Figure 52: (Left) The house at No. 109 Duntroon Street

"Glenleith". Federation Queen Anne style house. Within the draft Floss Street HCA.	113 Duntroon Street	Lot 3, DP4448	Federation Queen Anne style brick freestanding house with an original slate roof. Built circa 1908 on a 1904 subdivision.	A very intact Federation Queen Anne style house, however no particular historical associations and there are other similar houses in the vicinity which are not heritage listed (including No. 115 adjacent).	The house is considered Contributory within the Floss Street Heritage Conservation Area, but is not considered to be of a level of significance, which would warrant local heritage listing as an individual heritage item. It is similar to other houses in the HCA which are not heritage listed.

Figure 53: "Glenleith", House at 113 Duntroon Street

Figure 54: House at 115 Duntroon Street adjacent (not heritage listed)

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Pair of Federation Queen Anne style houses: "Corinda" (44) & "Clarburn" (46) Within the draft Duntroon Street HCA	44 and 46 Duntroon Street	Lot 1, DP 236096 (No. 44) Lot 2, DP 236096 (No. 46)	Houses have original slate roofs. Both houses built on a single lot (Lot 5) of an 1899 subdivision, by Marrickville bricklayer Arthur Howard Davies, owner/occupant of Corinda (44) from 1903. In 1920 Davies constructed the house at No. 46 and he and his wife then moved into it. The house at No. 46 is therefore a rare example of a Federation period house built in 1920.	Largely intact pair of modest narrow-fronted Federation Queen Anne style houses associated with a local builder. Carport in front of No 44 detracts from the streetscape appearance.	The pair of adjacent houses are considered Contributory within the Duntroon Street Heritage Conservation Area, but are not considered to be of a level of significance which would warrant local heritage listing as individual heritage items. While their building history is somewhat interesting the houses have lost context, and the carport in front of No 44 reduces aesthetic significance.
					
Figure 55: House at 46 Duntroon St				Figure 56: House at 44 Duntroon Street (with No. 46 left)

Federation Queen Anne style house. Within the draft Duntroon Street HCA.	58-60 Duntroon Street	Lot 20, DP 558840	1912 Broadhurst postcard shows development in Duntroon Street at this time. The house has an original slate roof. This is a modest narrow-fronted Federation Queen Anne style house built 1904 by local builder Frederick Robert Rossiter on an 1893 subdivision.	The building is a typical local building that while relatively intact is not outstanding.	The house is considered Contributory within the Duntroon Street Heritage Conservation Area, but is not considered to be of a level of significance which would warrant local heritage listing as an individual heritage item.
			Figure 57: (Left) House at 58-60 Duntroon Street		

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Pair of Federation Queen Anne style semi-detached houses. Within the draft Hampden Street HCA.	82 and 84 Duntroon Street	Lot 1, DP 577971 (No. 82) Lot 2, DP 577971 (No. 84)	House has an original slate roof. Built between 1915 and 1919 on a single lot (Lot 17 DP 3268) of an 1894 subdivision as speculative housing for rental, possibly by local builder Frederick Robert Rossiter junior, who with his father had built several Duntroon Street houses and was the first occupant of No. 82. New separate titles were issued in 1973.	One of the pair has had brickwork painted; both have had windows to façade replaced with circa 1950s timber framed windows. While the history is of local interest, the houses are not considered to reach the threshold of significance for local heritage listing due to their level of alteration.	The houses are considered Contributory within the draft Hampden St HCA. Alterations have reduced aesthetic significance.
				Figure 58: (Left) Pair of semi-detached houses at 82 & 84 Duntroon Street	

Potential item description	Address	Property Description (Lot and DP No)	Historical or descriptive details and comments	Comment	Recommendation and reasons
Former Children's Home on large site with high circa 1920s brick fence, formal gardens, 4 buildings Not within any draft HCA.	50 Garnet Street	Lot 1, DP 2906	Former Protestant Federation Children's Home opened in 1921. Now a yoga centre.	The history of the site is interesting and the remnants of 2-storey house "Tinonee" constructed in 1904 remain, built into a later (circa 1930s) building. However, overall the buildings on the site, largely dating from the 1920s-1950s are extensively altered, not considered to be of aesthetic significance. and due to fabric changes do not reflect the history of the site well.	Not recommended for heritage listing, due to extensive alteration of buildings. The buildings no longer provide evidence of the history of the site.
					
Figure 59: Recent satellite view of the site at 50 Garnet Street (shaded yellow). Source: NSW Land & Property Information Six Maps			Figure 60: 1943 aerial photo of the site at 50 Garnet Street (shaded yellow). The building in the north-east corner was the house "Tionee" built 1904. Note radical changes to roof form since 1943. Only a remnant of the house remains incorporated into a later building. Source: NSW Land & Property Information Six Maps

3.0 HERITAGE CONSERVATION AREAS SHI FORMS

The Stage 1 report for this Study concluded that seven (7) areas within Hurlstone Park be recommended as potential Heritage Conservation Areas, listed as follows:

- Crinan Street Shops HCA
- Duntroon Street HCA
- Floss Street HCA
- Hampden Street HCA
- Melford Street HCA
- Melford Street North HCA
- Tennent Parade HCA.

Attachment 2 of this report contains the State Heritage Inventory (SHI) forms prepared for each of these proposed Heritage Conservation Areas (HCAs). All heritage conservation areas identified in the Stage 1 report for this study have been previously recommended for inclusion in *Schedule 5, Part 2: Heritage Conservation Areas* of a Local Environmental Plan.

Note that Stage 3 of this project involves the preparation of appropriate Development Control Plan heritage controls relating to these HCAs. This is being undertaken concurrently with Stage 2.

4.0 RECOMMENDATION

That Council:

- Exhibit a Planning Proposal in relation to heritage listing the recommended sites listed in this report in Table 1 as local heritage items to be added to Schedule 5 of the Canterbury LEP, and adding the seven (7) recommended Heritage Conservation Areas to Schedule 5 of the Canterbury LEP.

ATTACHMENT 1:

LIST OF POTENTIAL HERITAGE ITEMS ANALYSED IN THIS REPORT

LIST OF POTENTIAL ITEMS ANALYSED IN THIS REPORT

Potential Item	Address	Lot & DP	Detailed Description/Comment
Weatherboard cottage "Lydia". Within the draft Melford Street HCA.	40 Acton Street	Lot 21, DP 623455	Single storey detached weatherboard house with terracotta-tiled roof, bullnose corrugated iron front verandah.
Edgeware School (Special purpose public school) Not in any draft HCA.	6 -20 Burnett Street	Lot 105, DP 8865	Public school buildings constructed prior to 1943 (from 1943 aerial photo).
Federation weatherboard House "Mandilla" Within the draft Melford Street HCA.	4 Canberra Street	Lot 2, DP 503010	Federation weatherboard House "Mandilla". Weatherboard house with corrugated iron roof, return bullnose corrugated iron roofed verandah, single storey detached.
Pair of houses "Trevona or "Catherine" (22); "Glenelsie" (24) Within the draft Melford Street HCA.	22 and 24 Canterton Street	Lot 13, Sec 2, DP 5100 and Lot 14, Sec 2, DP 5100	Both Federation Queen Anne style brick houses, single storey detached. No. 24 has similar detailing to Nos. 1-3 Melford Street (may be same builder).
Weatherboard Cottage Not within any HCA.	49 Church Street	Lot 1 DP 945901	Narrow fronted freestanding weatherboard cottage with hipped and gabled corrugated iron roof, freestanding, detached.
Pair of Federation period shops with original shopfronts Within the Crinan Street Shops HCA.	13 & 15 Crinan Street	Lot 9, DP 6091 Lot 10, DP 6091	Pair of Federation period shops with rare original shopfronts.
Former corner shop. Not within any HCA.	81 Crinan Street	Lot 1, DP 3383	Shop built in 1912 (date on parapet); Part of an 1897 subdivision of the north side of Crinan St between Melford & Dunstaffenage Streets.
Weatherboard house Not within any HCA.	101 Crinan Street	Lot 9, DP 3383	Part of an 1897 subdivision of the north side of Crinan St between Melford & Dunstaffenage Streets.
Group of late Victorian and Federation period Houses. Not within any HCA.	Nos. 66, 68, 70, 72, 76 and 78, Crinan Street	Lot 5, DP 3342 Lot 4, DP 3342 Lot A, DP 365662 Lot 2, DP 700041 Lot 1, DP 931430 Lot 1, DP 915598	No. 66 - Victorian Filigree freestanding single storey, narrow fronted rendered brick house No. 68 - Victorian Filigree freestanding single storey, narrow fronted rendered brick house No. 70 - freestanding single storey narrow fronted Federation Filigree style house No. 72 - freestanding single storey Federation Queen Anne style brick house No. 76 - freestanding single storey Federation Queen Anne style brick house No. 78 - Victorian Italianate style freestanding single storey rendered brick house
House "Toorak" Within the draft Melford Street HCA	96 Crinan Street	Lot 5, DP 5924	Freestanding single storey Federation Queen Anne style brick house with slate roof, original front fence.

Potential Item	Address	Lot & DP	Detailed Description/Comment
Federation Queen Anne style houses group (5 houses). Within the draft Melford Street HCA.	Nos. 38 to 46 Dunstaffnage Street	Lots 1 and 2, DP 123813 (No. 38) Lot 1, DP 124110 (No. 40) Lot 1, DP 947077 (No. 42) Lots 1 and 2, DP 123818 (No. 44) Lot 1 DP 950133 (No. 46)	Group of Federation Queen Anne style houses, single storey, detached, slightly elevated above street level. The house are angled and staggered in relation to the street alignment. Originally part of the 5 th Jeffreys Estate subdivision of 1910 (which included Euston Street and Gower St) however this area later resubdivided to create extra lots. Nos. 38 and 40 at the south end of this group are known to have been built by builder William Pendlebury in 1911 (see History). The three northern houses all have fin walls at the southern ends of the front verandahs and would appear to have been built by a single (unknown) builder.
Federation Queen Anne style houses with original slate roofs. Within the draft Duntroon Street HCA.	27 & 29 Duntroon Street	Lot 1 DP7126 (No. 27) Lot 1 DP952563 (No. 29)	1912 Broadhurst postcard shows development in Duntroon Street at this time.
Federation Queen Anne style pair of semi-detached houses. Within draft the Duntroon Street HCA.	37 and 39 Duntroon Street (No. 37 on corner of Barton Avenue)	Lots 1 and 2 DP 1069398	1912 Broadhurst postcard shows development in Duntroon Street at this time. Houses have original slate roof.
Federation Queen Anne style house . Within the draft Floss Street HCA.	109 Duntroon Street	Lot 5, DP 4448	1912 Broadhurst postcard shows development in Duntroon Street at this time. House has an original slate roof.
Federation Queen Anne style house "Glenleith". Within the draft Floss Street HCA.	113 Duntroon Street	Lot 3, D P4448	1912 Broadhurst postcard shows development in Duntroon Street at this time. House has an original slate roof. House built in 1905-1907 on the 1904 Starkey Estate subdivision.
Pair of Federation Queen Anne style houses. Within the draft Duntroon Street HCA.	44, 46 Duntroon Street	Lot 1, DP 236096 (No. 44) Lot 2, DP 236096 (No. 46)	1912 Broadhurst postcard shows development in Duntroon Street at this time. Houses have original slate roofs. House has an original slate roof.
Federation Queen Anne style house. Within the Duntroon Street HCA.	58-60 Duntroon Street	Lot 20, DP 558840	1912 Broadhurst postcard shows development in Duntroon Street at this time. House has an original slate roof.

Owner: State Government
Admin Codes:
Code 2:
Code 3:
Current Use: Special public school
Former Uses: Public Infants School, Catholic Special School
Assessed Significance: Local
Endorsed Significance:

Statement of Significance: The two former Hurlstone Park South Infants school buildings (the main classroom building completed 1927 and the weatherboard classroom building completed 1928) are of local historical significance demonstrating the growth of educational facilities in the early to mid 20th century.
The two early school buildings are of local aesthetic significance as examples of 1920s classroom buildings designed by the NSW Education Department architects office. The design details of the buildings such as tall timber-framed multi-paned windows, fanlights over doors, highlight windows and verandahs, reflect educational architectural thinking of the 1920s period in NSW where standard forms of buildings were developed to address growth across Sydney. This was during a period of austerity seen in the use of timber as well as the use of brick. The two 1920s school buildings are representative of Education Department design from the period.
The buildings are representative of school development in then new suburbs.

Item Name: **Edgware Special School - 1927 and 1928 building**

Location: **6-20 Burnett Street, Hurlstone Park**

Historical Notes Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s' (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>) The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Edgware School is located on what were Lots 95, 96, 103, 104 and 105 of Deposited Plan 8865, the ninth subdivision of Jeffreys Estate, 1917, by then owned by the Intercolonial Land Investment & Building Society Co Ltd. Situated at the south east corner of Hurlstone Park, it was one of the last parts of Jeffreys Estate to be subdivided and comprised land north from the Cooks River fronting Tennant Road (then Smith Avenue) and Burnett Street (then the eastern end of Kilbride Street, split by the railway line during the 1890s).

Much of the subdivision had been sold by 1923 when the NSW Minister for Education announced that a Public Infants School would be built at Hurlstone Park South (NSW Government Gazette, 26 October 1923, p.5007.) In 1924 the land listed above was purchased from various owners 'for the purposes of the Public Instruction Act.' Tenders were called for construction of a school building in 1926 (NSW Government Gazette, 12 March 1926, p.1223). A regular seeker of school jobs, Belmore builder A Quiggin, was successful with a tender of £2593 (\$5186). (Sydney Morning Herald, 28 April 1926, p.9).

The school building was designed by the Department of Education's architects' office, and is a standard school design. The 1920s was one of three periods when public schools were not

Item Name: Edgeware Special School - 1927 and 1928 building

Location: 6-20 Burnett Street, Hurlstone Park

designed by the NSW Government Architects' Office, and the Education Department's architects were frequently criticized for producing 'the plainest of school buildings'. (Construction and Local Government Journal, 28 November 1928, p.14.) Certainly there is little flourish to the new school's brick classroom block beneath an iron gabled roof, comprising three classrooms connected by a north-facing veranda. Opening the school officially on 6 April 1927, the Inspector of Schools 'made reference to the growth of the district, which the department had recognized by making provision whereby the present building could be added to by another storey, and further extensions made on the ground floor' (Sun, 6 April 1927, p.15). The founding principal was Marcia Macara.

Tenders were advertised in 1928 for a new infant's building at Hurlstone Park (The Sun, Sydney, 29 October 1928, page 2). This is most likely the building referred to as the Weatherboard Classroom building (see description).

As depicted in the 1943 aerial survey photo the school consisted of the main classroom building and a smaller building to its rear (the Weatherboard classroom building). Since then the verandahs to the main classroom building have been enclosed - probably about 1948 as the school's Parents and Citizen's association had been promised action in response to its campaign 'to get wire grilles to protect the school's porches. It complained that these were in a disgraceful state because the school was not fenced and was a hunting ground for vandals'. (Sydney Morning Herald, 1 June 1948, p.1). Although it was the only public school in Hurlstone Park enrolments were modest: in 1977 only 147 children were being taught by six teachers (Canterbury Council local history file). The school was closed due to declining enrolments in 1989, despite a concerted local campaign against the closure. By this time demountable buildings had been added to site. Following the closure of the school as a public school, the site was leased to the Catholic Education Office as a special school, which also closed in 1996. The NSW Government then relocated Edgeware House, a special needs school, to the site in 1997, while selling off part of the site for a townhouse development, again inciting community protests (Valley Times, 11 December 1997, p.1). There are now seven modern school buildings on the site in addition to the two early school buildings

Themes:	National Theme	State Theme	Local Theme

Designer: Department of Public Education Architects Office

Maker / Builder: A. Quiggin

Year Started: 1926 **Year Completed:** 1928 **Circa:** No

Item Name: Edgware Special School - 1927 and 1928 building

Location: 6-20 Burnett Street, Hurlstone Park

Physical Description: The school site faces Burnett Street to the north, and is located in a section of the street accessed from Tennent Parade to the east and closed off at the western end from the western continuation of Burnett Street. To the west the boundary of the school site is adjacent to the rear boundaries of properties at 12-20 Smith Street, to the east the school property is adjacent to the western boundary of the property at No. 4 Burnett Street. To the south, the school site adjoins the rear property boundaries of properties at 46-60 Tennent Parade.

There are two school buildings on the site that date from the early years of the school:

Main Classroom building (completed 1927)

A gabled brick building with a verandah along the Burnett Street (north) frontage returning along the east and west sides, the verandahs now being enclosed with weatherboards and timber windows. The main corrugated iron roof extends over the front verandah, and the verandah roofs wrap around the brick gable ends of the building. The building has wide eaves, with tongue and grooved boarded soffits to the gable ends to east and west and with exposed timber rafter ends to north and south. Windows to the verandah enclosures are small multipaned timber framed windows. External windows to the rear (south) of the brick central portion of the building are tall simple timber-framed double hung windows placed in pairs.

Internally, details include original door and window openings with tall multipaned (6 panes per sash) timber-framed windows along the original brick front (north) façade facing into the now-enclosed front verandah, door openings retaining fanlights and original architraves, and fireplaces retaining some detail.

Weatherboard Classroom Building (completed 1928)

This weatherboard building is located to the south-west of the main school building. It is a small gable roofed building with a weatherboard-enclosed skillion-roofed verandah on the north elevation facing Burnett Street. Internally the verandah retains evidence of timber-slatted ends to east and west.

Internally, the building has a modern ceiling, however, it appears to have originally featured a high ceiling - there are high windows to the exterior on the west and north elevations which no longer provide light to the interior due to the installation of the modern low ceiling.

Windows to the east side are two pairs of simple timber-framed double-hung windows and there are modern concrete entry steps, railing and modern entry door on the east elevation.

A modern window has been installed on the west elevation

Physical Condition: Good

Modification Dates: Seven additional buildings have been added to the site since 1943.

With regard to the early school buildings, the following modifications are evident:

Main Classroom building: verandah enclosures to east, north and south dating from 1948, removal of early fireplaces, replacement of original doors.

Weatherboard Classroom building: enclosure of originally open east verandah, modern low ceiling to interior, new window to north elevation, entry door and steps to south elevation.

Item Name: Edgware Special School - 1927 and 1928 building

Location: 6-20 Burnett Street, Hurlstone Park

**Recommended
Management:**

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:

(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Future new buildings or additions should be designed in response to the heritage values of the two buildings and their setting.

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) The former Hurlstone Park South Infants school buildings (the main classroom building completed 1927 and the weatherboard classroom building completed 1928) are of local historical significance as evidence of the history of educational provision in the local area in the early to mid 20th century.

Criteria b) Not relevant.

Criteria c) The two early school buildings - the Main classroom building constructed 1926-1927 and the Weatherboard Classroom building constructed in 1928 - are of aesthetic significance as examples of 1920s classroom buildings designed by NSW Education Department Architects. The design details of the buildings such as tall timber-framed multi-paned windows, fanlights over doors, highlight windows and verandahs, reflect educational architectural thinking of the 1920s period in NSW and demonstrate an austere approach to building design.

Criteria d) Social significance has not been researched. It is possible that the school has social significance to former staff and pupils.

Criteria e) Not relevant.

Criteria f) Not relevant.

Criteria g) The two 1920s school buildings are representative of NSW Education Department Architect designs of this period.

Assessed Significance: Local **Endorsed Significance:**

Statement of Significance: The Crinan Street house group is of local historical significance as a group of houses constructed 1895-1916 on an 1895 subdivision by brickmaker and building contractor William Pendlebury on land adjacent to Pendlebury's Crinan Street brickpit. The group provides evidence of the developmental history of the area when the railway to Belmore was built through Fernhill (now Hurlstone Park) in 1895.

The group of houses are significant at a local level for their historical association with prominent local builders of the 1895-1916 period including William James Pendlebury and James Findlay.

They are of local aesthetic significance as a group, that demonstrates typical characteristics of their periods and styles (Victorian Filigree, Victorian Italianate and Federation Queen Anne) in terms of architectural detailing, elements, form and materials. The houses provide evidence of the construction techniques of their styles and particularly of the typical characteristics of the work of prominent local builders of the period 1895-1916. The houses are representative of their period and styles

Historical Notes or Provenance: Area History
Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Crinan Street was one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case a village in Argyle on Scotland's west coast.

66 Crinan Street occupies Lot 5 of Deposited Plan 3342, an 1895 subdivision by brick maker and building contractor William Pendlebury of land next to his Crinan Street brick pit.

Pendlebury (1857-1921) came to Sydney from Goulburn in 1881 and purchased land for the brick pit, which he worked with his brother Elijah. After the clay was worked out, Pendlebury became Fernhill's most active building contractor, establishing the Crinan Street commercial centre near the new railway station (Methodist 31 December 1921, p.11).

As in many 1800s subdivisions, the Crinan Street lots were deep and narrow - barely 8 metres wide yet 61 metres deep so the houses which William Pendlebury built on Lots 4 and 5, named for his daughters Ethel and Lily, were similarly elongated, typical of suburban housing at this time.

The two properties (now Nos. 66 and 68 Crinan Street) were purchased from Pendlebury by Sylvia Powney of New Canterbury Road, Dulwich Hill, who rented both. (LPI Vol 1217, folio 106, 14 April 1897). In 1909 Mrs. Powney died of strychnine poisoning, determined by the City Coroner to be a suicide due to distress at the ill health of her husband Frank Powney who had been for some time under care at Lewisham Hospital (Australian Star, 28 January 1909, p.7). The court was told that Mrs. Powney owned more than £1000 worth of property. Ethelville and Lilyville were bequeathed to Frank Powney who immediately sold them to

Item Name: **Victorian & Federation period house group**

Location: **66, 68, 70, 72, 76, and 78 Crinan Street, Hurlstone Park**

John William Thompson, a commission agent who owned Lilyville until his death in 1938, residing there from 1919.

Ethelville, number 66 was rented out and John Thompson renamed the house Bombala (Canterbury Council Valuation Books 1926). Its occupant from 1930 was Thompson's dressmaker daughter Minnie. In 1943, after the death of Thompson's widow Mary Ann (Sydney Morning Herald 30 November 1942, p.8), the two houses were bequeathed to Minnie and her sister Rose (LPI Transfers D176505, 176506, 3 February 1943). Thus the houses stayed in the Williams family until the 1960s and 1970s, when a succession of other buyers began.

70 'Lucielle': This allotment was sold by William Pendlebury to Everard Esrom Spratt and Reginald Arthur Spratt in 1912. They were sons of Arthur W. Spratt, who lived next door in 'Lily Ville'. They sold it to James Findlay of Ashfield, builder, on 6/12/1915. He built the house, which has his characteristic style of veranda brackets, in 1915/1916. It was sold on 11/3/1916 to John William Capps of Hurlstone Park, property owner, who lived there for the next two years. In 1918 he sold to Thomas Henry Davis of Hurlstone Park, engineer, who owned it until 1934. NOTE: Everard Esrom Spratt later lived in 18 Vera Avenue, Undercliffe (another listed house), which was built by William Pendlebury.

72 'Ohio': This land was mortgaged by William James Pendlebury of Fernhill, labourer, in 1908, and a house was built on the site. William and his uncle, Elijah Pendlebury, appear as occupants for the first time in Sands' 1909 Directory. The mortgage was discharged in 1911 when the house was sold to Annie Ellen Burgess, wife of Alexander Ernest Burgess of Fernhill, commercial traveller. It was transferred in 1918 to Elizabeth Julia Locke of Croydon, widow, who rented it to various tenants until 1935.

76 'Melrose': The land on which this Federation house was built was transferred from Elijah Pendlebury to Frederick James Lewis of Fernhill, tramway employee, on 6/3/1908. It was immediately mortgaged, presumably to pay for the new house, which was built, probably by William James Pendlebury, in that year. Lewis was shown as occupant in Sands' Directory in 1909. He and his wife mortgaged the property in 1920 - perhaps to finance the updating of the windows to the leadlights that are now in place. The family continued to own the house until 1967.

78 'Harlands': William Pendlebury sold this land to Frederick Robert Rossiter Junior of Canterbury, builder, on 20/2/1895. He mortgaged the property, presumably built the house, and transferred it to Louise Annie Harland Mills, wife of William Mackrell Mills of Sydney, merchant, on 30/5/1895. William Mackrell-Mills (sic) appears as occupant in Sands' Directory 1896. Louise Mills sold the house in 1919.

NOTE: Nos. 72 and 76 Crinan Street were built in an identical style, probably by William James Pendlebury, on land subdivided by his uncle, Elijah. William later became a prominent builder in the area, with houses (among others) in Gower and Dunstaffnage Streets. The roof and windows of no. 72 are likely to be original, whereas the windows of no. 76 were replaced with 1920s leadlight windows.

Designer:

Maker / Builder: William James Pendlebury, James Findlay

Year Started: 1895 Year Completed: 1916 Circa: Yes

Physical Description: A group of late Victorian and Federation period houses with typical characteristics of their style and period as well as key elements that were signatures of their builders. Their common features are hipped or gabled roofs with terracotta tile or slate roofing, prominent projecting gable bays, front verandahs supported on timber posts.

No. 66 - Victorian Filigree style freestanding single storey house, narrow fronted, with rendered brick walls, hipped terracotta tiled roof, bullnose corrugated iron roofed front verandah with timber posts and decorative cast iron frieze and brackets. No chimneys (roof cladding replaced with loss of chimneys). Low brick front fence (circa 1920s).

No. 68 - Victorian Filigree style freestanding single storey house, narrow fronted, with rendered brick walls, hipped concrete tiled roof, two rendered brick chimneys, bullnose corrugated iron roofed front verandah with cast iron posts and decorative cast iron frieze and brackets. Three front windows with decorative stucco work and tiling to surrounds. Low brick front fence (circa 1920s). Carport in front garden.

No. 70 - Federation Queen Anne freestanding narrow fronted single storey house with two gable ends facing the street, face brickwork walls, tall rendered brick chimneys to hipped and gabled slate roof. The front verandah features a brick balustrade and decorative timber fretwork. Main front gable end features a "sunrise" pattern in imitation half-timbering, with the secondary gable end over the verandah entry featuring timber shingling. Front windows are timber-framed casements featuring decorative coloured glass panes. The front fence is face brickwork. The house is very original externally, including the slate roofing and chimneys.

No.72 - Federation Queen Anne style freestanding double-fronted single storey house with a hipped and gabled slate roof, face brickwork walls, tall rendered brick chimneys, and a bullnosed corrugated iron roof over the front verandah. The front verandah features turned timber posts and a decorative timber fretwork frieze. An awning on decorative timber brackets over timber-framed double-hung windows are features to the front wall below the front gable end. In original form including slate roofing with terracotta finials and ridge cappings. Wire mesh front fence with hedge behind.

No. 76 - Federation Queen Anne style freestanding double-fronted single storey house with a hipped and gabled terracotta tiled roof, face brickwork walls, tall rendered brick chimneys, and a skillion terracotta tile roofed front verandah. The front verandah features a brick balustrade, turned timber posts and a decorative timber fretwork frieze. An awning on

Item Name: Victorian & Federation period house group

Location: 66, 68,70,72,76, and 78 Crinan Street, Hurlstone Park

decorative timber brackets over timber-framed double-hung windows is a feature to the front wall below the front gable end. The front fence is a modern powder-coated aluminium fence. No. 78 – Victorian Italianate style freestanding double-fronted single storey house with a hipped and gabled terracotta tiled roof, rendered brick walls, tall rendered brick chimneys, and a skillion terracotta tile front verandah roof. The front verandah features timber posts. The front elevation below the front gable end features a bay window with three arched windows with decorative stucco surrounds, beneath a hipped terracotta tiled roof. The front fence is a 1920s brick and pipe rail fence.

Note there is a late 20th century brick hipped roofed single storey house at No. 74 Crinan Street, which is not part of the group.

Physical Condition: Generally good.

Modification Dates: No. 66 - roof reclad with terracotta tiles and resulting loss of chimneys, aluminium framed window to front elevation. Carport in front garden.
No. 68 - roof reclad with concrete tiles, Carport in front garden.
No. 76 - main roof reclad in terracotta tiles with resulting loss of early finials and ridge cappings. The front verandah roof has also been reclad with terracotta tiles, changing the verandah roof to a skillion from original bullnose corrugated iron verandah roof form. Front fence is modern. The front windows of no. 76 were replaced with 1920s leadlight windows.
No. 78 - garage added to side of the house, set back behind the front bay window. Roof including front verandah has been reclad in terracotta tiles (likely originally a slate roof with a bullnose corrugated iron front verandah roof), with resultant loss of detail to both main roof and verandah. Brick and pipe rail front fence is 1920s.

Recommended Management:

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing narrow lot subdivision pattern should remain unaltered.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Item Name: Victorian & Federation period house group

Location: 66, 68,70,72,76, and 78 Crinan Street, Hurlstone Park

- Criteria a)** The Crinan Street house group is of local historical significance as a group of houses constructed 1895-1916 on an 1895 subdivision by brickmaker and building contractor William Pendlebury on land adjacent to Pendlebury's Crinan Street brickpit. This group provides evidence of the developmental history of the area when the railway to Belmore was built through Fernhill (now Hurlstone Park) in 1895.
- Criteria b)** The group of houses are significant at a local level for their historical association with prominent local builders of the 1895-1916 period including William James Pendlebury and James Findlay.
- Criteria c)** The group of houses are of local aesthetic significance as a group which demonstrates typical characteristics of their periods and styles (Victorian Filigree, Victorian Italianate and Federation Queen Anne) in terms of architectural detailing, elements, form and materials. The houses provide evidence of the construction techniques of their styles and particularly of the typical characteristics of the work of prominent local builders of the period 1895-1916.
- Criteria d)** Not relevant.
- Criteria e)** Not relevant
- Criteria f)** Not relevant
- Criteria g)** The houses are representative examples of late Victorian and Federation period housing styles that were speculatively built in the Hurlstone Park area.

Integrity / Intactness: Generally intact.

Statement of Significance: This house, constructed in 1912-1913, is of local historical significance as it illustrates the early development of the 1910 Jeffreys Estate No.5 subdivision. The house is of local aesthetic significance as a fine example of a Federation Queen Anne style house with late Federation features (particularly timberwork detail to the front verandah, brick strapwork and roughcast stucco to chimneys). The house is a fine representative example of the Federation Queen Anne style in Hurlstone Park and the property is particularly distinctive for a high level of integrity of period detail, including the original front fence.

Historical Notes or Provenance: Area History
Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia – who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

The land was part of the Jeffrey's Estate no.5, subdivided in August 1910. It was sold on 18/11/1911 to Albert Ernest West of Newtown, a carpenter. He occupied his new house some time in 1914. It was sold in January 1918 to James Edward Macintosh of Balmain, a wool classer, and the family retained it until 1958.

By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Crinan Street was one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case a village in Argyle on Scotland's west coast.

101 Crinan Street occupies Lot 9 of Deposited Plan 3383, an 1897 subdivision by Benjamin James Bennett of land he had purchased in 1883 from Sophia Campbell's subdivision. A dairyman, Bennett had run cattle on the land between Melford and Dunstaffenage streets before subdividing the Crinan Street frontage into ten building allotments.

Lot 9 was purchased in 1897 by Ernest Peter Mollet and his wife Elizabeth. A salesman formerly resident in Glebe, Ernest Mollet is listed in Sands from 1900 (meaning a likely 1899 construction date for the house), one of the first residents of this stretch of Crinan Street. His timber house was not unusual: in 1911 about 30 per cent of Sydney dwellings were clad with timber, a result partly of advances in mill technology which greatly reduced the cost of wall boards, mouldings, frames and all timber construction elements (Australia Census 1911, p.1965). Although the Hurlstone Park subdivisions' covenant "that all new dwellings must be valued at at least £250 (\$500)" was no doubt intended to encourage brick construction, it did not ban timber dwellings as did some subdivision covenants.

The Mollets named their house Guernsey, presumably after the Channel Island, before they moved to a more salubrious dwelling in Duntroon Street, Hurlstone Park in 1919. The house name does not seem to have survived the ownership of Claude Arthur Primrose, a Sydney accountant, the first of three swift changes of ownership. The other owners at this time were

storeman Robert Linke and wife Violet, followed by labourer Richard Cramp of Petersham (LPI Transfers A464654, A960104 and B106171)

Wilfred Tarver, a Marrickville baker, purchased the house in 1926, residing there until 1940 and the property continued to provide worker's housing with sheet metal worker Aubrey Francis Histon and wife Mary owners from 1940 to 1975 (LPI Transfers B425979, C897911).

Physical Description: The site, which reflects the original 1897 subdivision pattern, runs through from Crinan Street at the front (south-west) to Wallace Lane at the rear (to the north-east). The house is built to address Crinan Street.

The house is a single storey freestanding weatherboard house with a hipped corrugated iron roof and separate skillion corrugated iron front verandah roof. In form, it is a vernacular Victorian Georgian style cottage, symmetrical with central timber paneled front door and fanlight, flanked by pairs of timber-framed double hung windows. The house reflects Federation period details in the multicoloured panes of glass to the top sashes of the front windows.

A central path leads to the front verandah and front door. There is a modern low brick front fence.

Physical Condition: Fair

Modification Dates: Circa 1970's low brick front fence. Sides of the front verandah have been clad with fibre-cement panels, and two thin metal posts (circa 1950s) have been added to the front verandah. The verandah also lacks a frieze. There are now no chimneys to the roof (though chimneys appear on the 1943 aerial photo of the house), meaning that the roof has been reclad since 1943 with resulting loss of chimneys. The skillion front verandah roof is also likely a replacement of a more elaborate original front verandah roof (either bullnose profile or concave curved).

Recommended Management:

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

Item Name: **Weatherboard house**

Location: **101 Crinan Street, Hurlstone Park**

The existing lot should not be subdivided.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Replacement of the front fence with a fence more in keeping with the style of the house.

Statement of Significance: The house "Karoola" is of local historical significance as a house constructed in 1916 on the 1915 Woodside Estate subdivision, illustrating the early development of the subdivision. The house has local historical association with Commonwealth customs officers - George Leslie Symons the initial owner of the house from 1916-1919 and Henry Frederick Morris, also a customs officer and owner of the house 1919-1925, who later became a senior officer of the Department of Trade and Customs, and a member of the Tariff Board. The house is of local aesthetic significance as a fine representative example of a Federation Queen Anne style house illustrating features of the later (1910s) period of the style including asymmetrical form, front verandah roof incorporated into the main roof via a change in slope, stuccoed chimneys and gable ends, decorative timber fretwork to the front verandah and front awning brackets, and timber framed casement windows and fanlights featuring coloured glass panes. The house is a very good representative example of early residential development in the suburb.

Historical Notes or Provenance: Area History
Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side.

Item Name: **Karoola - Federation Queen Anne style house**

Location: **27 Duntroon Street, Hurlstone Park**

After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22). Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Duntroon Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case Duntroon Castle on the north side of Loch Crinan across from the village of Crinan in Argyll, West Scotland.

27 Duntroon Street occupies Lot 1 of Deposited Plan 7126, a 1915 subdivision of land purchased in 1895 from John and Arthur Jeffreys, heirs to Sophia Campbell's estate, by Annie Elizabeth Firth, wife of George Septimus Firth, civil engineer (LPI Vol.1169 Folio 231, 23 August 1895). The Firths married in Sydney in 1888 before George Firth's engineering work on new railway projects took them to Queensland and elsewhere.

In 1915 Firth was engineer of the NSW North Coast Railway (Daily Examiner, Grafton, 22 September 1915, p.4) when the Woodside subdivision was offered for sale, consisting of 15 building lots, five fronting Duntroon Street and the remainder on the new Woodside Street running west.

The following year Lot 1 was purchased by George Leslie Symons of Dulwich Hill, a customs officer whose steady career progress through the Customs Service and the Post Master Generals Department can be traced through the Commonwealth Gazette (for example 20 April 1912). Symons' residence Karoola appears in Sands from 1917, named perhaps for a small town in Tasmania or more likely for the first Australian hospital ship, then serving in the Great War (LPI Vol.2663 Folio 40 4 May 1916). Symons sold the house in 1919 to fellow customs officer Henry Frederick Morris and wife Jessica Teresa, who renamed the house

Item Name: Karoola - Federation Queen Anne style house

Location: 27 Duntroon Street, Hurlstone Park

Shirley (LPI Transfer A494737). Morris would go on to become a senior officer of the Department of Trade and Customs and a member of the Tariff Board. He was gone from Hurlstone Park in 1925 (Canberra Times, 6 May 1935 p.2).

Number 27 was then sold to retired butcher Horace Percy Hill of Marrickville who resided there until his death in 1943 after which the property was bequeathed to Hill's nephew Earlwood clerk Sidney Charles Mudge (LPI Transfers B278143, D301713, 'Legal Notices', Sydney Morning Herald, 10 March 1943, p.2).

Physical Description: The house is a freestanding single storey Federation Queen Anne style house with face brick walls and a hipped and gabled slate clad roof with terracotta finials and ridge capping, extending over the front verandah. The roof features three tall roughcast stuccoed chimneys with terracotta chimney pots. The rough cast stuccoed front gable end features decorative detail. The front verandah retains decorative timber posts and brackets. The front windows are timber-framed casements with small coloured glass panes at the bottom of each sash, and coloured glass fanlights. The front window below the front gable end features a slate clad awning on decorative timber brackets. The front fence is a sympathetic timber picket fence. There is a garage set back behind the verandah to one side of the house.

Physical Condition: Good

Modification Dates: Side garage, modern timber picket front fence on original brick base course, and fabric awnings to front verandah are recent alterations.

Recommended Management: APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY: (note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)
The existing lot should not be subdivided.
The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Item Name: Karoola - Federation Queen Anne style house

Location: 27 Duntroon Street, Hurlstone Park

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Further Comments:

- Criteria a)** The house "Karoola" is of local historical significance as a house constructed in 1916 on the 1915 Woodside Estate subdivision, illustrating the early development of the subdivision. The house is a fine example of the early residential development of the suburb.
- Criteria b)** The house has local historical association with Commonwealth customs officers - George Leslie Symons the initial owner of the house from 1916-1919 and Henry Frederick Morris, also a customs officer and owner of the house 1919-1925, who later became a senior officer of the Department of Trade and Customs and a member of the Tariff Board.
- Criteria c)** The house is of local aesthetic significance as a fine representative example of a Federation Queen Anne style house illustrating features of the later (1910s) period of the style including asymmetrical form, front verandah roof incorporated into the main roof via a change in slope, stuccoed chimneys and gable ends, decorative timber fretwork to the front verandah and front awning brackets, and timber framed casement windows and fan lights featuring coloured glass panes.
- Criteria d)** Not relevant
- Criteria e)** Not relevant
- Criteria f)** The house is remarkably intact as viewed from the street, including original brickwork, slate roofing with terracotta ridge capping and finials, original chimneys and original timber framed casement windows.
- Criteria g)** The house is a fine representative example of the 1910s form of the Federation Queen Anne style and a fine representative example of early residential development in the suburb.

Integrity / Intactness: The house is remarkably intact as viewed from the street, including original brickwork, slate roofing with terracotta ridge capping and finials, original chimneys and original timber framed casement windows.

Current Use: Residences

Former Uses: Residences

Assessed Significance: **Local**

Endorsed Significance:

Statement of Significance: The semi-detached pair of residences are of local historical significance as evidence of the development after 1914 of the "Hurlstone Park No.2" subdivision, which had a building covenant specifying "brick or stone construction to a minimum value of 350 pounds". The houses were built in 1915 and both rented out until 1921, when the original owner moved into No. 39, demonstrating speculative development of the subdivision. Again illustrating historical features of speculative ownership, the houses did not gain separate titles until 2004.

The residences are fine representative examples of Federation Queen Anne style semi-detached development designed for a corner location with features including asymmetrical design (with entries from different streets due to the corner location), a slate roof incorporating verandah roofs, face brick walls, roughcast stuccoed chimneys and gable ends, timber posts and fretwork to verandahs and timber framed casement windows with fanlights.

Item Name: **Federation Queen Anne style semi-detached hous**

Location: **37-39 Duntroon Street, Hurlstone Park**

The pair of residences are a fine early representative example of residential development in the suburb.

By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Duntroon Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case Duntroon Castle on the north side of Loch Crinan across from the village of Crinan in Argyll, West Scotland.

37-39 Duntroon Street occupies what was Lot 13 of Deposited Plan 7566, a 1914 subdivision of land purchased in 1881 by dairy farmer John Sullivan. This land ran west from Duntroon Street to the creek between Duntroon and Dunstaffnage streets. Following Sullivan's death in 1910 his dairy farm was subdivided into 32 building lots as well as forming Barton and Wallace Avenues running west from Duntroon Street. Lot 13 faces Duntroon Street on the southern corner of Barton Avenue.

The building covenant for the 'Hurlstone Park No.2' subdivision specified brick or stone construction to a minimum value of £350, consistent with the rising aspirations of the suburb.

Item Name: **Federation Queen Anne style semi-detached hous**

Location: **37-39 Duntroon Street, Hurlstone Park**

Lot 13 was purchased in 1915 by Hephzibah (Effie) Boyd, wife of William Ingram Armstrong Boyd, who had been since 1903 a clerk at the NSW Department of Education (LPI Vol.2598 Folio 189, 19 August 1915; Government Gazette 4 December 1903, p.8982). Number 37 appears in Sands from 1917, although in September 1916 the first tenants of Foxton – the new house's name – was reporting the arrival of a baby son there ('Births', Sydney Morning Herald, 9 September 1916, p.16).

Meanwhile the Boyds remained at Allan Avenue, Belmore, moving to 39 Duntroon Street in 1921. By this time Mrs. Boyd had a public profile from her charitable and social work for the Methodist Church. In 1924 the Boyds moved to Manly, a 'great loss' to the Belmore Methodist Church (The Methodist, 8 November 1924 p.11).

Built on a generous sized block, almost 15 metres wide and 36 metres deep, the house was divided into two residences, number 37 using the side entrance facing Barton Avenue, while 39 used the main entrance to Duntroon Street. During the Boyds' brief stay at 39, 37 was rented by Nurse Annie Daniels, who had been resident since 1919. No. 39's name Foxton is that of several towns in England and New Zealand. 37 Duntroon Street was named Benga for some time. Hephzibah Boyd died in 1957 and the house was bequeathed to her only child, Effie Muriel Osborne (LPI Transfer H163280).

Numbers 39 and 37 did not gain separate titles until they were sold separately in 2004, in contrast to the neighbouring Lot 12 built and sold in 1914 as separate lots - now numbers 41 and 43 - divided by a party wall.

Duntroon Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case Duntroon Castle on the north side of Loch Crinan across from the village of Crinan in Argyll, West Scotland.

This site on the corner of Duntroon and Hampden Street was originally Lot 19 of the 1895 "Fernhill Railway Station Estate" advertised for auction on 21 September 1895.

The land, on which no. 90 is located, was sold by Ebenezer Vickery, Jr. to Margaret Keir, wife of John Keir of Canterbury, plumber, on 1/6/1899. From Sands' Directory, it appears that the house "Glenairlie" or "Gwen Villa": was built in 1897, before the land sale was registered, as John Keir is listed as a resident of the eastern side of Duntroon Street (one of only three residents on the eastern side of Duntroon Street listed that year). It was transferred in 1912 to Ina Maude Martin, widow, and an 18 foot strip from the rear of the lot was sold to enlarge Lot 34 DP3268 which faces Hampden Street.

Statement of Significance: 92 Duntroon Street is of local historical significance as a house constructed in 1900-1901 on the 1895 Fernhill Railway Station Estate subdivision illustrating the early development of the subdivision and suburb.

The house is of local aesthetic significance as a late (1900-1901) representative example of the Victorian Italianate style exemplified by its stuccoed walls and front bay window with traditional double-hung windows and stucco decoration, however the house also has a few Federation period touches such as the slate roof extending down over the front verandah, and the terracotta ridge capping and finials to the roof. The house represents an interesting transition between Victorian and Federation period architectural styles. The house style also appears to relate to the earlier house adjacent at 90 Duntroon Street.

The house is a relatively rare example of the Victorian Italianate style in the Hurlstone Park area.

The house is a good representative example of the Victorian Italianate style with some transitional Federation period features and a representative example of early housing in the suburb.

Historical Notes Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed

Item Name: **Victorian Italianate style house**

Location: **92 Duntroon Street, Hurlstone Park**

by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Duntroon Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case Duntroon Castle on the north side of Loch Crinan across from the village of Crinan in Argyll, West Scotland.

This site was originally (and remains) Lot 20 of the 1895 "Fernhill Railway Station Estate" advertised for auction on 21 September 1895.

Jane Auld of Pyrmont, widow, bought the property on 24/8/1900. She immediately mortgaged it to the Equitable Permanent Building Land and Savings Institution, apparently to finance the building of a house "Broomhill". John Auld was in occupation by the end of 1901. It remained in the possession of the family until 1954.

Item Name: **Victorian Italianate style house**

Location: **92 Duntroon Street, Hurlstone Park**

Designer:

Maker / Builder:

Year Started: 1900 Year Completed: 1901 Circa: No

Physical Description: The property at 92 Duntroon Street retains its early subdivision dimensions. The house is a single storey freestanding Victorian Italianate style house with a hipped and gabled slate clad roof, stuccoed brick façade featuring a front verandah (now enclosed) and a bay window with separate hipped roof and elaborate stucco decoration. The slate roof features terracotta ridge capping and finials and tall stuccoed brick chimneys. Windows to the bay window are timber-framed double-hung. While essentially Victorian Italianate in style, the house does include Federation period details such as the main slate roof extending down to cover the front verandah (rather than the front verandah having a separate roof typical in the Victorian period).

Physical Condition: Fair

Modification Dates: The front verandah has been enclosed with a painted brick balustrade with timber framed windows above. The low brick front fence is also a later addition to the site.

Recommended Management: APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY: (note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)
The existing lot should not be subdivided.
The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.
Any future development should preserve the existing form and external surfaces and materials of the significant façades.
The exterior finishes should be retained, including face brickwork.
Repainting of exterior painted surfaces should be undertaken in appropriate colours.
Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) The house is of local historical significance as a house constructed 1900-1901 on the 1895 Fernhill Railway Station Estate subdivision, which illustrates the early development of the subdivision and of housing in the suburb.

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Duntroon Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case Duntroon Castle on the north side of Loch Crinan across from the village of Crinan in Argyll, West Scotland.

128 Duntroon Street occupies Lot 1, Section 1 of Deposited Plan 3849. This 1901 subdivision was the first offered as part of the Jeffrey's Estate. The subdivision comprised 92 building lots south of the railway line, bounded by Fernhill, Kilbride (later Burnett), Starkey and Commons streets. Lot 1, Section 1 was one of a small number of lots between Commons Street and the railway line.

In 1906 the property was purchased by Frederick William Henry Sherring, a Marrickville dairyman (LPI Vol.1742 Folio 6, 11 December 1906). In partnership with Francis Tutton, Sherring ran a milk cart from a dairy at Wardell Road, Marrickville, although he dissolved this partnership in 1906 and moved his cows and horses to the new property (NSW Government Gazette, 17 October 1906, p.5775).

Sherring and his dairy are listed in Sands from 1907 although his dairy career suffered a brief setback in 1910 when he was charged with refusing to give a milk sample to a health inspector while selling milk in Petersham; Sherring escaped conviction on a technicality (Evening News, 11 October 1910, p.10). At this time Sherring was one of hundreds of suburban dairy keepers listed in Sands, large dairy cooperatives were yet to dominate the industry and working animals were an everyday part of suburbia, with dairy cattle driven daily to and from their grazing land. At 740 square metres Lot 1 is substantially larger than its neighbours, sufficiently spacious for this backyard enterprise.

From 1911 the dairy is listed under the name of David Scrimgeour, a young dairyman who

Item Name: Former dairyman's house, Federation Queen Anne

Location: 128 Duntroon Street, Hurlstone Park

quickly advertised for help: 'SMART MAN wanted, milk and deliver, good wages, good man, APPLY (fare paid) SCRIMGEOUR, Duntroon St. Fernhill' (Sydney Morning Herald, 5 July 1911, p.21). Scrimgeour would go on to establish a thriving milk business at Bondi (Hebrew Standard, 1 November 1929, p.10).

In 1914 Frederick Sherring advertised the house for rent: 'NEW COTTAGE, 3 rms, kitchen, one min strn. Rent 18s 6d. F Sherring, Duntroon st Hurlstone Park' (Sydney Morning Herald, 12 May 1914, p.13). During 1915 the property was sold to Marrickville estate agent Frederick Bennett whose occupation until 1919 spelled the end of dairying activity there (LPI Transfer A201044). During this period 128 Duntroon Street was again sold, this time to Lizzie Louisa Northwood, who was resident there by 1920 (LPI Transfer A347416).

Lizzie Northwood worked for the Postmaster General's Department. In 1900 she had been promoted to 'switch-attendant, head office' with her salary increasing from £39 to £52 while further promotions were documented in later years until she became a supervisor in 1940 (Evening News, 15 January 1900, p.8; Commonwealth Gazette, 4 April 1940, p.762). During her ownership the house gained the name Orville, that of several towns and villages in France as well as a popular first name in the USA. She added a brick garage constructed in 1934 (Construction and Real Estate Journal, 11 July 1934, p.2).

In 1951 the property was sold to Elsie Kathleen Reynolds, who worked for Anthony Horderns department store and had gained a moment of media fame for winning the State Lottery during 1950 (Sun, 7 December 1950, p.15).

Current Use: Public Reserve

Former Uses: Public Reserve

Assessed Significance: **Local**

Endorsed Significance:

Statement of Significance: Euston Reserve is of local historical significance as a park donated by a private property owner in 1910-1911.
Euston Reserve has strong local historical association with Vincent Campbell Sharp, a local identity (owner of the adjoining house "Euston" 67 Floss Street), who generously donated the land for public recreation.
The War Memorial (moved to the park in 1947) has historical associations with local groups who lobbied for the erection of a monument to numerous local individuals who enlisted for active service. It also has strong associations with the families and friends of those local servicemen and women who served in World War I.
Euston Reserve has local aesthetic significance for its mature Ficus plantings and for its central war memorial, as well as for its aesthetic contribution to the locality as an open space

Item Name: **Euston Reserve - Federation urban park**

Location: **2C-2D Euston Road, Hurlstone Park**

that contributes to the aesthetic of the streetscapes of Euston Road and Floss Street, and the setting of the adjacent house, the heritage item "Euston" (67 Floss Street). Euston Reserve has local social significance for the World War I war memorial, relocated to the park in 1947, due to the significance of the war memorial in Anzac Day ceremonies and other events commemorating World War I to the descendants of the World War I veterans whose names are inscribed on the memorial, and to ex-serviceman's organisations. Euston Reserve is historically rare as a public open space privately donated for public use in the early 20th century.

Historical Notes

Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>) The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance. Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys - English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Euston Reserve History

The land which includes Euston Reserve was subdivided in August 1910 as Jeffrey's Estate. Allotment 57 in the subdivision was left as a public reserve on the subdivision plan. Lots 53-56 and the reserve, named Euston Square were transferred to Vincent Campbell Sharp, gentleman of Fernhill. In October 1911, Sharp dedicated Euston Square as public land and the April 1912 Metropolitan Water Sewerage and Drainage Board's Detail Survey shows the land as a Public Reserve. Sharp lived for a time in the large Federation house 'Euston'

Item Name: Euston Reserve - Federation urban park

Location: 2C-2D Euston Road, Hurlstone Park

adjacent to the reserve's western boundary. It is believed in about 1947 the war memorial was re-located from a site near Hurlstone Park Railway Station to Euston Square. No documented proof of the reason for re-locating the memorial has yet been found, however, residents in the area believe it was the result of problems drivers were experiencing while manipulating vehicles around the memorial. Eventually Euston Square was incorporated into a park constructed in 1972 when Euston Square was closed and Euston Road was closed off at Dunstaffenage Street. The park was called Euston Park and the memorial became known as the Euston (Park War) Memorial. An undated plan (ref P13/1) shows Euston Reserve as a triangular area bounded on the north by Euston Road, on the west by Euston Square, on the south by Floss Street and with its apex adjoining Dunstaffenage Street. The reserve was bounded by concrete footpaths and had stone bordered garden plots at each corner. Concrete seats were located under each of four trees.

A plan dated 31 May 1972 (File No. 67/3362) shows the proposed layout of the closure of Euston Square and its incorporation into Euston Reserve. In response to requests from the Canterbury Hurlstone Park RSL Club that the area surrounding the war memorial be upgraded, Council had their landscape architect prepare a Landscape Sketch Plan (Drawing L371, Issue C, dated 18 August 1999 (File E-42-1). Council's city services committee resolved on 30 September 1999 that the project (estimated cost \$38,000) be referred to the draft 2000/01 budget. In February 2000 Council's landscape architect finalised plans for the upgrading of the area around the memorial including regrading, paving, seating and creation of a north - south axial pathway.

Physical Description: A triangular shaped park at the junction of Floss Street and Dunstaffenage Street including the closed-off eastern end of Euston Road. Overlooked by Federation and Interwar housing, the reserve is mostly grassed and features a central area containing the grey granite war

Item Name: **Euston Reserve - Federation urban park**

Location: **2C-2D Euston Road, Hurlstone Park**

memorial, set amidst three mature *Ficus microcarpa* var *hillii* (Hill's Weeping Fig) with a hexagonal area of brick paving around the memorial and mulched areas under the trees. The stepped plinth and pedestal of the memorial provide suitable places for the laying of wreaths. Hard landscaping includes low stonewalls, posts and edging. Soft landscaping includes shade-loving ornamentals such as *Asplenium australasicum* (Bird's Nest Fern), *Philodendron* 'Xanadu', *Nandina domestica* 'Nana' (Dwarf Bamboo), *Ophiopogon japonicus* (Mondo Grass) and *Impatiens* cultivars (Busylizzie). The area around the memorial has teak bench seats facing the monument that have been installed recently. At the western end of the park there is grassed mound with park benches. A large Federation period house adjoins the site to the west at Lot 2, DP1044798. The eastern end of the park has a playground area with slippery dip, swing and see saw. Along the Floss Street boundary the park is edged with sandstone blocks. At the apex of the park there is a golden cypress tree that is encircled in a stone edged planter that has the typical detail found in many of Canterbury's parks of this period. There is a modern electricity substation at the eastern end of the park, east of the playground area (the substation is on Lot 1, DP611627).

The end of Euston Street adjoining the reserve is a closed road that has been landscaped with low-grassed mounds and plantings of eucalyptus trees. There is an electrical substation at the eastern end of the park that is visually intrusive. The war memorial, originally relocated here in 1947, is now located in the centre of the park. The war memorial, constructed of grey granite, is in the form of a doric column surmounted by a ball finial, placed on a polygonal base inscribed in gold on one side with the words "The Great War 1914-1919. This memorial is erected by the residents in honor of those who enlisted for active service from Hurlstone Park." and inscribed in gold on two other sides with the names of those who served in the war from the Hurlstone Park area. The memorial also features a foundation plaque and another recent plaque.

There have been some recent modifications to the park including modern light poles and signage, park benches near the war memorial, and a small children's play area located in the narrow triangular area at the eastern end of the park. The park was relandscaped in 1999.

Physical Condition: Good and well maintained.

Modification Dates: 1940s - The 1943 aerial photo of the park shows a road at the western end connecting Floss Street to Euston Road - this road was later incorporated into the park. The park is shown in 1943 as largely grassed, without its central war memorial (moved to the park in 19947) and with a sparse scattering of shrubs and tree plantings. Three of the small trees shown in 1943 may be the now mature *Ficus* trees within the park.

1972 - Euston Square (a street which linked Euston Road and Floss Street) was closed and incorporated into the park, and Euston Road was also closed off at the eastern end at the same time.

1999 - The park was relandscaped to a design by the Council's Landscape Architect.

Recommended Management: Note: This is a Council owned and managed park. A Conservation Management Strategy (prepared by Chris Betteridge and David Beaver) has been prepared for the park and should

Item Name: **Euston Reserve - Federation urban park**

Location: **2C-2D Euston Road, Hurlstone Park**

guide future planning and work.

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The significant elements of the park - which are the war memorial and the Ficus trees - should be retained and maintained. Maintain the open space character and landscaping of the reserve. Undertake future works within the context of the heritage values and elements of the park.

Management: Statutory Instrument List on a Local Environmental Plan (LEP)

Further Comments:

- Criteria a)** Euston Reserve is of local historical significance as a park donated by a private property owner in 1910-1911. The park is also of local historical significance for the World War I war memorial, erected in 1920 and relocated to the park in 1947, which commemorates Hurlstone Park residents who served in World War I.
- Criteria b)** Euston Reserve has strong local historical association with Vincent Campbell Sharp, a local identity (owner of the house "Euston" 67 Floss Street), who generously donated the land for public recreation. The War Memorial (moved to the park in 1947) has historical associations with local groups who lobbied for the erection of a monument to numerous local individuals who enlisted for active service. It also has strong associations with the families and friends of those local servicemen and women who served in World War I.
- Criteria c)** Euston Reserve has local aesthetic significance for its mature Ficus plantings and for its central war memorial, as well as for its aesthetic contribution to the locality as an open space area which contributes to the aesthetics of the streetscapes of Euston Road and Floss Street, and the setting of the adjacent house, the heritage item "Euston". (67 Floss Street).
- Criteria d)** Euston Reserve has local social significance for the World War I war memorial, relocated to the park in 1947, due to the significance of the war memorial in Anzac Day ceremonies and other events commemorating World War I to the descendants of the World War I veterans whose names are inscribed on the memorial, and to ex-servicemen's organisations.
- Criteria e)** Not relevant
- Criteria f)** Euston Reserve is historically rare as a public open space privately donated for public use in the early 20th century.
- Criteria g)** Not relevant

Assessed Significance: **Local**

Endorsed Significance:

Statement of Significance: 29 Fernhill Street is of local historical significance as a house built in 1911 on the 1906 third subdivision of the Jeffreys Estate, illustrating the early development of the estate. It has local historical association with prominent local builder William Pendlebury, co-owner of a local brickworks, for whom the house was built in 1911 (William Pendlebury was in occupation by 1912), though the builder of the house may have been his son William James Pendlebury, also a building contractor. William Pendlebury was responsible for the development of the Crinan Street commercial centre near the Hurlstone Park railway station and for building a number of houses in Crinan Street. Pendlebury occupied the house from 1912 until his death in 1921.

The house is of local aesthetic significance as a fine representative example of the Federation Queen Anne style on a prominent corner site, with many features of the style including hipped and gabled slate roof changing pitch to cover the return verandah, return verandah on tapered timber posts surmounted on brick pediments, casement windows

Item Name: **Federation Queen Anne style house**

Location: **29 Fernhill Street, Hurlstone Park**

incorporating coloured glazing, polychrome brickwork, slate roofed window awnings with decorative timber frames.

The house is a fine representative example of the work of a prominent local builder in the Federation Queen Anne style.

The house has representative value as a fine example of early housing within the suburb.

Historical Notes

Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>) The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance. Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys - English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Fernhill Street retains the first name for Hurlstone Park as it became a locality distinct from Canterbury during the 1890s. Fernhill was Sophia Campbell's home in Hampshire following her return to England. In 1893 the Fernhill Estate subdivided the land used earlier by Anthony Blamire's brick works and established Fernhill Street running north from Crinan Street.

29 Fernhill Street occupies Lot 35 of Deposited Plan 4767, the third subdivision of the Jeffreys Estate comprising most of Hurlstone Park. This 1906 subdivision added 24 building lots north of Barre Street between Fernhill and Dunstaffenage streets.

Lot 35 on the north east corner of Fernhill and Barre streets was purchased in 1910 by

Item Name: **Federation Queen Anne style house**

Location: **29 Fernhill Street, Hurlstone Park**

William Pendlebury (1857-1921) who came to Sydney from Goulburn in 1881 and purchased land for the brick pit, which he worked with his brother Elijah. After the clay was worked out Pendlebury became Fernhill's most active building contractor, establishing the Crinan Street commercial centre near the new railway station (Methodist 31 December 1921, p.11; LPI Vol. 2041 Folio 165, 9 March 1910).

Pendlebury had built several houses nearby in Crinan Street and resided there until he was listed in Sands at Fernhill Street in 1912. The Fernhill Street residence may have inspired the following ad: 'PLASTERER'S LABOURER wanted. Pendlebury's job. Fernhill Street. Fernhill' although the builder could well have been Pendlebury's son William James who followed him into the building trade (Sydney Morning Herald, 8 June 1910, p.17). Pendlebury senior remained at the new house until his death in 1921 when it passed to his widow Ellen (LPI Transfer A844876).

During 1923 Ellen Pendlebury sold the house to Francis Langford Richard Stevenson of Ashfield (LPI Transfer A987674). Stevenson was a City Missionary with the Sydney City Mission, established in 1862 as an evangelical outreach to Sydney's poor. However sustained contact with the poverty endemic in Sydney's inner suburbs saw the Mission increasingly active on social welfare, unemployment and housing, the main focus of today's Mission Australia. FLR Stevenson was Missionary to Surry Hills, then to Alexandria and was vocal on the consequences of poverty in those areas: 'the distress in this district...is heart-rending. I have had children in asking for food, who have not had anything to eat for three days' (Sun, 18 December 1930, p.15).

FLR Stevenson also purchased the rear part of the neighbouring Lot 34 (27 Fernhill Street) and had Lot 35 divided to create a new lot facing south, now 1 Barre Street, which he sold to builder George Albert Thorby (LPI Vol.3599 Folios 131, 132, 6 June 1924). No 29, named Hurlstone during the 1920s, passed to FLR Stevenson's widow Cordelia Beatrice in 1952, remaining in the Stevenson family until the 1970s (LPI Transfer F704295).

Physical Description: A single storey freestanding Federation Queen Anne style house on a corner site with a hipped and gabled slate-clad roof with decorative terracotta ridge capping and finials, and rendered brick and rough cast stuccoed chimneys. The roof form features a gable end facing each street frontage. The house is built of polychrome brickwork, with a band of red

Item Name: **Federation Queen Anne style house**

Location: **29 Fernhill Street, Hurlstone Park**

brickwork at windowsill level, and the use of dark brown brickwork at corners in imitation of quoining. The house features a return verandah on tapered timber posts mounted on tapered brick pediments, with three posts at the corner. The verandah roof is a continuation of the main slate roof with a change of pitch (indicative of the Federation Queen Anne style). Windows to the street elevations are timber-framed casements with sidelights and arched fanlights featuring coloured glass to fanlights, and in square panes to main casement windows, with each window opening featuring elaborate stuccoed sills. Windows below the street-facing gable ends are shaded by slate clad awnings on decorative timber frames. The edges of the verandah roof feature exposed timber rafter ends. The front fence to both street frontages is an early brick fence with shaped brickwork capping to both infill sections and posts.

Management:**

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:

(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing lot should not be subdivided.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) 29 Fernhill Street is of local historical significance as a house built in 1911 on the 1906 third subdivision of the Jeffreys Estate, which illustrates the early development of the estate. The house has historical significance as a fine early house in the area demonstrating the quality of development of the suburb.

Criteria b) The house has local historical association with prominent local builder William Pendlebury, co-owner of a local brickworks, for whom the house was built in 1911 (William Pendlebury was in occupation by 1912), though the builder of the house may have been his son William James Pendlebury, also a building contractor. roof form with chimneys and terracotta finials and ridge capping, tessellated tiling to verandah floor.

The house is of local representative significance as a fine example of early residential development in the suburb.

Historical Notes Area History

or Provenance:

Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side.

After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789.

However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys - English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Fernhill Street retains the first name for Hurlstone Park as it became a locality distinct from Canterbury. Fernhill was Sophia Campbell's house in Hampshire following her return to England. The 1893 Fernhill subdivision was one of the first residential subdivisions of Hurlstone Park and the first to use the name of Fernhill. This subdivision set out 41 building lots on land formerly used by Anthony Blamire's brick works, creating Fernhill, Barre and Short streets north of Crinan Street.

31 Fernhill Street occupies part of what were Lots 1, 2 and 3, Section 1 of Deposited Plan 3137, the 1893 Fernhill subdivision. In 1903 Marrickville dairyman Joseph Patrick Woolford purchased lots 1 to 5 of Section 1, running from the south eastern corner of Fernhill and Barre streets to the eastern end of Barre Street, where it encountered the creek which

Item Name: Eulowrie - Federation Queen Anne style house

Location: 31 Fernhill Street, Hurlstone Park

terminated several Hurlstone Park streets (LPI Vol. 1464 Folio 154, 27 April 1903). Woolford sold this land in 1909 to Ellen Pendlebury, wife of William Pendlebury (1857-1921) who came to Sydney from Goulburn in 1881 and purchased land for the brick pit, which he worked with his brother Elijah. After the clay was worked out Pendlebury became Fernhill's most active building contractor, establishing the Crinan Street commercial centre near the new railway station (Methodist 31 December 1921; LPI Transfer 529422). Pendlebury had built several houses nearby in Crinan Street and resided there before building a new home on Fernhill Street. Presumably the following advertisement was placed for one or both of these jobs: 'PLASTERER'S LABOURER wanted. Pendlebury's job. Fernhill St. Fernhill' although the builder could well have been Pendlebury's son William James who followed him into the building trade (Sydney Morning Herald, 8 June 1910, p.17).

The Pendleburys redrew lots 1 to 3 to create three slightly deeper lots facing Fernhill Street rather than Barre Street, as in the subdivision. They were sold off separately; the one on the corner of Fernhill and Barre to company manager James Robertson who Sands listed in residence from 1912 (LPI Vol.2157 Folio 30, 19 June 1911). Robertson quickly sold the new house to John William Owen, an employee of the Tramways Department who supervised the trams starting their runs from Phillip Street, Circular Quay (Sun, 11 December 1911, p.7). Helped into ownership by William Pendlebury's mortgage, Owen named the new house Groselea (LPI Transfer 635560).

In 1916 owner and name again changed, with engine driver George Dewe and his parents in occupation of Eulowrie; the name is that of a mountain and station in western New South Wales (LPI Transfer A83918). However Dewe enlisted and embarked for France the same year and was reported wounded in 1918 (Sydney Morning Herald, 22 April 1918, p.3). There are no later reports of George Dewe's fate, but in 1919 the property was sold to Albert Edwin Forrest (LPI Transfer A508746).

Forrest had also been in France, not as a combatant but as an officer of the Young Men's Christian Association, organising comforts and entertainment for the troops. On his return he published a souvenir book about the trip home by troop ship (Geelong Advertiser, 15 May 1918, p.6; Souvenir of HMAT Friedrichsrund: Homeward bound, 1919, Hurlstone Park, 1919). Forrest's Sydney life was occupied by the YMCA and the Presbyterian Church; during 1940 an office and a brick garage were added to Eulowrie (Construction, 21 August 1940, p.3). Albert Forrest lived there with wife Lily until his death in 1961.

Physical Description: The house is a single storey freestanding Federation Queen Anne style house on a prominent corner site, designed to address the corner location. The house has a hipped and gabled terracotta tile roof with terracotta ridge capping and finials and stuccoed brick chimneys with terracotta chimney pots. The roof features gable ends facing both street frontages. The house is constructed of polychrome brickwork, with a band of red brickwork at windowsill level and dark brown bricks used to emphasise corners, in imitation of quoining. The house features a return verandah facing the street corner, with the verandah roof being incorporated into the main roof via a change in pitch. The return verandah features turned timber posts mounted on tapered brick pediments, timber fretwork brackets and frieze. There are awnings over windows below both street facing gable ends, the awnings being on decorative timber frames and brackets. The awning roofs are fish scale metal. The front door has a fanlight above. The verandah floor features tessellated tiling. Front windows facing the street below gable ends or facing into the verandah are groups of timber-framed casements with fanlights, featuring decorative stuccoed sills. The street facing gable ends are roughcast stuccoed and imitation half-timbered. The edge of the verandah roof features exposed timber rafter ends. The front fence is a timber acorn picket fence, which is likely modern, but sympathetic to the style of the house.

Physical Condition: Good

Modification Dates: An office addition and a brick garage were built in 1940 (Construction, 21 August, 1940, p.3)

Endorsed Significance:

Statement of Significance: The Floss Street electricity substation, constructed in 1921 is of local historical significance as one of the small scale distribution substations constructed by the Municipal Council of Sydney during the roll-out of electricity to suburban areas in the 1920s and 1930s. The substation is of local aesthetic significance as a modestly detailed example of an Inter-war period purpose-designed and built structure that displays elements of the Inter-war Californian Bungalow style evident in the dominating gable roof. The substation is rare at a local level and representative across the Sydney area.

Historical Notes Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

The Floss Street substation is a purpose designed and built structure dating from 1921 constructed by the Electricity Department of the Sydney Municipal Council.

It is the third substation on the site. The first substation was a galvanized iron structure replaced in 1915. The second was a brick building with a transformer tower, demolished circa 1920 (see photos). This substation was constructed by the Municipal Council of Sydney as a part of the expansion of the electricity network into the suburbs.

Notes on works to the site extracted from the Minutes of the Electric Lighting Committee, Municipal Council of Sydney (CRS 14):

Vol 7:

29/7/13 p138 - laying of pipes at Floss St

15/9/13 p122 - substation proposed for Floss Street Canterbury

29/4/14 p347/8 - fence erected

16/8/14 p87 - transformer installed

26/10/14 p173 - gear installed to control pole transformer in Undercliffe

Vol 8:

1/2/15 p281- extension to Floss Street substation to accommodate new switchgear

20/5/15 p389 - #57 Floss Street substation rebuilt from galvanised iron to brick

Vol 19:

Physical Description: The Floss Street substation is an Interwar period purpose-designed building incorporating aspects of the Inter-war Californian Bungalow style in its design. It has a dominant gable roof and long ridge mounted louvre. A rough cast rendered gable end area contrasts with the tuck-pointed face brick walls.
The Floss Street substation is constructed using load bearing face brickwork and incorporates a roughcast rendered gable end wall and a large roof mounted timber-framed louvre.

Physical Condition: Moderate. Requires maintenance of site.

Modification Dates: Brickwork over painted. Roof, gutters and downpipes replaced. Cliplok metal fences.

Recommended Management: APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis.
The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.
Any future development should preserve the existing form and external surfaces and materials of the significant façades. The exterior finishes should be retained, including face brickwork.
Repainting of exterior painted surfaces should be undertaken in appropriate colours.
Ongoing regular maintenance works such as removal of graffiti is encouraged. Previously unpainted and unrendered surfaces should not be painted or rendered.

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Further Comments: The substation is unusual in that the rear façade is a temporary structure only. While the front of the building is masonry, the rear wall is metal-clad timber, which was designed for

Assessed Significance: **Local**

Endorsed Significance:

Statement of Significance: 46A Floss Street is of local historical significance as the former stationmaster's residence for Hurlstone Park Railway Station (originally named Fernhill), built privately in 1907 for stationmaster Samuel FitzJohn and his wife Ada, and purchased by the Commissioner of Railways in 1911. The house illustrates the history of Federation period accommodation arrangements for railway staff and their families, and is of particular interest for having been privately built and therefore not following a standard Railways Department design. The residence was used by Station Masters from 1907 to 1930, after which it was rented out until finally sold into private ownership in 1993.

The house has local historical association with early stationmasters of Hurlstone Park Railway Station including Samuel FitzJohn 1907-1913 (the original occupant with his wife Ada, who were responsible for having the residence privately built for them); Charles Stead, stationmaster and occupant in 1914; and Robert Johnston, stationmaster from 1915.

The house is of local aesthetic significance as a fine representative example of a Federation

Item Name: **Former Station Master's Residence**

Location: **44-46 Floss Street, Hurlstone Park**

Queen Anne style house of generous proportions with features of the style including face brickwork, asymmetrical form, return verandah with turned timber posts and fretwork, gable ends facing north and east with timber fretwork decoration, original timber panelled front door with glazed upper panels and fanlight.

The house is also rare as a privately built Station Master's residence later acquired by the NSW Railway Commission (in 1911).

Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Floss Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell.

46 Floss Street occupies part of Lot 8 of Deposited Plan 4448, a 1904 subdivision of land purchased in 1878 and 1879 by William Starkey, a cordial manufacturer resident on the Dulwich Hill side of Garnet Street. Starkey's land lay south of Floss Street between Duntroon and Dunstaffene streets, retitled in 1896 after it was bisected by the railway cutting and offered for sale in 1904 as the Starkey Estate, consisting of 18 lots facing Floss Street and six on the western side of Duntroon Street between the railway station and Commons Street.

Item Name: **Former Station Master's Residence**

Location: **44-46 Floss Street, Hurlstone Park**

Most of the estate was purchased by Lewis Parker Solomons and Adeline Burgess Halloran, wife of Edward Roland Halloran, an architect and Petersham alderman. (LPI Vol.1186 Folio 15, 16 March 1896). Halloran's son, Henry Ferdinand Halloran, had surveyed the Starkey Estate and was part of a 'land syndicate' with Solomons, buying, promoting and reselling land ('A land syndicate', Australian Star, 4 September 1906, p.4). He would go on to be one of Sydney's high profile realtors. We can be confident that the Halloran family did well from the Starkey Estate; their involvement may have extended to Edward Halloran, who specialised in domestic architecture, designing some of the Estate's houses.

Lot 8, adjacent to the station, was purchased in 1906 from Lewis Solomons and Adeline Halloran by John Stewart Turner, a switch operator in the Post Master General's department (LPI Vol.1689 Folio 84, 4 May 1906). The following year Turner sold to Ada Theresa FitzJohn, wife of Belmore station master Samuel FitzJohn, 'for her separate use within' (LPI Transfer 454010). This unusual form of words suggests that the new house may have been designed with separate entrances and living quarters as in its contemporary manifestation. Named Roslyn, the house was listed in Sands from 1908 under the name of Samuel FitzJohn, now stationmaster at Fernhill, the early name of Hurlstone Park.

FitzJohn had worked for the NSW Railways since at least 1890, when he was night officer at Brewongle Station near Bathurst. He was later stationmaster at Carcoar, Wellington, Yass Junction and other western stations before landing a city posting at Belmore. At this time his ambitions began to spread beyond the railways as he purchased land at Belmore and had a residence and shop constructed there, only to be sued by the Belmore Timber Company for non-payment of £200 in the construction contract (Evening News, 24 February 1908, p.3). As a result FitzJohn was briefly declared bankrupt and the Belmore assets were sold. His stationmaster status does not seem to have been affected and although caveats were placed on Roslyn for a few months of 1908 Ada FitzJohn remained owner until 1911 when the Commissioner of Railways purchased the property (LPI Transfer 627190).

In 1914 Charles Stead became stationmaster and resident of Roslyn, followed a year later by Robert Johnston, who enjoyed a longer tenure. By 1930 it was not expected that the local stationmaster would use the house, and it was let to a variety of tenants until 1993 when finally sold from the State Transit property portfolio.

The house is now also used as a doctor's surgery.

Year Completed: 1907

Circa: No

Physical Description: The site is immediately adjacent to the railway line on the north side of the railway line near Hurlstone Park Railway Station, with the railway station car park to the east. The house is a freestanding face brick Federation Queen Anne style house with a return verandah to the north and east elevations, and a hipped and gabled corrugated iron roof with bullnose corrugated iron roof to the return verandah. The house has gable ends facing both north and east. The verandah features turned timber posts with decorative timber brackets and frieze. The roof retains roughcast stuccoed chimneys. The windows are simple timber-framed double-hung, and the original front door - a five-panelled door with three upper panels glazed, and a fanlight above - remains. The northern gable end features a simple timber frieze and decorative turned timber finial. The front fence is a modern wire mesh fence.

Physical Condition: Fair - there is some evidence of rising damp and missing mortar to the brickwork in the front north-western corner of the house.

Modification Dates: The house is largely intact with few modern alterations externally. The front fence has an early brick base with modern wire mesh fencing above. There is modern tiling to the verandah floor and a modern screen door.

Recommended Management: APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)
The existing lot should not be subdivided.
The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.
Any future development should preserve the existing form and external surfaces and materials of the significant façades.
The exterior finishes should be retained, including face brickwork.
Repainting of exterior painted surfaces should be undertaken in appropriate colours.
Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) The house is of local historical significance as the former stationmaster's residence for Hurlstone Park Railway Station (originally named Fernhill), built privately in 1907 for stationmaster Samuel FitzJohn and his wife Ada, and purchase by the Commissioner of Railways in 1911. The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

The land, which on 79 Floss St. Hurlstone Park is located, was part of a resubdivision of lots 47-52 DP5924 (Jeffreys Estate No.5, subdivided in 1910) by Joseph Hopkins of Hurlstone Park, builder, in 1913. The new subdivision reoriented lots and created extra lots. The land was sold on 2/3/1914 to Cluxton James Chambers of Rozelle, draper, and was immediately mortgaged. From evidence in World War I enlistment records, a house appears to have been built on the land in 1915. In 1918, the property was transferred to Bernard Kane of Walgett, Inspector of Police, and it remained in the Kane family until 1982.

Themes:	National Theme	State Theme	Local Theme
	4. Settlement	Accommodation (Housing)	(none)

Designer:

Maker / Builder:

Year Started: 1914 **Year Completed:** 1915 **Circa:** No

Physical Description: A single storey freestanding Federation Queen Anne style house on a corner location (corner of Floss Street and Melford Street) with a mature garden setting including tall Conifers (that obscure the view of the house from the street). The garden setting includes a sinuous front path with central fountain and pond, and marble front steps with tiled risers between rendered masonry dwarf walls with lion statue sentinels.
The house has an asymmetrical form, is constructed of polychrome face brickwork with a

Item Name: Dalriada - Federation Queen Anne style house

Location: 79 Floss Street, Hurlstone Park

complex hipped and gabled slate clad roof with terracotta ridge capping and finials. The roof also features original roughcast rendered chimneys with terracotta pots. There is a return front verandah with timber posts, brackets and frieze on a brick balustrade.

Other features include slate clad awning over the front window to Floss Street set on decorative timber brackets with a flying gable featuring timber fretwork and finial above, timber framed casement windows and fanlights in groups of three or four with coloured glass panes a gable with decorative timber finial over the corner of the verandah above a bay window facing the corner and a bullseye window adjacent to the front door.

The house is designed to address its corner orientation and makes a considerable contribution to the streetscapes of both Floss and Melford Streets.

The timber picket fence enhances its appearance on both streetscapes. An original shed still stands to the rear of the house.

Physical Condition: Good.

Modification Dates: Secondary dwelling erected in 2010 at the rear of the house.

Recommended Management: APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:

(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing subdivision pattern should remain unaltered.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument List on a Local Environmental Plan (LEP)

Further Comments:

Former Uses: Residence

Assessed Significance: Local Endorsed Significance:

Statement of Significance: "Ellesmere" built 1899-1900 is of local historical significance as an example of early development of the area on an 1888 subdivision (though the land was first purchased for development in 1898).

The house is of local aesthetic significance as a fine representative example of a Victorian filigree style house with features of the style including gabled roof form, castellated bay windows, stuccoed façade with decorative corbel and stuccoed decorative window sills, however also with Federation period timber fretwork to gable end and front verandah, indicating the transitional period of construction of the house.

The house is a relatively rare local example of Victorian period development.

The house is representative of the quality of early residential development in the suburb.

Historical Notes Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people remained living in many parts of the Sydney region until the mid

1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Running south from Canterbury Road to the Cooks River, Garnet Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell; it forms the eastern border of Hurlstone Park and Dulwich Hill.

42 Garnet Street occupies part of what were Lots 13 and 14 of Deposited Plan 3515, an 1899 subdivision of land between Duntroon and Garnet streets. In 1888 land agent Vincent Jacob Zahel purchased 1.14 hectares "two acres, three roods, ten perches" of Sophia Campbell's estate and commenced its division into fourteen building lots, seven facing each of the two streets (LPI Vol.878 Folio 140 27 April 1888). This was one of the first residential subdivisions in Hurlstone Park, then still considered part of Canterbury. Purchased in 1899 by Ashfield painter and decorator Edward John Robinson the lots were sold off mainly to local builders including Robinson's brother Hubert Ernest Robinson and Frederick Robert Rossiter, as well as Florence Jane Haase, wife of painter and decorator Frank William Haase, who purchased Lot 14 (LPI Vol.1274 Folio 11, 17 February 1899).

The Haase house is listed in Sands from 1900, one of the first in Garnet Street. During 1904 a narrow strip of the block was sold to the owners of the neighbouring Lot 13 (LPI Vol.1564 Folio 205, 13 October 1904). By this time the house had gained the name Ellesmere, a place name in England, New Zealand and Canada.

Frank Haase was well known in the world of brass bands, Secretary of the NSW Band Association and of the Metropolitan Band, which in 1908 presented him 'with a purse of 10 sovereigns to show their appreciation of his services' (Evening News, 22 January 1908, p.4). Haase organized his biggest band event early in 1919, the 'Grand Inter-State Contest' at Sydney Sports Ground: 'Huge Patriotic Concert on Sunday...by twenty-five Bands. The greatest carnival of brass band music ever promoted in Australia' (Sun, 19 January 1919, p.21) Unfortunately Frank Haase soon after became one of the 12,000 Australian victims of

the Spanish influenza pandemic which followed the Great War and died the same year. During 1929 his widow sold the rear twelve metres of Lot 14 to John and Frank Woodham of 58-60 Duntroon Street; a decade later following Florence Haase's death the property was bequeathed to her estate agent son Eric (LPI Vol. 4270 Folio 195, 29 April 1929; Transfer C664512).

Physical Description: The house is a freestanding single storey brick house with a stuccoed brick façade and painted brick side walls, which largely reflects the Victorian Filligree style. The house features a gabled terracotta tiled roof and a separate bullnose corrugated iron front verandah. The façade features a bay window with a castellated parapet below a gable end with timber fretwork and turned timber finial. Windows are timber framed double hung with decorative stucco sills. The front wall also features a decorative stucco corbel. The front verandah features timber posts with decorative timber fretwork brackets and frieze. There is a typical Victorian period style stuccoed fin wall enclosing the end of the front verandah.

Physical Condition: Good

Modification Dates: Alterations including terracotta tiling to roof with resulting loss of chimneys, car space in front garden.

Recommended Management:

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing lot should not be subdivided.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia – who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Running south from Canterbury Road to the Cooks River, Garnet Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell; it forms the eastern border of Hurlstone Park and Dulwich Hill.

76-80 Garnet Street occupies part of Lot 4, Section 19 of Deposited Plan 191, the first subdivision of Hurlstone Park by Sophia Campbell. This is part of the land purchased from Miss Campbell in 1878 and 1879 by William Augustus Starkey, a cordial manufacturer who lived on the Dulwich Hill side of Garnet Street. Among Starkey's purchases was 1.8 hectares south of Floss Street between Duntroon and Garnet streets (LPI Vol. 413 Folio 83, 19 March 1879).

According to an undated (certainly pre-1880) plan of Sophia Campbell's estate this part of the estate already featured a sandstone quarry between Floss and Kilbride streets while nearby a prominent cliff is marked just south of Floss Street in William Starkey's land facing Garnet Street. It seems likely that quarrying occurred before William Starkey's sale of this land in 1885 to Marrickville quarryman John Johnson (LPI Vol. 742 Folio 231 3 June 1885). Johnson had a few months earlier advertised: 'WANTED, good Quarrymen, Apply Johnson's Quarry, Garnet-St, new Canterbury-Rd' (Evening News, 17 March 1885, p.5). However despite acting as mortgager William Sharkey regained the property in 1887 when Johnson was declared insolvent.

In January 1888 Starkey complained to Canterbury Council 'of having been asked for the rates due on quarry Garnet street when in possession of one Johnson...council-clerk instructed to request Mr. Starkey to pay the amount' (Sydney Morning Herald, 7 January 1888, p.8). William Starkey died two months later, the property passing to his son John (LPI Transfer 1104). It is not clear whether quarrying continued but from 1906 the new owner John Giblett of Duntroon Street was operating a tannery at the Garnet Street property (LPI Vol. 1511 Folio 249, 23 January 1904). Giblett had previously run a tannery near Melford Street and his Garnet Street tannery operated until 1925, from 1914 by Fred Agar and his wife.

The Cooks River end of Garnet Street remained sparsely built into the 1920s, no doubt

Item Name: **Worked quarry faces**

Location: **76-80 Garnet Street, Hurlstone Park**

partly because of the tannery but also because the tannery land was not subdivided, unlike the remainder of the land owned by John Giblett and his widow Rebecca. By this time the property's northern and western boundaries were demarcated by the sinuous line of the quarry cliff, the land atop the cliff facing Floss Street having been sold as building lots, as were four blocks facing Garnet Street (LPI Vol.4334 Folio 42, 10 October 1929). The main - 650 square metres - part of the land was now devoted to an activity more urban than quarrying or tanning - tennis. In 1930 the property's new owner Matthew Chaseling advertised: 'AGENTS Please Note-My Land and Tennis Courts at Garnet St near Hurlstone Park, are withdrawn from sale. ME Chaseling' (Sydney Morning Herald, 9 April 1930 p.1). Known locally as the 'Rockie' courts, four courts and their pavilions are recorded in the 1943 aerial photo survey (Group photo, Rockie tennis courts, 1940s; Protestant Federation Children's Home collection, Canterbury Library Local History Collection) Tennis Enterprises Pty Ltd owned the property from 1951, taking advantage of the mid-century high point in tennis' popularity (LPI Transfer F397183). Finally in 1966 Wndorah Properties became owner and the tennis courts closed, to be replaced by walk up flats generic to their time (LPI Transfer J990236).

By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

15 and 17 Gower Street occupy what was Lot 11 of Deposited Plan 5924, the fifth subdivision of the Jeffrey's Estate. This 1910 subdivision created 56 building lots as well as Gower Street, Euston Square and Euston Road. Facing Gower Street on the north east corner with Melford Street, Lot 11 was purchased in 1910 by Marrickville brothers Frank and John Heylin, respectively a civil servant and a chemist (LPI Vol.2104 Folio 73, 17 November 1910).

Three years later the Heylin brothers sold the property to Ellen Pendlebury, wife of builder William Pendlebury, one of Hurlstone Park's first and most active builders who constructed numerous houses nearby in Crinan, Dunstaffenage and Fernhill streets (LPI Transfer

Item Name: Federation Queen Anne style semi-detached resid

Location: 15-17 Gower Street, Hurlstone Park

A12338). In this case the contractor was likely his son William James who became a prominent inner-west builder, and was for a time during the 1920s president of the Canterbury branch of the Master Builders Association. In 1915 W J Pendlebury built a house for himself and family at 18 Gower Street; Arthur Genders, another prominent builder, resided at 1 Gower Street.

The new house was listed in Sands from 1917 named Hollis, an early English surname. It may have been under construction during 1914: 'Painters and Grainers. - Price wanted. New building, Gower St. Hurlstone Park. Behind Cong. Ch.' (Sydney Morning Herald, 11 July 1914, p.16). The Congregational Union purchased Lot 10, facing Crinan Street behind Lot 11, and built a church which stood there until the 1980s; the vacant block is now owned by Canterbury Bankstown Council. Among the first tenants was the Reverend Raymond Preston, an evangelist Methodist preacher who came to Australia from Yorkshire in 1916 and spent years running missions across NSW, seeking converts through hours of oratory (Methodist, 7 January 1922, p.12). The owners of number 15 also changed frequently from the first, Pyrmont stationer William John Wilson, until 1924 when Abbotsford salesman Alfred Ernest Lyons became owner till his death in 1948 when his son Reginald and widow Eliza were bequeathed the property (LPI Transfers B56072, D892490).

During its first two decades Hollis was numbered 15, number 17 was not listed until the 1940s. However the house was built with a second entrance on the Melford Street side of the verandah, and the second dwelling was from 1918 listed in Sands as an unnumbered residence named Kelmscott on the eastern side of Melford Street between Gower and Crinan streets.

Reginald and Eliza Lyons remained owners until 1960 when the two residences were sold separately and retitled detailing sections of the dividing party wall (LPI Vol.8305 Folio 35, 26 September 1961; Vol.8346 Folio 39, 5 March 1962).

Physical Description:

This pair of semi-detached residences, with No. 17 located on the corner of Gower Street and Melford Street, constitute a single storey brick Federation Queen Anne style building designed to appear as a single dwelling, with a gable end facing each street frontage. The house has the usual asymmetrical Federation Queen Anne style form with a hipped and gabled roof clad in slate with tall rough-cast stuccoed chimneys with terracotta chimney pots.

Item Name: Federation Queen Anne style semi-detached resid

Location: 15-17 Gower Street, Hurlstone Park

The roof changes pitch to cover separate verandahs facing Melford St (to No. 17) and Gower St (to No. 15). The roof also features terracotta ridge capping and finials. Walls are polychrome brick. Windows are tall timber-framed double hung in groups, with multipaned upper sashes. The elevation of No. 17 to Gower Street features a bay window beneath a flat roof below the gable end facing this street. The presentation of No. 15 to Gower Street is the front verandah with timber posts with timber fretwork brackets mounted on brick pediments. The front door of No 15 features sidelight and fanlights.

No. 15 has tessellated tiles to the front verandah floor and front steps with marble treads. The verandah elevation (facing Melford Street) of No. 17 features a bull's eye window. The timber fretwork verandah brackets to No. 17 differ in design to those on the verandah of No. 15.

The front fence to No. 15 is a timber picket fence on a brick base. The front fence to both Gower and Melford Streets to No. 17 is a timber picket fence. Both picket fences are in an acorn pattern, and while not original are generally sympathetic to the style and period of the dwellings.

Physical Condition: Good

Modification Dates: The residences are very intact externally,

Assessed Significance: Local
Endorsed Significance:

Statement of Significance: 21 Kilbride Street is of local historical significance as a house constructed in 1922 by local building contractor Henry Wilson Jones for his own occupation. The house is also of local historical significance as evidence of the development of later re-subdivided blocks of the 1893 Brixton Hill subdivision, which featured Victorian period long narrow allotments almost all of which were since reconfigured in later re-subdivisions.
The house has local historical association with building contractor Henry Wilson Jones who built the house in 1922 for his own occupation, resided in the house till his death in 1940, and whose family continued ownership of the property until 1956.
The property is of local aesthetic significance as a fine, very intact example of an Inter-war California Bungalow, with original front fence and unusual for its level of integrity and original garage.
The building is of representative value as a fine example of an Inter-war residence in the suburb.

Historical Notes or Provenance: Area History
Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict

Item Name: **Inter-war California Bungalow**

Location: **21 Kilbride Street, Hurlstone Park**

settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Kilbride Street is one of the streets set out in Sophia Campbell's original subdivision, named after Scottish locales significant to the Campbell family, in this case West Kilbride, a village in Ayrshire.

21 Kilbride Street occupies part of what were Lots 5 to 10 of Deposited Plan 5102, a 1905 subdivision of land purchased by Sydney grocer John Slocumbe in 1893, shortly before railway construction required the realignment of the intersection of Kilbride and Dunstaffenage streets (LPI Vol.1112 Folio 181, 20 November 1893). This Brixton Hill subdivision created 15 building lots between Acton and Kilbride streets, as well as the southern end of Dunstaffenage Street.

During 1921 Henry Wilson Jones purchased the southern part of Lots 6 to 10, as well as part of Lot 5, running from the eastern end of Kilbride Street around the corner into Dunstaffenage Street (LPI Vol.3204 Folio 9, 12 July 1921). Jones was born in Marrickville in 1890, becoming a building contractor after first studying agriculture. As well as domestic buildings in Hurlstone Park and nearby suburbs, Henry Jones won several government contracts to build or extend schools, post offices and military buildings (Sydney Morning Herald, 8 November 1940, p.5).

Rather than build and sell across his five blocks, Henry Jones built on the western half of the land, allowing his house to face east across a garden. Listed in Sands from 1923, the bungalow style house was named Wolgan, a valley in the Blue Mountains. The garage facing Kilbride Street may have been an original feature; certainly Jones was a car owner before 1926: 'ROVER, 8 hp, smart appearance, any trial, examination, £95, terms approved

Item Name: **Inter-war California Bungalow**

Location: **21 Kilbride Street, Hurlstone Park**

buyer, JONES, Kilbride street, Hurlstone Park Pet 798' (Sydney Morning Herald, 8 December 1926 p.6). The 1943 aerial survey photo shows a bungalow style garage on the eastern side of the garden; this is still standing.

Henry Jones died in 1940 and the property passed to his widow Gladys who lived there until 1956 (LPI Transfer D97416). During this time Dunstaffenage Street was terminated at Acton Street and the southern end to Kilbride street landscaped.

Year Started: **Year Completed:** 1922 **Circa:** No

Physical Description: The house is built on a large polygonal (almost triangular) allotment approximately 732 square metres in area, located at the far eastern end of Kilbride Street (which terminates in a cul-de-sac and a pocket park at its eastern end). It is designed to face both east (where the front entry steps are located) and south to Kilbride Street. The house incorporates an original garage attached to the southern Kilbride Street elevation, projecting out of and connecting into the undercroft of the house. The site features an original woven wire front fence along the Kilbride Street property boundary with two original sets of wrought iron driveway gates and an original wrought iron pedestrian gate.

The house is a detached single storey brick Inter-war California Bungalow with a hipped and gabled terracotta tiled roof with a single tall brick chimney with terracotta chimney pot. The house features a pair of imitation half-timbered gable ends facing Kilbride Street on the southern elevation, and another imitation half-timbered gable end facing east. The east elevation also features a flat metal roofed entry porch on brick posts with entry steps flanked by cement rendered balustrades. The undercroft area of the house is cement rendered coursed to resemble blocks, and windows also feature cement rendered heads. Windows are simple timber framed double hung. The south elevation also features the original garage, which has a flat roof, projects out of the undercroft of the house and clearly penetrates into the undercroft area. The garage features timber tongue and grooved doors.

Physical Condition: Good

Modification Dates:

Item Name: **Inter-war California Bungalow**

**Recommended
Management:**

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:

(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing lot should not be subdivided.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) No 21 Kilbride Street is of local historical significance as a house constructed in 1922 by local building contractor Henry Wilson Jones for his own occupation. The house is also of local historical significance as evidence of the development of later re-subdivided blocks of the 1893 Brixton Hill subdivision, which featured Victorian period long narrow allotments almost all of which were since reconfigured in later re-subdivisions.

The house is a fine Inter-war example of later residential development in the suburb.

Criteria b) The house has local historical association with building contractor Henry Wilson Jones who built the house in 1922 for his own occupation, resided in the house till his death in 1940, and whose family continued ownership of the property until 1956.

Criteria c) The property is of local aesthetic significance as a fine, very intact example of an Inter-war California Bungalow, with original front fence and unusual for its level of integrity and original garage.

Criteria d) Not relevant

Criteria e) Not relevant

Criteria f) The garage is rare as an original garage built into the house constructed in 1922.

Criteria g) The house is a fine representative example of an Inter-war California Bungalow.

Integrity / Intactness: Highly intact externally.

By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Melford Street is one of the streets set out in Sophia Campbell's original subdivision, named after locales significant to the Campbell family's Scots heritage, in this case a village and loch in Argyle, west Scotland.

The Uniting Church at 8 Melford Street occupies Lot 4 of Deposited Plan 3738, a 1900 subdivision creating 14 building lots facing New Canterbury Road and Melford Street. Methodism's founding moment occurred in 1739 when Anglican priest John Wesley began preaching in the open air near Bristol. This evangelical determination to take religion to the people militated against an architectural presence; early Methodists often used homes and meeting halls rather than chapels. Wesley himself believed that a chapel ideally should be hexagonal in plan so that all worshippers would be near the preacher and each other; he rejected the private family boxes and social segregation of Anglican churches. Methodism teaches that salvation is available to all who aspire to holiness; lay preachers, social concern and voluntarism were central to the movement.

At the 1911 Census, 547,806 Australians identified as Methodist from a population of 4.5 million. The five major Methodist sects in NSW had unified in 1902, and the church was in

Item Name: Hurlstone Park Uniting Church

Location: 8 Melford Street, Hurlstone Park

expansionary mode, with church, Sunday school and parsonage building booming across the state. While the population of the new suburb of Hurlstone Park was still small, Methodists were among its most prominent members none more so than William Pendlebury (1857-1921) who came to Sydney from Goulburn in 1881 and purchased land for the brick pit which he worked with his brother Elijah. After the clay was worked out Pendlebury became Fernhill's most active building contractor, establishing the Crinan Street commercial centre near the new railway station (Methodist 31 December 1921, p.11).

In 1905 Pendlebury's wife Ellen purchased Lot 4 from its first owner, Petersham engineer Sydney Percival Fowler (LPI Vol. 1508 Folio 24, 24 December 1903). Normally this would have been the first move in the construction of a new house, but the block was still vacant when a meeting was held in November 1911 at the Pendleburys' house 'to discuss the building of a Methodist Church in Hurlstone Park.' It was stated that a sum of money was in hand for the purchase of a site' (Sydney Morning Herald, 2 December 1911, p. 10). The same month a hall on New Canterbury Road was rented for use as a church and Sunday school (Methodist, 10 February 1912, p.8). In July 1912 Lot 4 was purchased by twelve trustees including William Pendlebury and his son William James (LPI Transfer 670874). By this time an architect had been appointed and construction tenders sought (Sydney Morning Herald, 29 April 1912 p. 14).

Church architecture was no novelty to the appointed architect Alfred Gambier Newman (1875-1921). Newman's father the Reverend Charles Thomas Newman was president of the South Australian Methodist Conference; in 1900 he remarried to Elizabeth Vickery, daughter of Ebenezer Vickery, one of Sydney's wealthiest Methodists. This Methodist power marriage was helpful to Alfred after he moved to Sydney in 1906. Working from Vickery's Chambers, Pitt Street, Alfred Newman's work was primarily commissioned by the Methodist Church. He designed Methodist churches at Croydon, Dungog, Strathfield, Kempsey, Marrickville, Auburn, Dee Why, Campsie, North Ryde, Lakemba, Beecroft, Rhodes, Epping, Young, Barraba, Wentworthville, Tighes Hill, and Kempsey as well as numerous parsonages and Sunday schools. He also designed the Tower Wing of MLC School, Burwood.

As Methodism and Methodists prospered during the 1800s their churches were influenced by the religious architecture of the time, notably the Gothic Revival commonly expressed in church and educational architecture. Yet Methodist churches generally retained an ostentatious simplicity in decoration and organization. This was true of Newman's 'very neat' design for Hurlstone Park: 'the church will provide seating accommodation for about 300' (Sydney Morning Herald, 28 May 1912, p.12). The foundation stone was laid in August 1912 and by November the church was 'nearing completion, and is now a prominent feature in the landscape. It is an imposing structure costing...about £2000'; this was somewhat more than the earlier estimate of £1650 (Methodist, 17 August 1912, p.12, 30 November 1912, p.7). Opened on 7 December 1912, the new church was described as 'a well-ventilated and fairly spacious structure...arranged internally in semi-circular fashion, so that preacher and people are in close contiguity' (Methodist, 11 January 1913, p.3).

In 1923 tenders were called for a Sunday school building behind the church. The architects were Vernon and Mills, 39 Martin Place (Sydney Morning Herald, 20 June 1923, p.10). Hugh Venables Vernon was the architect son of Walter Vernon, NSW Government Architect from 1890 to 1911, responsible for numerous public buildings. His son's practice was focused on

Item Name: Hurlstone Park Uniting Church

Location: 8 Melford Street, Hurlstone Park

domestic and suburban architecture.

At that time the Sunday school had over 500 students taught a variety of subjects by 48 teachers (Sunday Times, 9 September 1923, p.3). Opening to Wattle Lane behind the church, the school hall cost £3000 and was completed in July 1924 (Watchman 24 July 1924, p.8). During the 1950s future Prime Minister John Howard taught at the Sunday school for a time (Peter van Onselen, Wayne Errington, John Winston Howard: the definitive biography, MUP, 2008, p.16).

The first Divine Service was conducted by Rev. B. J. Meek, President of the Methodist Conference. In 1926, Hurlstone Park was separated from the Lewisham Circuit to become a separate circuit of its own.

In 1933 the Hurlstone Park church became unexpectedly the focus of nation-wide controversy, when two local girls found a bag in the church yard containing £286 - about \$10,500 in 2016 values. The father of one of the girls handed the money to the police, igniting publicity and a legal battle between the family and the Church trustees, who claimed the money on the grounds that it could have been left by a conscious-stricken person. In the court of public opinion, as expressed in the press, the money belonged to the lucky girls and their families (Barrier Miner, Broken Hill, 7 June, 1934, p.6). Eventually the Church dropped its claim.

From the 1950s demographic change saw the Hurlstone Park congregation begin to decline; in 1976 it became a Uniting Church as part of the merger of most Protestant faiths. In recent times the influx of Islander residents, especially those from Tonga and Samoa, has seen an upsurge in Uniting Church attendance in Inner West suburbs; the Hurlstone Park church is now part of Tonga Parish, Sydney. The Sunday school building is used five days a week by the Art of Yoga studio.

Designer: Alfred G. Newman

Maker / Builder:

Year Started:

Year Completed: 1912

Circa: No

Physical Description: The site contains two connected church buildings - The former Methodist Church designed by architect Alfred G. Newman and constructed in 1912, which fronts Melford Street; and the brick Sunday School building constructed in 1923 to a design by architect Hugh Venables Vernon which fronts onto Wattle Lane.

Former Methodist Church:

This is a fairly simple Federation Gothic style church building, with a free use of architectural

Item Name: Hurlstone Park Uniting Church

Location: 8 Melford Street, Hurlstone Park

motifs.

The building is brick, 2 storey in scale, with a large setback principle gabled façade facing Melford Street. The façade is embellished with stuccoed banding and pilasters and stucco finials to the gable ends.

The side elevations of the church are quite simple, with the detail concentrated on the façade. The façade is symmetrical, with gabled porches at each end, gabled pediments flanked by buttresses with gabled coping. The principal section of the façade is set back, and is gabled in form. Elements built into the façade include buttresses, lancet windows with plate tracery, a projecting cornice moulding, and chequered and striped rendered detailing. The three foundation stones for the church are located along the façade close to ground level, attached to the brickwork of the passage connecting the two porches at the front of the building. The building is reasonably original, though some fabric has been replaced, such as the roof tiles to the porches. The entry steps are concrete.

1923 Sunday School building:

This is a brick Inter-war Romanesque style building, 2 storeys in scale, attached to the rear of the church and with a façade to Wattle Lane at the rear. The building features a gabled façade to Wattle Lane, with the central gabled section set slightly forward, with half-round terracotta tiles embellishing the adjacent setback portions of the façade. The façade features dentillated courses of brickwork and semi-circular arched windows and central pair of doors onto Wattle Lane. The side elevation features simple timber-framed multi-paned double-hung windows. The windows to the façade to Wattle Lane are timber-framed multi-paned double-hung with semi-circular arched heads. The central pair of timber entry doors off Wattle Lane are divided by stuccoed pilasters and surrounds within a large arched opening defined by brick corbelling.

Physical Condition: Good. - some evidence of rising damp, mortar damage to Sunday School façade to Wattle Lane.

Modification Dates: Sunday School built in 1923.

Recommended Management: APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing subdivision pattern should remain unaltered.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades (to both the street and the laneway).

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant façades, should be considered during planning for future major alterations.

Statement of Significance: 104 Melford Street, built in 1914 for Abraham Newyear Steenbom of Coogee, motorcar and carriage builder, is of local historical significance as evidence of the early development of the 1912 6th subdivision of the Jeffrey's Estate.

The house is of local aesthetic significance, as a fine representative example of the Federation Queen Anne style, designed to address its corner location, and featuring many fine elements of the style including complex hipped and gabled terracotta tiled roof form with gable ends facing each street frontage and a gable end defining the corner entry to the return verandah, timber verandah posts with timber fretwork brackets, placed on sandstone piers, timber framed leadlight casement windows with fanlights placed in groups, and rough cast stuccoed gable ends. Its architectural quality contributes significantly to the streetscapes of both Melford and Kilbride Streets.

The house has representative value as a fine early residence of the suburb.

Historical Notes Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>) The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

Melford Street is one of the streets set out in Sophia Campbell's original subdivision, named after locales significant to the Campbell family's Scots heritage, in this case a village and loch in Argyle, west Scotland.

This land was originally Lot 58, part of the Jeffrey's Estate 6th subdivision offered for auction on 7th September 1912, however the lot was later subdivided to create a new lot to the west (now 50 Kilbride Street).

This land, lot 58 DP6787, was bought by Abraham Newyear Steenbhorn of Coogee, motorcar and carriage builder, on 12/2/1913. He immediately mortgaged the property and a house was built in 1914. Steenbhorn was living there by the end of the year, when the survey for the 1915 edition of Sands Directory was taken.

In 1927, part of the rear of the allotment was subdivided to create a new lot facing Kilbride Street. The house remained with the family until 1944, when the Perpetual Trustee, as mortgagee, exercised its power of sale after Abraham Steenbhorn's death.

Year Started: 1914

Year Completed: 1914

Circa: No

Physical Description: The house is a single storey brick freestanding Federation Queen Anne style house on a prominent corner site (south-western corner of Melford and Kilbride Streets intersection). The house illustrates aspects of the Federation Queen Anne style, designed to address the corner location, such as complex hipped and gabled terracotta tiled roof with terracotta ridge capping and finials and two tall stuccoed chimneys with brick corbelled tops and terracotta chimney pots. The house is designed with gable ends facing each street frontage and a corner gable end defining the corner entry to the return verandah, verandah roof incorporated into the main roof, roughcast stuccoed gable ends, tapered timber posts with timber fretwork brackets to the verandah mounted on sandstone piers, timber framed leadlight casement windows with fanlights placed in groups, There are exposed timber rafter ends to the verandahs, and awnings with exposed rafters and timber brackets to the windows on the projecting bays. The site features a Federation style timber picket front fence to both street frontages, an informal garden and a curved entrance path leading from the corner entry gate.

Physical Condition: Good.

Recommended Management:

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

The existing lot should not be subdivided.

The overall form and scale of the building should be retained and conserved and preferably continue in its current use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades,

Item Name: Fern Hill - Federation Queen Anne style house

Location: 104 Melford Street, Hurlstone Park

should be considered during planning for future major alterations.

Management: Statutory Instrument List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) The house, built in 1914 for Abraham Newyear Steenbom of Coogee, motorcar and carriage builder, is of local historical significance as evidence of the early development of the 1912 6th subdivision of the Jeffrey's Estate.

Criteria b) Not relevant

Criteria c) The house is of local aesthetic significance, as a fine representative example of the Federation Queen Anne style, designed to address its corner location, and featuring many fine elements of the style including complex hipped and gabled terracotta tiled roof form with gable ends facing each street frontage and a gable end defining the corner entry to the return verandah, timber verandah posts with timber fretwork brackets, placed on sandstone piers, timber framed leadlight casement windows with fanlights placed in groups, and rough cast stuccoed gable ends. Its architectural quality contributes significantly to the streetscapes of both Melford and Kilbride Streets.

Criteria d) Not relevant

Criteria e) Not relevant

Criteria f) Not relevant

Criteria g) The house is a fine representative example of the Federation Queen Anne style, designed to address its corner location and a fine early residential building in the suburb.

Integrity / Intactness: The house retains its external integrity.

Former Uses: Church, Rectory, Church Hall
Assessed Significance: Local
Endorsed Significance:

Statement of Significance: The site and the group of three significant church-related buildings - Church Hall, Church and Child Care Centre, is of local historical significance as a collection of religious buildings originally built for the Anglican church, purchased for use by the Greek Orthodox Church in 1984. They provide historical evidence of the growth and later decline of the local Anglican congregation. Its conversion to a Greek Orthodox Church in 1984 is also of historical significance as evidence of the changing community of Hurlstone Park in the 1980s. The 1924 Church has historical association with its original designers, architects John Burcham Clamp and CH Finch. The three significant buildings on the site have historical association with the Hurlstone Park Anglican community, including former parishioners and rectors. The collection of three significant church buildings is of local aesthetic significance as a collection of religious buildings on a prominent site fronting New Canterbury Road, two of which - the 1924 Church designed by architects John Burcham Clamp and CH Finch, and the 1927-1928 Child Care Centre (designer not known) are fine examples of the Inter-war Romanesque style. The 1908-1909 Church Hall (designer not known) is a good representative example of the Federation Carpenter Gothic style. The 1924 Church (altered in 1934) is a good example of the work of architects John Burcham Clamp and CH Finch, despite the 1984-85 addition of the brick porch and

Item Name: **St Stephanos Greek Orthodox Church**

Location: **648-668 New Canterbury Road, Hurlstone Park**

colonnade facing New Canterbury Road.

While not researched, the buildings are likely to have local social significance to the current Greek Orthodox congregation.

The Church and Child Care Centre are locally rare examples of the Inter-war Romanesque style.

The Church Hall is a locally rare example of the Federation Carpenter Gothic style.

Historical Notes Area History

or Provenance: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>) The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance. Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Site History

St Stephanos Greek Orthodox Church (formerly St Stephens Church of England) and associated buildings occupy what was part of Lot 5 of Section 15 of Deposited Plan 191, the original subdivision of Hurlstone Park by Sophia Campbell. Lot 5, 6450 square metres of land facing New Canterbury Road and Dunstaffenage Street, was purchased from Miss Campbell in 1883 by Charles Rogers junior, a successful furniture manufacturer and retailer and his brother George Chapman Rogers (LPI Vol.656 Folio 210, 16 July 1883). The brothers divided Lot 5 and Charles Rogers' southern part was eventually subdivided in 1915 as the Woodside Estate. Most of the northern part – 2630 square metres facing New

Item Name: **St Stephanos Greek Orthodox Church**

Location: **648-668 New Canterbury Road, Hurlstone Park**

Canterbury Road – was owned by George Rogers who built his house Trentham there (LPI Vol.676 Folio 183, 10 December 1883). George Rogers died in 1910 and in 1914 his widow Emma Jane Rogers sold most of this land to a consortium of local Anglicans – a customs officer, an accountant, a master mariner, a manufacturer - led by the Reverend George Alfred Chambers, rector of Holy Trinity Church of England, a short distance away near New Canterbury Road, Dulwich Hill. Chambers founded Trinity Grammar School in 1913 (LPI Transfer A124232; Sydney Morning Herald, 5 October 1927, p.19).

Edward Colvin, the Rev. Chambers' predecessor at Holy Trinity, had already established a new church and Sunday school on Emma Rogers' land facing New Canterbury Road. Initially named St Saviour's the church was opened in September 1908. A year later the Herald reported that: "The church, which is a branch of Holy Trinity, Dulwich Hill, has made good progress during the twelve months, and it has been found necessary to enlarge the building to accommodate the increasing congregations. A contract has just been let for extending and completing the building, which will then have accommodation for about 200 people. Population at this end of the parish has increased so much during the past five years that a church in the district was considered to be an urgent necessity" (Sydney Morning Herald, 18 September 1909, p.10). In 1911 under G.A. Chambers' administration the simple timber building was renamed St Stephen's and although not listed in Sands until 1916, its preaching lineup was listed weekly in the press: 'ST. STEPHENS, Fern Hill, 11 Holy Communion, Rev. G.A. Chambers M.A; 7.15 Rev. H.G. Hinsby' (Sydney Morning Herald, 8 July 1911, p.18).

The land purchased by the Rev. Chambers and friends ran 36 metres along New Canterbury road from the Dunstaffene Street corner, which was already occupied by a chemist shop (LPI Vol. 2827 Folio 244, 4 March 1918). By 1920 the western end of New Canterbury Road was a thriving commercial centre. St Stephens planned to match its worldly neighbours: 'ARCHITECTS willing to Supply Competitive Designs for a New Church at Hurlstone Park please write at once to WM DALTON Holylea 6 Griffith Street Canterbury' (Sydney Morning Herald, 5 April 1922 p.16). William Dalton was a trustee of St Stephens but there is no record of a competitive process and the commissioned design was the work of the surveyor and architect for the Sydney Anglican Diocese.

John Burcham Clamp (1869-1931) designed several buildings for the Church of England including the Sydney Church of England Grammar School chapel and St Matthews Church, Manly. He is better known for his secular designs, which include the Wyoming apartments, Macquarie Street, Tattersall's Club, Elizabeth Street and Farmers department store, Pitt Street. Burcham Clamp is also remembered for a brief partnership with Walter Burley Griffin and for championing and employing Florence Taylor, Australia's first qualified woman architect. In 1924 Burcham Clamp was in partnership with C H Finch.

The building tender for the new church was awarded to Arthur Burgin, 195 Elizabeth Street, Sydney and the foundation stone was laid on 31 May 1924 (Construction and Local Government Journal, 2 April 1924 p.1; Sydney Morning Herald, 31 May 1924 p.18). The contract price was £4000 and the new building 'accommodates 350 persons, exclusive of the choir and has a wide and deep chancel with separate vestries for the clergy and choir' while the sloping site allowed space for 'commodious class and committee rooms beneath the chancel...and the building, with its open kiln bricks and tiled roof, presents a very

Item Name: **St Stephanos Greek Orthodox Church**

Location: **648-668 New Canterbury Road, Hurlstone Park**

effective and dignified appearance'. The church was opened on 18 October 1924 (Sydney Morning Herald, 22 October 1924, p.9).

During 1932 a 'memorial to Aborigines' was installed within the church by the rector Reverend D H Rettick, a member of the Sydney Anthropological Society and researcher of rock carvings Sydney Morning Herald, 6 May 1932, p.12, 25 July 1936, p.11.) A few years later unspecified additions were made, possibly the construction of a Rovers cabin beneath the church: 'Hurlstone Park.—Additions to Church, New Canterbury Road.—D. H. Rettick, The Rectory, New Canterbury Road, Hurlstone Park' (Construction and Real Estate Journal, 8 August 1934, p.2; Sydney Morning Herald, 9 December 1935, p.11)

In 1930 a rectory was built on the corner with Melford and Dunstaffnage Street, replacing the retail and residential buildings that had occupied the site. Laying the foundation stone Archbishop Wright commended the parishioners for their 'good business acumen in providing their rector "with a suitable home near the church". The new building will be a modern brick bungalow of eight rooms, and will cost approximately £1500 (Sydney Morning Herald, 4 March 1930 p.8). The construction must have been well advanced at this time as the completed rectory was dedicated the following month (Sun, 6 April 1930 p.6).

From 1929 the land occupied by the church, hall and rectory was owned by the Church of England Property Trust (LPI Transfer B915308). In 1984 the Church, hall and rectory were purchased by the Greek Orthodox Archdiocese of Australia (LPI Transfer V30600).

Australia's first Greek Orthodox Church opened at Redfern in 1898; the Greek Orthodox Australian Diocese was established in 1924 at which time Greek-Australians numbered about 10,000. With rapid migration since the 1940s, the Greek Orthodox Church has been one of the fastest-growing churches, now boasting 40 parish churches, a cathedral and three monasteries in NSW alone, as well as numerous child and aged care, educational and other social facilities.

Like St Stephen's several of these church buildings were originally built for other denominations. As well as gaining a new congregation and a new name, the St Stephens building gained a Romanesque portico matching the architecture and materials of the original building.

In 1997 the Greek Orthodox Archdiocese also purchased the adjoining property number 648 which had been sold in 1925 to medical practitioner William Quilty. The Rogers family home Trentham was replaced in 1928 by a new residence and surgery, later owned by a succession of medical practices (LPI Vol. 3756 Folio 220, 28 July 1925; LPI Transfer 3444381). This building is now used as a childcare centre, increasing St Stephanos' presence on New Canterbury Road.

Designer: Church (650 New Canterbury Road): John Burcham Clamp and CH Finch

Maker / Builder: Church: Arthur Burgin

Year Started: 1908 **Year Completed:** 1934 **Circa:** No

Physical Description: The site covers a number of lots addressed from 648 to 668 New Canterbury Road containing four separate buildings. The site has boundaries to New Canterbury Road to the north, Melford Street to the west, Pearce Lane to the south, and adjoins the property at 646 New Canterbury Road to the east.

There are four buildings on the site - from west to east, along New Canterbury Road, these are:

1. The Rectory (1929-1930), 654 New Canterbury Road (corner Melford Street) designer not known. This is a single storey rendered brick Inter-war California Bungalow style house with a hipped terracotta tiled roof, featuring a secondary hipped roof form over the front verandah. The front verandah, which has rendered brick balustrading and posts, has been enclosed with modern windows. The central post of the verandah is etched near the top with the word "Rectory". There is also a later plaque attached below this to the same post. The rectory has been substantially altered and is not considered significant.

2. Church Hall (1908-1909), 652 New Canterbury Road, designer not known. This is a simple single storey weatherboard Church hall building with a gabled roof form, featuring Gothic-arched fanlights above narrow timber-framed windows. The gabled roof form is clad in red corrugated Colorbond. The gabled porch facing New Canterbury Road has Gothic-arched side door openings with concrete steps. The church hall has a later fibro-cement skillion-roofed addition to the rear. The rear fence to the church and church hall is weatherboard.

3. Church (1924, additions 1934, 1984-1985), 650 New Canterbury Road, designed by John Burcham Clamp & CH Finch Architects.

A large freestanding brick gable roofed church building, with two periods of construction: the main body of the church, (1924 with 1934 additions) and a brick colonnaded porch and vestibule added to the New Canterbury Road façade in 1984-85.

The original portion of the church comprises a nave, a hexagonal apse, and chancel and vestry to either side. The church is two storeys in height at the rear. The church is constructed in face brick, and is roofed with slate with terracotta tile ridge capping. Eaves are overhanging with exposed timber rafter ends. Windows, including the large semi-circular arched window to the northern façade, are Romanesque in style, with surrounds of red

Item Name: **St Stephanos Greek Orthodox Church**

Location: **648-668 New Canterbury Road, Hurlstone Park**

bricks laid in header rows. The gable end of the façade is surmounted by an open bell cote with bell. The 1984-85 brick porch and colonnade is reasonably sympathetic, constructed in face brick and featuring semi-circular arches, however it has altered the appearance of the church façade to a considerable degree.

The front fence of the church to New Canterbury Road is brick with metal sliding gates - this appears modern, however brickwork is sympathetic to the brickwork of the church.

The rear fence to the church and church hall is weatherboard.

4. St. Stephanos Child Care Centre (1927-1928), designer not known.

This is a symmetrical single storey brick Inter-war Romanesque style building, designed in a roughly "U" shape with central courtyard. Its original use is not known, and its current use is as a Child Care Centre. The building features a hipped terracotta tiled roof, red tapestry brickwork walls, timber-framed multi-paned windows with semi-circular arched heads, a central brick courtyard wall with central semi-circular arched gateway opening facing New Canterbury Road. The courtyard wall is capped with terracotta Roman or Spanish half-round tiles. The building features wide paneled eaves with vents. The central portion of the roof, setback behind the central courtyard, features a copper-roofed brick cupola, which appears to function as a roof vent. The rear also brick arched gateways attached to east and west of the building to the New Canterbury Road elevation, each capped with terracotta Roman or Spanish half-round tiles.

The front fence to the childcare centre has a brick base and piers, with modern metal infill panels. With the fence brickwork generally matching the brickwork of the building.

Note that the interior of the Child Care Centre is substantially altered and not considered significant.

Physical Condition:

1. Rectory - good
2. Church Hall - fair
3. Church - good
4. St Stephanos Child Care Centre - good

Modification Dates:

1. Rectory. The rectory was likely originally face brickwork which has been cement rendered at a later date. The front verandah has been enclosed with modern windows. The rectory is not considered significant due to its level of alteration.

2. Church Hall - modern concrete steps either side of the front porch. Modern Colorbond roof cladding.

3. Church - porch and colonnade added in 1984-85.

- 4.. St Stephanos Child Care Centre building - Solar panels has been added to the central portion of the main roof facing New Canterbury Road. The interior of this building has been substantially altered due to the conversion in recent times to Child Care Centre use. The interior is not considered significant.

Item Name: **St Stephanos Greek Orthodox Church**

Location: **648-668 New Canterbury Road, Hurlstone Park**

**Recommended
Management:**

APPROACHES TO MANAGING THE HERITAGE SIGNIFICANCE OF THE PROPERTY:
(note: the detailed requirements for each property will be determined on a case-by-case basis. The following advice provides general principles that should be respected by all development.)

SIGNIFICANT BUILDINGS ON THE SITE:

The overall form and scale of the significant buildings should be retained and conserved and preferably continue in religious use. All remaining intact and significant exterior fabric should be retained.

Any future development should preserve the existing form and external surfaces and materials of the significant façades.

The exterior finishes should be retained, including face brickwork.

Repainting of exterior painted surfaces should be undertaken in appropriate colours.

Opportunities for reinstatement of missing exterior detail, particularly to significant facades, should be considered during planning for future major alterations.

Management: Statutory Instrument

Code 3:
Current Use: Shops and commercial buildings, residential flat buildings
Former Uses: Shops and commercial buildings, residential flat buildings
Assessed Significance: Local
Endorsed Significance:

Statement of Significance: The Crinan Street Shops Heritage Conservation Area is of local heritage significance. The area is of historical significance demonstrating a streetscape of retail development commencing in 1903 (south-western side), and 1911 (north-eastern side) with a later group of interwar residential flat buildings at Nos. 22-24, 28 and 30, which are early examples of residential flat development in the Hurlstone Park area. The railway opened in 1895 and as the suburb developed shops appeared around the station area. The station was renamed Hurlstone Park in 1911 which coincided with the expansion of the shopping centre. The construction of the railway, the development of the suburb and the development of the small shopping centre through the early years of the twentieth century are the core aspects of the character of the suburb.
The area is of aesthetic significance for:
- The consistent development of mostly Federation period terrace shops with residences - predominantly 2 storey Federation period - built to the street alignment with awnings (and originally some verandahs) over footpaths.
- The small group of inter-war residential flat buildings at the north-western end of the area (Nos. 22-24, 28 and 30 Crinan Street) which are representative of the Inter-war Functionalist style (Nos. 28 and 30) and a generic inter-war Georgian style (No. 22-24)

Item Name: **Crinan Street Shops Heritage Conservation Area**

Location: **Crinan Street, Hurlstone Park**

- A number of original or early shopfronts at Nos. 13, 15, 14 & 16 Crinan Street
While the overall streetscape character of the shops retains its overall integrity there have been a number of façade and shopfront changes that have impacted on the aesthetic significance of the group.

Historical Notes Area History:

or Provenance:

Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s (Attenbrow 2010:22).. Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)
The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Crinan Street Shops Heritage Conservation Area history:

Hurlstone Park Railway Station opened as Fernhill Station in 1895, and the name was changed to Hurlstone Park in 1911. Crinan Street is one of the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, in this case a village in Argyle on Scotland's west coast.

The south-western side of Crinan Street was subdivided in 1903 as part of the Jeffrey's Estate 2nd subdivision, which created narrow lots for retail development.

The north-eastern side of the street was subdivided in 1911 as the Fernhill Station Estate, this coincided with the change in name of the station to Hurlstone Park.

In 1881 Thomas Cavey purchased 1.8 hectares (4 acres, 1 rood, 34.75 perches) of land north east of Crinan Street between Duntroon Street and the creek which ran parallel to it (LPI Vol.544 folio 236, 21 September 1881). Cavey was one of a small number of

Item Name: Crinan Street Shops Heritage Conservation Area

Location: Crinan Street, Hurlstone Park

brickmakers who purchased Hurlstone Park land for its clay and made bricks there until the clay pits were exhausted.

In 1911, sometime after this had happened, Cavey sold his land to Philip James Biddulph, a Sydney solicitor who quickly arranged for its subdivision and sale.

It is clear from dates on the parapets of various buildings on both sides of Crinan Street that terrace shop/residences were developed shortly after the subdivision dates, so that this area was largely built out by the end of the 1910s.

The addresses developed with Inter-war residential flat buildings (Nos. 22-24, 28 and 30 Crinan Street) appear to have been in use in the early 20th century but may not have been developed for shops – in the 1932/33 Sand's Directory No. 30 Crinan Street is listed as "Preddile, E.J. Fuel Distributor") which suggests a non-developed site.

The two slightly different periods of development are also evident in the form of the buildings with the southern (earlier) buildings having posted two storey verandahs where the northern buildings appear to have had hung awnings rather than posted verandahs. Several early hung awnings remain.

Recommended Management:

The Heritage Conservation area is to be managed to retain and enhance the heritage values that are set out in the precinct character statement. Proposed works are to retain the significant form and elements of contributory places, to recover Heritage significance (where that is possible) and to provide for infill development (where it can take place) that is

Item Name: Crinan Street Shops Heritage Conservation Area

Location: Crinan Street, Hurlstone Park

consistent with the heritage character of the precinct. Refer to the DCP controls for application requirements.

Management: Statutory Instrument

List on a Local Environmental Plan (LEP)

Further Comments:

Criteria a) The area is of historical significance demonstrating a streetscape of retail development commencing in 1903 (south-western side), and 1911 (north-eastern side) with a later group of interwar residential flat buildings at Nos. 22-24, 28 and 30, which are early examples of residential flat development in the Hurlstone Park area. The railway opened in 1895 and as the suburb developed shops appeared around the station area. The station was renamed Hurlstone Park in 1911 which coincided with the expansion of the shopping centre. The construction of the railway, the development of the suburb and the development of the small shopping centre through the early years of the twentieth century are the core aspects of the character of the suburb.

Criteria b) Not relevant

Criteria c) The area is of aesthetic significance for

- The consistent development of mostly Federation period terrace shops with residences - predominantly 2 storey Federation period - built to the street alignment with awnings (and originally some verandahs) over footpaths.
- The small group of inter-war residential flat buildings at the north-western end of the area (Nos. 22-24, 28 and 30 Crinan Street) which are representative of the Inter-war Functionalist style (Nos. 28 and 30) and a generic inter-war Georgian style (No. 22-24)
- A number of original or early shopfronts at Nos. 13, 15, 14 & 16 Crinan Street

While the overall streetscape character of the shops retains some integrity there have been a number of façade and shopfront changes that have impacted on the aesthetic significance of the group.

Criteria d) Not relevant

Criteria e) Not relevant

Criteria f) Rare original or early shopfronts at Nos. 13, 15, 14 & 16 Crinan Street

Criteria g) Representative of retail development from 1903 (south western side) and from 1911 (north eastern side) and representative of inter-war flats.

Integrity / Intactness: The Heritage Conservation Area contains a high proportion of Contributory buildings that demonstrate the early development and the key period/s of significance of the area. Contributory buildings vary from highly intact to buildings with some change or alteration but that which still demonstrate the significance for the area.

Assessed Significance: Local
Endorsed Significance:

Statement of Significance: The Duntroon Street Heritage Conservation Area is of local heritage significance. The area is of historical significance for its collection of late 19th century and early 20th century subdivisions including:
- The Woodside Estate (which formed Woodside Street), which specified a building covenant requiring buildings exceed £350 in value;
- An un-named subdivision which formed Barre Street and the northern portion of Fernhill Street;
- The Hurlstone Park No. 2 Estate advertised for sale in February 1914, which formed Barton & Wallace Avenues, that also contained a building covenant requiring buildings to exceed £350 in value;
- The Fernhill Estate subdivision advertised for sale in September 1893 that included the southern side of Barre Street, Short Street, and the southern end of Fernhill Street; and
- Late 19th century subdivisions and re-subdivisions of land between the eastern side of Duntroon Street and Garnet Street, including an un-named 1886 subdivision (DP2906), later re-subdivided.

Item Name: Duntroon Street Heritage Conservation Area

Location: Duntroon Street, Hurlstone Park

Woodside Avenue, Barton Avenue and Wallace Avenue - the product of post-1900 subdivisions - illustrate the operation of building covenants requiring buildings to exceed £350 in value.

The precinct is of historic significance for the collective significance of the buildings found within the precinct that demonstrate the key periods of developments.

The area is of aesthetic significance for its wide dead-end streets between Fernhill and Duntroon Streets with pre-1943 brush-box planted grass verges.

The precinct is of aesthetic significance for its mixed streetscapes of predominantly single storey Federation Queen Anne style and Inter-war California Bungalow style detached brick houses, with a scattering of detached and semi-detached houses from the late Victorian period. The buildings are both one and two storeys (particularly on Garnet Street, many of which are heritage-listed), reflecting the differing subdivision periods within the area. The pattern of subdivision also reflects the topography (as well as subdivision periods and boundaries), including a creek that resulted in the dead-end streets between Fernhill and Duntroon Streets.

Historical Notes Area History:

or Provenance:

Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s' (Attenbrow 2010:22). Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>) The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had passed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia – who from 1901 to 1918 sold off the land in a series of subdivisions.

Duntroon Street Heritage Conservation Area history:

Item Name: Duntroon Street Heritage Conservation Area

Location: Duntroon Street, Hurlstone Park

The Duntroon Street Heritage Conservation Area is a mix of late 19th century and early 20th century subdivisions and re-subdivisions which took place from 1886 to 1914.

Fernhill Street retains the first name for Hurlstone Park as it became a locality distinct from Canterbury. Fernhill was Sophia Campbell's house in Hampshire following her return to England. An un-named 1886 subdivision (later subject to re-subdivision) between Garnet and Duntroon Streets, part of this area, is one of the earliest subdivisions in the suburb. The 1893 Fernhill subdivision was another of the earliest residential subdivisions of Hurlstone Park and the first to use the name of Fernhill. This subdivision set out 41 building lots on land formerly used by Anthony Blamire's brick works, creating Fernhill, Barre and Short streets north of Crinan Street.

The area encompasses two allotments in Duntroon Street of the 1900 Subdivision the "St Aubins Estate" which mostly encompassed lots along New Canterbury Road. The properties at Nos 18 and 20 Duntroon Street are lots 8 and 9, DP3703 (Note Lot 8 has been redeveloped with a circa 1970s residential flat building, however Lot 9 is occupied by a substantial Federation Queen Anne style house representative of that 1900 subdivision). The dead-end streets within the area reflect subdivision boundaries and a creek (now a storm water channel). The Barre Street area was re-subdivided in 1903 and lots either resold or developed in 1909 with a slightly altered subdivision pattern by prominent local builders William Pendlebury and his son William James Pendlebury (responsible for the construction of No. 29 Fernhill Street, corner Barre Street, William Pendlebury's own house). The Woodside Estate (circa 1900-1910) created Woodside Street (now Woodside Avenue), and included a Building Covenant requiring buildings to exceed £350 in value. The 1914 Hurlstone Park No. 2 Estate subdivision created Barton and Wallace Avenues, and also had a building covenant requiring buildings to exceed £350 in value.

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had passed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Floss Street Heritage Conservation Area history:

This Conservation Area was originally part of three subdivisions: Jeffrey's Estate 1st subdivision of 1901, the Starkey Estate subdivision of 1904 and the Hurlstone Park Estate subdivision of 1912.

Both Floss and Duntroon Streets are among the streets set out in the first subdivision of Hurlstone Park by Sophia Campbell, named after sites from the Campbell family's Scots heritage, e.g. Duntroon Castle on the north side of Loch Crinan across from the village of Crinan in Argyll, West Scotland.

Jeffrey's Estate 1st subdivision 1901

This subdivision was the first offered as part of the Jeffreys Estate. The subdivision comprised 92 building lots south of the railway line, bounded by Fernhill, Kilbride (later Burnett), Starkey and Commons streets. An example of houses developed on this subdivision is 128 Duntroon Street, (Lot 1, Section 1 of the subdivision), purchased in 1906 by dairyman Frederick Sherring, who moved his cows and horses to his new property. Sherring and his dairy are listed at the address in 1907. From 1911 the dairy was listed at the address under a new proprietor. In 1914 a new cottage on the property was advertised for rent, and from 1915, following another sale of the property, the dairy business on the property ceased.

Starkey Estate subdivision 1904

William Starkey was a cordial manufacturer resident in Dulwich Hill. Starkey's land lay south

Item Name: **Floss Street Heritage Conservation Area**

Location: **Floss Street, Hurlstone Park**

of Floss Street between Duntroon and Dunstaffnage streets, bisected by the railway cutting when this was constructed during the 1890s. Retitled in 1896 it was subdivided and offered for sale in 1904 as the Starkey Estate, which consisted of 18 lots facing Floss Street and six on the western side of Duntroon Street between the railway station and Commons Street. Most of the estate was purchased by Lewis Parker Solomons and Adeline Burgess Halloran, wife of Edward Roland Halloran, an architect and Petersham alderman. (LPI Vol. 1749 Folio 28, 10 January 1907). Halloran's son, Henry Ferdinand Halloran, had surveyed the Starkey Estate and was part of a 'land syndicate' with Solomons, buying, promoting and reselling land ('A land syndicate', Australian Star, 4 September 1906, p.4). He would go on to be one of Sydney's high profile realtors. We can be confident that the Halloran family did well from the Starkey Estate; their involvement may have extended to Edward Halloran, who specialised in domestic architecture, designing some of the Estate's houses. Examples of houses developed on the Starkey Estate subdivision of 1904 are:

- No. 109 Duntroon Street, built in 1908 for John Giblett, who ran a tannery near Melford Street, and lived nearby on the eastern side of Duntroon Street. This house was used as a commercial college from 1911 to about 1948, capitalising on it's proximity to the railway station.

- No. 113 Duntroon Street, built in 1905 for provision agent John Wilson Bailey and his wife and named "Glenleith" by it's second owner.

Hurlstone Park Estate subdivision 1912

This subdivision included the lots from 26 to 36 Floss Street, on the southern side of Floss Street facing the railway line to the north, most of which were developed in the early 20th century for commercial or retail buildings. Lots 4 to 8 of the subdivision were long and narrow, clearly intended for retail development, where Lots 1 to 3 and 9 and 15 were larger and clearly intended for residential development. However Lots 4 and 5 were purchased together and later became the site of an Inter-war California Bungalow style house, which remains on these lots of the 1912 subdivision (DP6709). Lot 6 was developed in 1916 with a pair of shops (Nos. 32-34 Floss Street) and was later subdivided to give each shop a separate title. Lot 7 is the site of the 2-storey commercial building at No. 30 Floss Street. Lot 8 appears to have been purchased with the adjacent lot, and developed for a house, which later had a shopfront and awning built at the front, the building occupying Lot 8 and part of the re-subdivided former Lot 9.

Assessed Significance: Local

Endorsed Significance:

Statement of Significance: The Hampden Street Heritage Conservation Area is of local heritage significance. The area is of historical significance as an area developed from two subdivisions: the Fernhill Railway Station Estate subdivision advertised for sale in September 1895 encompassing Hampden Street, the eastern side of Duntroon Street near Hampden Street, and the western side of Garnet Street near Hampden Street; and the Fernhill Station Estate subdivision advertised for sale in April 1911 that encompassed the western side of Duntroon Street opposite Hampden Street, and Marcia Street. The area is of aesthetic significance for its Hampden Street streetscape, a wide street with grass verges and late 20th century street tree plantings, and mix of single storey Victorian Italianate and Federation Queen Anne style detached houses; mix of late Victorian period and Federation Queen Anne style detached and semi-detached houses and Federation period corner shop in Duntroon Street.

Historical Notes or Provenance: Area History: Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed

by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid 1800s' (Attenbrow 2010:22). Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had passed her land to nephews John and Arthur Jeffreys – English residents who never visited Australia – who from 1901 to 1918 sold off the land in a series of subdivisions.

Hampden Street Heritage Conservation Area history:

The Hampden Street Heritage Conservation Area was developed from two subdivisions: the Fernhill Railway Station Estate subdivision advertised for sale in September 1895 encompassing Hampden Street, the eastern side of Duntroon Street near Hampden Street, and the western side of Garnet Street near Hampden Street; and the Fernhill Station Estate subdivision advertised for sale in April 1911 (DP6091) which encompassed the western side of Duntroon Street opposite Hampden Street, and Marcia Street. Little re-subdivision has occurred in Hampden Street, however lots in Marcia Street have been subject to later re-subdivision (for example No. 2A Marcia Street is a result of a later re-subdivision). The 16 year gap in subdivisions has resulted in buildings of different periods being developed in the precinct.

Melford Street HCA history

The Melford Street Heritage Conservation Area was developed from four early 20th century residential subdivisions sold between 1905 and 1912:

- The Brixton Hill Estate subdivision (DP5102) advertised for sale in April 1905, which included lots between Kilbride Street and Acton Street (much of this later re-subdivided) with the lots originally long and narrow (note Lots 11 and 12 of the subdivision remain in the original configuration, backing onto Acton Street to the north);

Item Name: Melford Street Heritage Conservation Area

Location: Melford Street, Hurlstone Park

- The Jeffrey's Estate 4th subdivision advertised for sale in October 1907, which encompassed a small area between the southern side of Canterton Street and the southern side of Floss Street, between Melford and Dunstaffenage Streets;
- The Jeffrey's Estate 5th subdivision which was advertised for sale in September 1910, and encompassed the area north of Floss Street to Crinan Street southern side, between Melford Street and Dunstaffenage Street;
- The Jeffrey's Estate 6th subdivision advertised for sale in September 1912, which included the southern portion of the area north of the railway including both sides of Melford Street, and encompassed much of the area between the railway line to the south and the southern side of Canterton Street to the north.

Admin Codes:
Current Use: Residential
Former Uses: Residential
Assessed Significance: **Local**
Endorsed Significance:

Statement of Significance: The Tennent Parade Heritage Conservation Area is of local heritage significance. The area is of historical significance as an area developed from the Jeffrey's Estate 9th subdivision offered for sale on 19th May 1917 (DP8865) with housing styles that reflect this history and period of development. The area is of aesthetic significance for its consistent group of predominantly Inter-war California Bungalow style houses (Nos. 18 to 30 Tennent Parade), and one Federation Queen Anne style house (No. 16), mostly set high above street level overlooking parkland along the Cooks River to the east. The house designs reflect the topography with tall sandstone undercrofts that is a distinctive form within the suburb.

Historical Notes or Provenance: Area History
Hurlstone Park is part of the traditional land of the Wangal people, who occupied the area for at least 10,000 years prior to the European occupation of the area. The Cooks River provided abundant food for the indigenous people along its wooded north shore, confirmed by shell middens and carvings on several sandstone outcrops along the river side. After 1788, conflict and pressures arising from the expanding Sydney Cove convict settlement resulted in death and displacement of Aboriginal people. It is estimated that almost half of Sydney's Aboriginal population died in the smallpox epidemic of 1789. However, Aboriginal people 'remained living in many parts of the Sydney region until the mid

1800s" (Attenbrow 2010:22). Blanket distribution lists from the 1830s show that few people who identified as Aboriginal were living in the centre of Sydney. Many had moved to places such as La Perouse on Botany Bay, south of the city. (Summarised from <http://www.sydneymarani.com.au/sites/aboriginal-people-and-place/>)

The Cooks River was dammed at Tempe and Canterbury in 1840 and 1842, compromising its water quality and abundance.

Hurlstone Park occupies land amalgamated by the merchant Robert Campbell from several of the first land grants made in the British colony. By 1830 Campbell amassed more than 500 hectares, including all of the land between the Cooks River at Canterbury and Liverpool Road at Ashfield. Following Campbell's death in 1846 this land passed to his daughter Sophia Campbell and son-in-law Robert Jeffreys. A farm and later a subdivision had already created the village of Canterbury while the land to its east was primarily used for grazing and sandstone and brick quarries after Sophia Campbell's subdivision about 1876 which set out most of the present streets of Hurlstone Park. Land sales and house construction accelerated after 1895 when the railway line was extended west from Marrickville. By this time Sophia Campbell's will had conveyed her land to nephews John and Arthur Jeffreys - English residents who never visited Australia - who from 1901 to 1918 sold off the land in a series of subdivisions.

Tennent Parade Heritage Conservation Area History

The Tennent Parade Heritage Conservation Area was developed following the Jeffrey's Estate 9th subdivision offered for sale on 19th May 1917. Of the eight houses within the area, only No. 16 is Federation Queen Anne in style, so clearly built first, while the remaining houses are Inter-war California Bungalow in style and therefore built in the 1920s.

Location: **Tennent Parade, Hurlstone Park**

Modification Dates:

Recommended Management:

The Heritage Conservation area is to be managed to retain and enhance the heritage values that are set out in the precinct character statement. Proposed works are to retain the significant form and elements of contributory places, to recover Heritage significance (where that is possible) and to provide for infill development (where it can take place) that is consistent with the heritage character of the precinct. Refer to the DCP controls for application requirements.

Management:

Further Comments:

- Criteria a)** The area is of historical significance as an area developed from the Jeffrey's Estate 9th subdivision offered for sale on 19th May 1917 (DP8865) with housing styles that reflect this history and period of development.
- Criteria b)** Not relevant
- Criteria c)** The area is of aesthetic significance for its consistent group of predominantly Inter-war California Bungalow style houses (Nos. 18 to 30 Tennent Parade), and one Federation Queen Anne style house (No. 16), mostly set high above street level overlooking parkland along the Cook's River to the east. The house designs reflect the topography with tall sandstone undercrofts that is a distinctive form within the suburb.
- Criteria d)** Not relevant
- Criteria e)** Not relevant
- Criteria f)** Not relevant
- Criteria g)** The area is representative of face brick single storey Inter war California bungalow and Federation Queen Anne style housing with sandstone undercrofts.

Integrity / Intactness: The Heritage Conservation Area contains a high proportion of Contributory buildings that demonstrate the early development and the key period/s of significance of the area. Contributory buildings vary from highly intact to buildings with some change or alteration but that which still demonstrate the significance for the area.
